Panduan Cara Download / Report / Request Ada di Sini frequently asked questions In general 2 Story 2 Animation 4 Sound 2 Character 1 Pleasure 2 If you try to awaken me, you fill me with lust. Let this set the tone for this review. Just really let that sink that not have to take long. Based on the three versions that were given, it had to be some kind of experiment to see what they could do with adult anime. Obviously, all ages version is a joke from how it will be stabbed to hell and back, and the 15 version has some ludicrous censorship of this side of Pupa and Okusama ga Seitokaichou, although with the latter, it's more to cut out the puppet segments to cut off from the juicy bits. So what does the 18 version make more and more higher? Not even in the slightest. In fact, the censored version is actually sparing its audience to see how much of a mistake (and bore) it's actually just distracting them with silly puppetry. HISTORY: What's the story? Each episode is three minutes long and it sometimes skips around like a scratched DVD. What a little story there is basically how every smutfic in existence can be summed up in one sentence: A girl meets a boy / reunites with a boy now all grown up and sexy (well ... Tapes.ru) is coming. They make a failed attempt to make it interesting by having a man be a monk and he needs a groom to please his parents since he takes over the temple, but nothing remarkable comes from that. yes, and there's some kind of relationship drama somewhere. Except that I don't see how positive it is, let alone a healthy relationship in the first place. CHARACTERS: I didn't bother to remember the names of these characters, and not just because I watched it damp most of the time. But I have to briefly mention these characters, so for clarity, I'll call them Carrot Top, non-Saitama, and Proto-Kaworu. Parents are meaningless, they are not even going to mess with them. Carrot Top is a well-to-do woman. That's it. She has no personality traits outside of being a submissive sex doll for non-Saitama groping and performing obscene acts whenever he wants. This is because she has a blank slate for the viewer to insert herself in and pretend non-Saitama is delightful of her. Because women and their fantasies, am I right? Non-Saitama is a horn dog who really likes to lick his pretense-fianc's tits and ears and poke around in her holes. He probably also borders (if not straight) rapey because he took advantage of it when she was drunk and he always initiates the first step. Must teach his pretender fiance to be the perfect monk's wife, am I right? Right off the bat with his introduction, Proto-Kaworu does nothing but hit the Carrot Top every chance he gets, except for one time non-Saitama caught him, so watched two of them work out on the spot. Place, just here to shoehorn in the drama and deal storyline, which is decided in the second to the last episode anyway, because that's what all the novels need, I'm right, or I'm right. Why am I getting some scary Twilight/Master vibes from this? ART/ANIMATION: Going to start this by saying I'm not surprised Seven, the studio behind this anime joke, was also the same for Okusama, but they shockingly also did I can't understand what my husband is saying. And apparently they also worked on quite a bit hentai I'm not interested in what it is. So there will be no praise in this department. Their specialty is mostly short anime, so good for them that it works in their favor. Too bad the animation looks like it was made by a lemon fanfic writer who tried to replace their crappy written sex scenes with Flash animations to make it look better. That's how embarrassing and amateurish it is; it's still easy on your eyes compared to some of the other cheap hentai out there, but the bugs are sloppy and egregious, you have to barely look at the screen to avoid seeing them. They try to hide it by making the art look pretty and using as many still frames (minus mouth flaps) as possible in the three to four minute running time they have, but even those still frames can have out-of-model moments. The only times it looked good and had some actual care put into it were in the first two episodes. But that was the whole point as these episodes were also hot. Must give credit where the loan is due, no matter how small. SOUND: Absolutely forgetful and as amateur-like animation, as you'd expect from an actress voice that was in the other two hentai before. And what a surprise, the voice of the actors are all nobodies. The soundtrack itself is also boring, I'm sure they just repeated the same two tracks over and over again, I just can't be bothered to check. Ending themes is also pointless and doesn't sound all that great, there's nothing grabbing your attention other than letting you know at the end of the credits rolling. I had to watch these raw episodes if I wanted a complete experience, so I can't judge the dialogue. But I suppose based on the quote I gave above from the fansub of the first episode, all the dialogue consists of being spouted from Captain Obviously. And I just have to ask: Who says that? Seriously. It can't just be a strange translation, the script has to be actually that awkward and hokey. OVERALL: Just watch the first two episodes just raw (unless you're curious what the 15 version looks like). It's only seven minutes of your time, I'm sure you can get out on it within that time frame. And ladies, don't give this pass-through score, or hell, even a fleeting look just because it's animated for women. We are The best quality smut to fantasize about.
