Required fields are marked \* Your rating Your review \* Name \* Email \* This is a game that I am having a difficult time actually keeping myself occupied with, since it's so easy to get into. It is a nice little distraction, though, and is well-worth your time if you have a few minutes to spare. The gameplay mechanics are not as new and exciting as the title would lead you to believe, but in its defense, it is not a bad game to play if you are on the go. There is a fair amount of variety in the puzzles, and it will keep you interested to see if you can solve them. It has a very colorful and inviting 3D design. The use of 3D makes the game look more interesting than most other similar games on the market. It is a fun distraction, especially if you can find a few minutes to kill during your day. 520fdb1ae7
