RA Monetary One Program Sunrise
(Edited by Vincent Gillespie. 12/3/2025.)

[Narrator:]

(0:00) The following interview is the key to understanding how the old financial system worked and continues to work, as well as how the new, brilliant financial system will function. This is both a challenge to all of humanity and guidance for every person living on this earth, (0:15) regarding what needs to be done to free themselves from the parasitic system that reached its peak in the last century.

(0:21) Answers to questions such as: Why do states no longer have money? Why are cooperatives being created? Why did it [the establishment of cooperatives] start in Slovakia? What happened to the Soviet Union and [Gosplan] [the State Planning Committee, the agency responsible for central economic planning in the Soviet Union]? (0:34) How did the old parasitic trust system end? Information about the Order of the Hospitallers.

[Statement written on the screen:]

(0:41) “Confirmation Letter of the King of Kings.” [Also appearing on the screen at this point is a video clip showing images of the first two pages of a document titled *Absolute Sovereign, Inheritor of all the Earth, King of Kings.*]

[Narrator:]

(0:41) We present this exclusive interview for the Golden Era (0:44) and a challenge to all of humanity in its entirety.

His Majesty Alexander Nikolaevich Paramonov:

[Alexander Paramonov:]

(0:59) When I accepted the inheritance and assumed all rights to own, manage, and dispose of the global financial system through the White Spiritual Boy, through the Order of the Hospitallers, through divine providence, (1:18) I still held hope that this existing, flawed, parasitic system would begin to move in the right direction. That is, bankers, banks, and so on.

(1:37) But after working with them, I realized that they all disregard the letter of the law and operate solely on criminal principles, which were spread by the Rothschilds, the Illuminati, in this system. (1:55) I realized that leadership positions were captured, all woven into a single network of leaders. This system does not work for humanity; it is criminal. And it only serves the plans of these insane enemies of humanity. After that, there are dogmas that lead humanity to destruction. Non-existent dogmas.

(2:28) In short, I realized that stopping this here, stopping that there, I would spend years catching them, stopping them where they want to steal something, where they want to do something, and so on.

(2:40) Then, by divine providence, a process was launched to completely halt the criminal activities of this system. And to prevent them from realizing their plan, which is a nuclear Third World War, and destroying humanity, because all their scenarios lead to that.

(3:07) And the tool for doing all this, since they built everything on money, capitalism, dark Khazaria, it means that they have only one tool in their hands. It is the payment instruments they call money.

(3:23) I want to emphasize that, in fact, according to financial and international norms, the term “money” refers only to treasury notes. Banks do not have the right to produce money. (3:38) Banks are accounting institutions that service a product called payment instruments, money transformed into payment instruments, if we talk about the fiat system. The right to produce (issue) money [belongs] only [to] the treasury of the community, country, state, (4:00) any sovereign community, including a cooperative.

(4:04) The entire old financial system, the entire parasitic model, was also based on cooperatives. For example, in Washington, District of Columbia, the entire American financial system is a Rockefeller cooperative. (4:20) The financial system of Great Britain is a Rothschild cooperative. Switzerland is a cooperative. All of Switzerland is a country because it has a territory and population. (4:30) But it is also a cooperative, with cantonal law, and the whole system is cooperative-based. SWIFT, Basel, Brussels – these are cooperatives. So, the entire financial system was also based on cooperatives.

(4:40) Therefore, the question became how to disable and take away from the villains the tool they were using against humanity. And M1, by Divine Providence, made the decision to recall all financial assets, (5:03) all assets from all these banks in the fiat financial system. Because this had essentially become a unified criminal mechanism against the people.

(5:16) In general the system should not be complicated. I figured it out, looked at what they’ve done – it’s such nonsense and stupidity. It’s all so complicated, and everything complicated is tied to lies, (5:28) and based on this, why complicate things? They complicate things so people don’t understand it, so they can be deceived, robbed, manipulated, and so they understand nothing about it – this must not be done.

(5:43) With God, everything is perfect and simple, understandable, hopeful, protected, righteous and bright. It should serve humanity, not be directed against it, and there shouldn’t even be the possibility for it to be otherwise. (6:02) The system should be such that it doesn’t allow such a possibility to anyone, neither now nor in the future.

(6:08) Therefore, the decision was made to completely empty this treasury financial-banking system, the modern one, and based on my rights, granted from above, I recalled (6:25) everything from under them. M1 recalled everything, and as of today, everything is empty; all countries in the world are bankrupt.

