TRAINER TROUBLESHOOTING ANTI-VIRUS NOTIFICATIONS GET AN OFFLINE AKAbur's Princess Trainer: Gold Edition is an adult training game based on Disney Aladdin. The action takes place after The Witch Coach, which takes place in the Harry Potter universe, which, in turn, takes place immediately after the events of the Magic Shop. In this game, the players control Genie, who had to satisfy the three desires of the evil Jafar and eventually be human. With Aladdin from the picture, Jafar wants to marry Jasmine, but needs her made submissive and slave. Jin, who lost his memory after Jafar's third wish, begins to work for him. Jean gets control of jasmine and gradually turns her into a sex slave. He has to coach her becoming more obedient and with less shame. During this he meets Rose, where Jasmine gets her obedience classes, and Azaela from a local clothing store where he buys outfits for several girls. The game also has a brothel, one of the many types of jasmine jobs you need to work to earn Genie money. Lola, the spoiled daughter of Madame brothel, eventually finds herself in the house of Jeanie, as well as Iris, daughter of Maslab, a local bartender. Lola, a girl who grew up in a brothel, still behaves like a spoiled boy. She wants to become a prostitute, but her adoption mother wants a better life for her. So she leaves her house and joins Jeanie, whom she always calls an old man. It turns out she has a hypoactive sexual desire disorder (HSDD), which means no sex drive at all. Through quests, Genie helps her overcome HSDD. Iris, Maslab's daughter, like some trouble with Dad. She wants to become a prostitute to prevent her father, who does not allow her to engage in any activities like dancing on tables in his tavern or groping customers. Saying that she wants to be treated like a normal girl, she does some pretty anomalous things like walking down the street naked, becoming a prostitute, wanting to be hit and choked during time Among other things. Eventually she begins to live with Jean and works in both his father's tavern and brothel. After training Jasmine completely, Jin turns her into a Javar. He gets some memories and gets his memory back. Jawan, however, took Jasmine with him on his wedding day and used her as a sex slave in front of most of the inhabitants of Agrabah. Jasmine gets scolded by people and no one has any confidence in her what it is any more like a princess. Jawar's plan was a success. Jean returns home and meets Iris and Lola. He discusses his past memories with Iris, and they both decide that they will do something about it by helping Jasmine. The extended finale shows them meeting Iago, Jafar's parrot. For some time in the future, Jin and Iris use the brothel as a springboard. Together with Maslab and his brother Lola and some others, they plan to help Jasmine. They are greeted by their last member, Aladdin. The game ends with this cliffhanger. The gameplay basically consists of sending Jasmine to work to make money, so you can train her to become a slave Jafar wants. Each day is divided into three minutes, morning, afternoon and evening, with different things available and happening in certain places at the right time. Lola and Iris are gradually unlocked, completing quests for the brothel madam and Maslab respectively. The game has many quests to unlock certain parts of the game, increasing money, earned jobs, progressing history, and so on. The game also contains many problems for which the goals are partially hidden. They show what needs to be done, but not how many times. For example, enter the Tavern 0 of ??? Days of the week. These problems unlock mostly items of clothing for specific characters like breast-feeding or slave outfits. Completing all tasks provides access to an extended ending, leaving the cliffhanger hinting at a sequel. Gold Edition, the only version available, simply means that it contains in-game cheats to make the game easier and faster.
