بسم الله الرحمن الرحيم الحمد لله رب العالمين والصلاة والسلام على سيد المرسلين واله وصحبه اجمعين قال تعالى ورتل القران ترتيلا ..... الاية Glory to the divine presence of the Robbie the Overlord of the universe. Sholavat and greetings can always be bestowed upon us by the Great Prophet of Latter-day, who showed us the path of truth. Amen yaa robbalalamine. In this article, we deliberately did not mention the mahra and its properties of letters, because the study of mahroi and its properties takes a long time and takes quite a long time, in addition to learning musyafahah (meet in person) with a qualified teacher. LAW OF STUDYING TAJWID Science Of the Tajweed: The science used to know how to pronounce the sentences of the Koran, so that our oral is not mistaken in reading. The law of study tajwid science fardlu kifayah and practitioners this fardlu 'ain. The rule and how to read ta'awwud most experts qiro'ah before reading the Koran lights up reading ta'awwud, while according to some qurro 'law is mandatory. As if to read it already in the following: Ta'awwud reads lirich or slowly when he reads the Koran with learia, them, reading alone and in a quiet place, and read during prayer either jahriyyah prayer or sihriyyah prayer. He said, Oh, my people! When reading the Koran alternately (when one ends reading and then passed again to another) poppy man who reads the Koran first reads ta'awwud aloud, then the next person with lyric. When you read the Koran there are new things (such as sneezing /waching, coughing, saying words that are related to qiroah, such as the interpretation of the Koran) and still in the ceremony, then do not repeat reading ta'awwud. If the new dating thing has nothing to do with qiro'ah then repeat ta'awwud again before reading the second Koran. The ruling nun dies and the tanvin nun dies and tanvin when met with a letter hijaiyyah law exists: 5 1.idzhar 2.idzghom accompanied by an unmanned 3.idzghom without the absence of a drone. 4.iqlab 5.ikhfa' they all have their own letters and understanding. This : removing the letters idzhar without accompanied by hum, reflection, stop, tasydid. while reading idzhar has six letters (hamza, haq,'ain, kha', kho', ghoin) Example: a.k.a. In 2014, the government announced that it would reopen its 2018-2018 fiscal year. and Allah is all-ing, all-wise. But if it is in one kalim, it is called reading idzhar. Example: قaنوaناa دaنiيا انوaناa عوaناn while the length of the drone in the books tajwid is explained by 1 alif or 2 harokat (2 movements), but in practice 3 movements (1.5 alif) example: aka only vibration or vibrate ro 'is only one vibration. Example: I'm not going to be able to do that, he said. Accompanied by a drone (just like an idzghom accompanied by a drone) keep in mind that the position of the mouth is not very tight, but there is still a stretch. And Allah is all-11 for the peoples of the world. Example: مaنa بaعد becomes مaمaaعaسميع د for سaمaيaعaبaبaيرa: Say a dead letter that is not non-sitting in the position between idzhar and Idzghom.also accompanied by an unmanned aerial vehicle. While the letter is 15 (ف ف also ش ح ك and ت ز ز د a.) Example: يaنaنaرaكaمa zasha and so on. When you meet one of the letters of hijaya there are 3 laws: Siafawi Ikhfawi occurs when after the death of mima there is a letter ba' It happens when after death there is mim. For example: فaفaيa قaلaوaبaوaمa is read 0فaيa قaلaوaبaوaرaa idzhar syafawy occurs when letters except ba' and mim are written after the death of mim. Example: If there is a mim or a nun with a drone, then read the Gunn, which is the same description in the language of idzghom accompanied by a drone. Example: عaمaa يaتaسaلaلaوaنa HUKUM LAMNYA AL TA'RIF AND LAM FI'IL Law lamnya al taarif there are 2: Al qomariyyah happens, then there is one of the letters collected in lafadz zaa حaحaكa وaخaفa عaقaهaييهم example: a.k.a. laلaييوa,م laلaوaدaلaي Al shamsiyyah occurs, after which there is one of the following letters ضa th تa تa ش - د example: وَارْكَعُوْا مَعَ الرّٰكِعِيْنَ. Ordinance llama Fiil (lam, which is in kalimah fiil) read idzhar (clearly not idzghom) muthklaq either in the middle or on the edge, or fiil mudlori', madly, amar. Example: قaلa نaعaمa , وalaaa قaلaدا laخaلaوal LAW ID'GHOM MITSLAIN MUTASORIBAIN MUTADIANISAN divided into 2: Shogir (when the first letter dies) Kabir (when the first letter is in harmony or life) occurs when there are two letters in the same nature and makhrojnya. For

example: zaasha بaعaحaكla لالaحaجaر - (Idzghom shoghir) should not read qolqolah occurs when there are two letters that makhrojnya close, but differ in terms of its nature, such as the example gave die met with Jim, ta'mati met with sin. Example: it is the same, but differs in terms of its nature, such as the example of ba 'die met with mim ba 'die met with fa ' example: laرaكaبa مaعaنal -shoghir (according to the reading of Imam ashima) يaعaaaبa مaنa يaشala عaلall Writing mad There are 3 alifs that fall after fatkhah yak, which falls after wawu kasroh, which falls after Mad dlummah is divided into 2: 1.madli 2.mad far'i occurs when there is a crazy letter, after which there is no hamzah or sukun (dead letter) Example: while the length of reading is 1 alif Divided into two: 1 After the letter is crazy. when at one time sinks: a mad obligatory muttasil, while the length of reading is 4 harokat (2alif) a.k.a. When it's read to you, you won't be able to do it. After the mad writing there is a or a letter that dies when the original dies (bertasydid) and in one kalimah called crazy 'custom mutsaqqol kilmi example: الزا ,ولاaخه If unsydid is called insane lazim mukhoffaf kilmi. But if the one letter is called crazy it is common to harfi mutsaqqol, if the letter is ensyed with the following letter Example: Although not diidzghomkan with a letter then called mukhoffaf harfi. Example:... When death comes a new (because waqof) is called crazy 'aridl lissukun. Example: الرحيم ,نستعين , No العامين While the length of his reading - Mad, usually mutsaqqol kilmi or harfi is 6 harokat or 3 alif - Mad 'aridl lissukun the length of his reading can be 1.2,3 alif occurs when there is the right dlomir ghoib muf mudrodza, which falls between two live letters. Length 1 alif. For example: various hamzah kalimah from some scientists some say that the length is the same as crazy jaiz munfashil (1,2,3 alif) Example: وaoaوa يaحaوlaرaoa - Happens when waqof on tanwin reads nasob. Length 1 alif. Example: The original Mad laفaوaحal there are two hamzahs he-along, and the second is replaced by a mad letter corresponding to the harokat of the first hamzah in. Example: When there are two medium collected yaks that first died and the second died example: حيaت If there is a wawu or yes that falls after fatkhah and diwaqofkan the length of reading can be 1.2.3 alif.
