Let's  
Read!

# Movies - Vocabulary

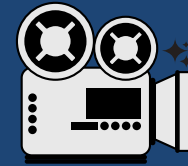

Movies are very popular all over the world. The first movie camera was invented in 1890 by Thomas Edison. He also **invented** the movie **projector**, which plays the movies onto a movie screen. The first movie theater was opened in France in 1895. America was the next country to open a movie theater in 1905.

The first movies didn't have color or sound, but they were still very popular. Sound was added to movies in 1927, and the first movies with color were in the 1930s.

# Movies - Vocabulary

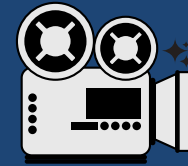

Most of the movies made in the USA are made in Hollywood. Walt Disney started in Hollywood and made the first animation movie called a cartoon. Thousands of drawings are needed to make just a few minutes of animation. Now it is mostly done by computers.

## True or False?

1. Animation movies are called cartoons.
2. Most animations are drawn by people now.

# Movies - Vocabulary