(6:33) These are not countries—they are pseudo-states, corporations. People had their nations quietly replaced by private companies, by corporations. People didn’t even notice; no one asked them about it. There were no referendums. No one explained it or told them.

(6:49) Gradually, gradually, simple international bandits and terrorists in the person of the Illuminati Rothschilds, Rockefellers, Morgans, Baruchs, Warburgs, Openheimers, Eisenhowers, Romanovs, there are 13 families. They quietly seized power, having in their hands (7:08) the main instrument, that’s the Federal Reserve, which also does not belong to them, but they were managing it. And the Federal Reserve also belongs to M1. And they started doing this, that is, committing crimes against humanity.

(7:24) Nobody asked people; they were told about freedom and everything else, and they took away their real, independent, sovereign states, countries, and turned them into private companies where people (7:40) are their balance and off-balance assets, where people are their goods, liquid and illiquid, and where they decide what to do with this commodity.

(7:52) Understand, this is a crime against God.

(7:58) Based on this, today all these corporations are bankrupt. The system is a general, so to speak, general Information Technology (IT) service. At the moment it is impossible to

deceive the IT service. They can't draw anything in there, (8:15) insert anything, plug anything in. And they don't have another system and will not have [one] at all. They didn't build this one either. They didn't build it with their own hands.

(8:25) Therefore, at the moment, countries are bankrupt, all banking corporations, systemic banks, the central banking system (8:31) are bankrupt. There are systemic banks, banking corporations, which had capital greater than countries, and they didn't answer to central banks; they had a special operating regulation, but people weren't told this either, people didn't know. Such banks (8:47) like ICBC, Barclays Bank, HSBC, Standard Chartered Bank, large ones, Deutsche Bank, Bank of America, Wells Fargo – systemic banks. There are banks in the central banking system, the Rothschild system, (9:06) also a private system; they are all bankrupt too, they have nowhere to get money, nowhere to get assets, they have nothing, this system is hopeless and empty.

Moreover, (9:22) the secret management of the Federal Reserve, when faced with the situation where their accounts were blocked, conducted a fraudulent hacking operation within the system itself.

The system consists of two parts: (9:38) one is an ancient artificial intelligence, an ancient computer, older than this civilization; and the second is what they built on top of it, IT programs, systems, FEDs, FRSs, and so on.

And they made a mistake (9:54) that cannot be corrected, will not be corrected in any way, it's impossible. They uploaded hacker numbers into the system, violating the security contour of the balance and off-balance, because (10:08) the accounts were blocked. So they decided to simply enter these numbers on the computer to distribute them to banks. And they ended up in a situation where the ancient computer activated its security system and identified this entire (10:25) fiat system as toxic, a corrupted system that is damaged, with a breached security contour. And as a result, it blocked and erased it, and will continue to erase it; it will not work anymore.

(10:43) All these technologies that are now found in the financial system, all these high technologies are covered by law. That is, if M1 gave them XAU [code name for gold], these are the energies that artificial intelligence has determined as living, correct energies that are just, that give energy (11:01) to both artificial intelligence itself and humans for their work. That's when the system starts to work. But they don't have it anymore. Nor will they have it. In the Vatican it is called a blessing and somewhere else it is called something else. But these are precisely the energies at work.

(11:17) There were three sacred emission matrices in the world. One emission matrix was in Switzerland, another was in America, and the third was with the guards of Asia, my guards. Both the American and the Swiss emission matrices have been deactivated. (11:31) That is, they do not have the ability to issue money. None at all. No technology, no blockchain, no IT technologies, no payment technologies can work in this space, (11:44) in our space; only proper money, filled with the energy of creation in the golden ratio, will work. That is the money of creation.

(11:59) I repeat, only the treasury of a sovereign community can create money. It's just the treasury of a sovereign community. For example, to understand American currency, it's not money. Dollars are not money. Euros are not money either. That is currency. (12:15) This is a new word, a new term, "currency," and payment instruments that are issued based on fiat money.

(12:30) And what is fiat money? Fiat money is treasury bonds of the US Treasury. They are empty, filled with all sorts of promises, debts, and various nonsense. So, as we understand it,

bonds were issued to produce these means of payment. These bonds were sold and traded worldwide as if they were backed, and (12:51) additional issuances were made based on these bonds. So, what did the Fed do? What crime did they commit?

