ru drives. The software has a simple graphical user interface (GUI), and is very easy to install and use. (at least on Windows 2000 and Windows XP systems). Bioscrypt Access Manager supports the following storage devices: * hard disks (starting with 2.5 GB) * CD/DVD-ROMs (at least 20 GB) * External USB 2.0 mass storage (at least 2 GB) Bioscrypt can be used as a solution for home and small office use. The software is available for download from the VeriSoft Web site at [www.verisoft.com]. The VeriSoft Access Manager software can be obtained as a pre-configured virtual machine, or as an EXE file. If you obtain the EXE file, you may have to execute it from the Bioscrypt Disk. For more detailed instructions on how to use Bioscrypt and the required virtual machines, see the article "How to use Bioscrypt VeriSoft Access Manager" on the Bioscrypt Web site. Conclusion [4Sec17] ===== Bioscrypt is a software tool for secure data exchange, working on top of the NTFS filesystem. In order to provide an adequate level of security, the software employs a complex algorithm for encryption and decryption of files. The software is also used for data deduplication. The authors would like to thank the Bioscrypt development team, especially Mark Dean for the final implementation of the code and Matyáš Hanula for the illustrations. **Open Access** This article is distributed under the terms of the Creative Commons Attribution Noncommercial License which permits any noncommercial use, distribution, and reproduction in any medium, provided the original author(s) and source are credited. Q: How to set select in serializer in Django In Django, I want to use serializer to build a form. I want to build a form in such a way that when the values of 2 select box are same, I don't have to check and show the data in another serializer. I have done some research and I want to use serializer in this way: Model: class Hero(models.Model): class Meta: verbose_name = 'hero' 520fdb1ae7
