App Review Vidmate Title Version 4.4318 Last Updated September 24, 2020 Size 18.07 MB Total downloads 500 million Android 4.0 Developer Nemo Studio DOWNLOAD VIDMATE FOR DOWNLOAD VIDMATE FOR PC VidMate for Android Vidmate for Android file .apk. Download the apk file directly from our website. You can directly download it to your android and install it or download it on your computer and transfer it to your android device. How to download Vidmate apk Free? Download Vidmate apk If your device says: Installation is blocked, allow installation from unknown sources on your device. (To prepare) run and search for the video you want or view any website. Download the video and enjoy. How do I download a video from VidMate? You can easily download the video. Follow each of the steps below to use it correctly: 1) Run the app on your device. 2) When it's open, you'll see a search column at the top along with the top sites underneath it. You can also see the video and trending videos on the home screen. 3) Now, if you want a specific video to be uploaded, take a look in the search box. You can choose whether you want all the results or just with YouTube alone or just a movie, etc. 4) Now click on the title of the video you want or click the download button. Then, if you want to download it, click the red circle button in the bottom right corner as you look below. 5) Now choose the quality of the video you want to download. The video size appears on the side. 6) Check the quality of the file you want and click download. The video will be uploaded immediately. VIDMATE FOR WINDOWS 7/8/8.1/10 PC You can't directly install vidmate on your computer. So you need to install an android emulator like bluestacks or android on your computer first. We recommend using blue pipes. To download and use the vidmate app on your computer and use it, check out these steps: Step 1: Download bluestacks for your PC and install it. To download the blue pipes from the official website, click here. Step 2: Download the Vidmate Apk file for PC Step 3: Click on the APK file to install it on your Bluestacks PC. Or you can press the right button and choose Open with bluestacks if you have several programs that can run Android apps. Step 4: Now Vidmate will be installed in bluestacks. Enjoy downloading movies and videos on your computer. Vidmate lets you upload HD videos, songs and photos from all your favorite social media platforms and digital streaming websites.