(13:07) The thing is, the Fiat system is based on the Jamaica agreement, where the concept of trust is mentioned. Trust is represented by business indices, which small US bonds had. They created a system of artificially maintaining trading indices.

(13:25) In what way? These American Illuminati families created corporations in different countries based on cooperative law, martial law, international law, so these corporations couldn't be audited or inspected without their consent. This is by law. (13:52) And these corporations were supposedly not affiliated with the Fed. But when it was necessary to trade bonds, the secret management of the Federal Reserve gave these corporations access to steal cash (14:15) funds from both the main cumulative accounts of the White Spiritual Boy and from the sub-accounts of the White Spiritual Boy where money was received based on the global financial system agreement for the use of my family's assets.

And when this money was accumulating there, (14:35) the Federal Reserve held the codes and, committing a crime, it allowed corporations to steal money from there in order for them to use this money to buy US Treasury bonds. (14:49) So, it turns out they bought their own bonds with stolen money, and told the whole world: "Look how much trust there is in bonds, that is, in US dollars."

(15:00) When these opportunities were cut off [by M1], all their fraudulent criminal games ended. Today, you can forget about Washington, District of Columbia – it's a financial graveyard. (15:12) You can forget about the City of London – it's a financial graveyard. You can forget about Wall Street – it's a financial graveyard. You can forget about Switzerland, which also went against humanity – it's a financial graveyard.

(15:26) The Vatican, the Vatican Bank, today I received a message that the pontiff issued an order to all religious organizations to start funneling money to the Vatican Bank, the religious institute called the Vatican Bank. Why? Because it's a financial graveyard there too; they have no money.

(15:49) And at the moment, their entire fiat system is already a financial graveyard; it's starting to die out. Therefore, based on all this, what was done to stop them – they didn't want to stop at all, (16:04) I tried to convince them for years, I talked to them, wrote letters, explained that they should get on the path of creation, (16:12) that they should turn to God, to humanity and start doing good deeds. This is impossible because they are not living people. They are bio-robots with programs, and unfortunately, these programs are destructive, aimed at destroying the world and humanity. (16:30) Therefore, it was necessary to turn them off, take away their creative energy, which they distorted and put into the fiat financial system.

(16:39) Today,¹ M1 announced to the whole world the start of the new Sunrise Program. This program is very easy to implement. (16:47) In every country in the world, ordinary people can come together and register a cooperative. We provide all the templates, all the documents, and so on. (16:57) They register the cooperative, but this cooperative is not a legal entity of that country. The country, any registration authority in this pseudo-state, is just a notary, a witness, certifying that an international society has been established. Do you understand the point?

(17:22) Then you need to understand that under Roman Law, any society, even if based on international norms, is sovereign and must declare it, meaning send the appropriate

¹ This video was published on the *Zlate Era* Youtube channel on September 8, 2022.

notifications. Then it's done; it has confirmed its status, it has declared it. Just as living people now declare themselves.

(17:38) So, we provide all the document sets for registering a cooperative, copies, draft notifications that need to be sent, starting with your entity in this country, in the pseudo-country, and to all authorities, and international organizations. (17:58) We provide all instructions on how to do this. It's easy to do; registering a cooperative in countries doesn't exceed 100 Euros, so it's a one-time thing that needs to be done.

(18:05) All the rest of the work is done in the office by the people themselves. A treasury is established, meaning the cooperative is registered, the treasury is registered in it. We provide all the documents. After that, we provide a union agreement, a cooperation union of the Light Great Rus. Rus is the sacred name of the entire Earth. And so, after they sign the union agreement, (18:30) they submit a request for how much gold, real money, treasury notes, they need credited to their cash account in M1, because based on the union agreement, an account is opened in M1. And they make a request. (18:46) 500 billion, 100 billion, a trillion, five, ten – depending on the country, the territory, the population, how much money is needed to implement light programs, projects, to restore people's opportunities, their energies, their light, creative life. They apply to the International Consumer Cooperative (19:08) Light Great Russia in M1 for this amount. Subsequently an order for emission is issued. And in accordance with all international standards M1 will carry out the emission of money; Treasury bills filled with gold, in accordance with Basel III and resolutions [of] M1, after which an account (19:29) is opened for this cooperative, and these funds are credited to this account.

(19:37) Preliminarily, the local cooperative, of course, also goes to a local fiat bank, the fiat system, and opens an account there to have a bridge to the old system, while markets and everything else are still tied to it. But this won't last long.

