

## December in Mrs. Leal's 4<sup>th</sup> Grade

We had such an amazing experience reading, "Wonder" together and concluding our literature study with a class field trip to see the movie. It's going to take a very special book to be able to follow the footprints, "Wonder" made in our hearts. Before diving into a new novel in January, we will spend December reading shorter passages, both fiction and non-fiction. We will also spend time reading/learning about holidays celebrated around the world. In addition to reading, we will be busy with the following concepts; long division, multi-step division problems, animal adaptations, biographies, Aztecs and Incas, modal auxiliary verbs, and more!

Our class will celebrate the holiday season with a class party just before the winter break. More info about that to come!

*Happy Holidays!*
