Freelance carpenter Shay Bourne has been sentenced to death for the murder of a little girl, Elizabeth Nealon, and her police stepfather. Näytäkokonaan... 11 years after the murders, Elizabeth's sister Claire needs a heart transplant, and Shay volunteers are thizing the state's execution plans. Meanwhile, death row has been the scene of some strange events since Shay's arrival - an AIDS victim goes into remission, an inmate's pet bird dies and is brought back to life, water flows from tap wine. The author already brings other compelling elements to a complex plot line: the priest who served as Shay's spiritual adviser was also on the jury that convicted him; Maggie Bloom, Shay's ACLU representative, balances her professional moxie with her negative image and difficult relationship with her mother. Picoult carries the story with vivid debate about prisoner rights and religion as he descends deep into mother daughter relationship and examines the true and figurative meanings of having a heart. The keys to perspective are sudden, but this is a minor flaw in an impressive book. #original\_books\_modern #origin яаворороыила Стеыани Маыер, то мены она яаставила длакаыт, дереыиват... Although the book opens with a terrifying scene - a family stabbed to death by a man named Jack - the story quickly moves into more child-friendly storytelling. An 18-month-old baby, the only survivor of the attack, escapes from his 50s and home and continues to walk to a nearby cemetery, who immediately realize that the baby is an orphan, adopt him, name him No One (Bod) and let him live in their graves. Inspired by Kipling's Book of the Jungle, Gaiman explains how the toddler navigates through gravestones, asking a lot of questions, and collecting the tricks of the living and the dead. In series-like episodes, the story learns Bod's progress growing from baby to adolescent, life lessons amid a long-dead cadt of ghouls, witches, intermittent human interlopers. A pale, nocturnal guardian named Silas, it takes food, books and everything it might need from the human world. When the boy walks away from his usual game among the tombstones, he finds new dangers, learns his limitations and strengths and gains the skills needed to survive within the confines of the cemetery, and beyond in a wider world within the boundaries of the cemetery and beyond. After receiving a diploma in Japanese art and history from Harvard and Columbia, and after a master's degree in English, he met a famous businessman in Tokyo and a man who was the illegitimate child of a geisha.
