It's a middle-class novel mostly about football and friendship, established in midland in 1953. This is an autobiographical story, not a real prequel to a book of pictures. Janet Alberg, winner of two Greenaway medals, finished second behind The Burglar Bill (1977). The book has received mixed reviews on various online stores and websites. Some readers loved the charm of the book and the unique story, while others do not consider it morally acceptable for a young child to read, as the topic of burglary is considered rather carefree without serious consequences. With some other parts it was published in 1888 as Bill Burglar Burglar, and other pieces for the young reciter. The play tells the story of a robber, interrupted in his work by a little girl who asks him to forcefully open the jammed door of her doll's house. Touched by her friendliness, he does so, forgetting the jewels he came to steal, and is rewarded with Damson's tartlet before fleeing. BBC press office, June 11, 2006 - Burglar Bill, and other works for a young reciter on the portal of children's literature of the Open Library, extracted from the Burglar Bill - is a delightful story of a thief who lives at the expense of other people, until two major events change his life. First, when he steals a box only to find it contains a child, and secondly, when he too is robbed, burglar Betty. An incredible union that follows offers a comfortable morality that turns both thieves into honest people who swear to keep on straight and narrow. Bright illustrations (if somewhat stereotypical, with Burglars Bill and Betty in striped shirts, eye masks and carrying swag bags!) cheer up this somewhat serious tale and break up the text for the first readers. A wonderful story to read together before going to bed. (Ages 4 to 7) --Lucy Naylor Amazon.co.uk Teacher Review Kids should read at home every day to practice the reading skills they were taught. One night when he's out burgling, he comes through a box with holes in the lid on the doorstep. He picks him up, of course, and when he gets home, he discovers to his horror that he has stolen the baby. He and the child get confused together until one night he is disturbed by the robber - Betty the Robber. She's the mother of Robber Bill's baby. Bill and Betty decide to reform and live an honest life; they return all stolen, get married and live happily ever after! Who's crawling down the street? Who climbed over the wall? Who's going through the window? Who is this? ... It's Burglar Bill. Allan Alberg, a former teacher, postman, plumber assistant and gravedigger, is in the super-league of children's writers. He has published more than 100 children's books and, with his late wife created such winning picture books like EACH PEACH PEAR PLUM and JOLLY POSTMAN - both Kate Greenway Medal winners. He has also written award-winning poetry and fiction and lives in Sussex. This book made me laugh out loud (with the window open - I'm sure my neighbor is questioning my sanity!). There is something straightforward but deliberately funny about the whim in many British children's books, and it really takes it to the extreme. Like the tiger that came to tea, you find yourself reading about something rather strange, but described in a way as if it were the most natural thing in the world! Burglar Bill is a burglar (obviously). Very stereotypical type - with this book I was laughed out loud (with an open window - I'm sure my neighbor is questioning my sanity!). There is something straightforward but deliberately funny about the whim in many British children's books, and it really takes it to the extreme. Like the tiger that came to tea, you find yourself reading about something rather strange, but described in a way as if it were the most natural thing in the world! Burglar Bill is a burglar (obviously). Very stereotypical type - with a black and white striped top, a bag of loot on the back and a mask on the eyes. The book seems to relish stereotypes as part of its stupidity. Anyway, gosh, Burglar Bill is completely determined by all his cracker-ness as well as his Englishness, like every night he stole fish and chips and a cup of stolen tea for dinner. In fact he even uses a stolen bag to do his job stealing things. Every morning he stole toast and marmalade - as with Tiger, who came for tea, there is a ridiculous combination of traditional cozy English life along with something quite strong and unmannned. But from the beginning, you can see, Burglar Bill is not exactly a scary robber. He has a cat that cuddles up to his bed at night, and a teddy bear. His job of burglary is pretty funny. It looks like this: It's a good toothbrush, says Burglar Bill. I'll have that! And he puts it in his bag. It's a nice can of beans,' says Burglar's Bill Burglar. I'll have that! And he puts it in his bag. The real adventure begins when he burles a big brown box that is left on the doorstep, takes him home, and realizes that there is a child inside him. Suddenly Burglar Bill is a quiet polite English man while the child is a destructive force. Burglar Bill must find ways to entertain and look after the child - feed him beans, play the piano with him, trying to change his diaper, teaching him to talk. (Yes, it really isn't the most realistic of the books if you haven't figured it out by now! Not having a stroller, Burglar Bill takes the baby for a walk in This book really has a rather complex plot for a picture picture - I'm sure I would have loved him if he had been around when I was a kid. (Oh, by the way, here are some spoilers - stop reading now if you want to read this book and marvel at the plot twists!) That night, Burglar Bill woke up to the sound of someone in his house saying: It's a nice umbrella - I'll take it. We already know that this is of course what all the burglars say when they are burgling the house, so Burglar Bill realizes that he is being robbed and goes downstairs and sees a woman with a striped top and mask in front of her. The exchange between them is that I laughed out loud: Who are you? Says Burglar Bill. I'm Burglar Betty, says the lady. Who are you? You can totally imagine the author with great pleasure in creating such a frankly funny script! And guess what - it turns out that the child is Betty's Burglar. She just left him on the door step while she was busy with the burgling, and the next thing she knew, he left. Can't bother her that much to have her baby stolen though, given that she was out burgling again in the day and getting excited to find a nice umbrella to steal! The plot becomes very predictable - as Burglar Bill and Burglar Betty talk, they both establish that the other is one, and so they decide to get married. And of course, give up their burgling ways - clearly a story for children should have a moral end! Burglar Bill starts working in a bakery and becomes a bakery Bill. Burglar Betty becomes a mom's house, I suppose. It's so much fun and obviously far-fetched! Best book on the list so far! ... More...
