

Managed Services Provider (MSP)

MTS manages and maintains your IT Environment to support CEOs, CIOs as they ensure business systems are maintained.

MTS supports Cloud, Network (WAN, LAN, WiFi, VPN and Firewalls), PC Workstations, Microsoft 365, Security, Storage, Backups, Mobile Devices, Printers and Service Desk. Managed services are priced and delivered as a service (by the size of your environment).

Our goal is “predictable” and fixed IT costs for your business!

Struggling to support breadth of services with current team?

It can be difficult and costly to have the right level of coverage and expertise to support business operations. Plus, with few resources, it can be risky to rely on a small team to support key operations.

Services & Flexibility Provide Value

Services:

- PC / Workstations
- Cloud Services
- Network Services
- Storage & Back Up Services
- Microsoft 365 Admin
- Mobile Device Management (MDM)
- Help Desk - 24 x7 coverage