(19:48) After that, when we credit the funds, we provide a notification about the account opening, in accordance with the union agreement. We provide a notification, an information letter, that an emission (20:05) was carried out for them, in accordance with all international standards, and that the money was credited to their account, and we provide an international treasury statement, (20:16) treasury statement. And this treasury statement already comes to the treasury of this new independent cooperative that has joined the sovereign union, it's sovereign and has joined the sovereign union.

(20:28) Based on this, they simply submit the balance in their country to this corporation called a country, and thereby save it [the country] from bankruptcy. The corporation, the thing is, the balance of the so-called country, well, it's a corporation. I won't repeat myself. It's a consolidated (20:52) balance of all organizations registered and operating in that country, placing their balance in the Ministry of Finance of that country. Thus, the country's balance grows, but the holder of the balance is this sovereign society in the union agreement.

(21:12) And then bridges start being built between the existing system, where there might be a people's government, though I don't know where, or a government installed by this destructive Illuminati system. And dialogues begin; this is the second step, which I won't discuss now.

(21:37) So, as soon as this is submitted, another document follows. We, M1, Light Great Russia Cooperative, Light Great Russia, sends all documents and all drafts for registration, within the Cooperative itself. No need to register anywhere else, for the registration of a bank, meaning a copy of the international (21:59) bank's charter, we provide the draft charter, documents, protocols that need to be signed, the complete paperwork.

(22:07) And since our money goes to these cooperatives from Light Great Russia as combat contributions, given for the development of this union cooperative created by people in some country, (22:21) we naturally give our order, that 100 billion gold money from our war contribution be credited to the authorized capital of the bank they have organized. [This language apparently refers to the fact that the development of these cooperatives is part of a spiritual war.]

(22:33) And when they complete all the documents, register the bank locally, we provide a sample letter that needs to be written to the main new global bank, the main regulator of the global banking system, (22:42) the main historical bank, the sovereign bank of the Order of the Hospitallers. Then they write their appeal to the sovereign bank of the Order of the Hospitallers, requesting a license for international banking (22:59) activities for the newly organized cooperative bank. And the sovereign, the main sovereign of the Order of the Hospitallers on Earth, issues the license to this bank and provides a banking agreement for the global banking system.

(23:18) The next step is that Light Great Russia, within the framework of the Sovereign Union, issues to its cooperatives, allies, their treasuries, an automatic treasury system, software that automatically (23:37) opens accounts for people, shareholders, allowing them to make transfers to each other and so on. And all this, the treasury system, is connected only to M1. Every treasury of these cooperatives in different countries works directly with M1. (23:58) And the bank of the Hospitallers also provides this bank, created on the cooperative platform, with software, banking software, complete with a payment system, account opening, balance management, and so on. And so, banks start interacting with each other. (24:22) This model looks like a new sovereign financial system, implemented in accordance with all international standards of Basel III, filled with XAU gold – these are cooperatives.

(24:33) There are differences between the cooperatives that remained under the control of the Illuminati, the ones I mentioned: the American system, the British system, the Swiss system; and our cooperatives. Their cooperatives are empty and indebted. To date, they owe M1 more than 20 quadrillion dollars today. Think about how they managed it all in their debt system! (25:05) And there's the new Sunrise system, filled with XAU gold, filled with energy; these energies are real money, backed, and they work for the benefit of the people.

The presence of such a cooperative in a given state, in which the cooperative holds and controls the balance sheet of the state, gives money to the state, (25:28) will control to ensure there's no genocide in the country, that there's people's rule, and that the country follows the law of creation on Earth, the main law. Any country, any society, even any cooperative, that goes outside the Cone of Creation will be blocked.

(25:52) This is the system that's been prepared, dear Ivan, so I've briefly told you about it. This is the global sovereign treasury system and the global sovereign banking system, a very simple model. (26:06) All cooperatives are the basis, the foundation, the sovereign foundation, the pillars in the world. And on these pillars is the new system filled with bright creative energies that serve humanity. The architecture of this system is an alliance agreement. The architecture of this system is the union agreement.

(26:29) And it turns out that in the new RA-M1 system the main regulator of the entire financial system is M1. And the main regulator of the banking system is the sovereign bank of the Order of Hospitallers. And all assets, all accounts, all the gold holdings that have been withdrawn from the entire fiat banking system, which (26:53) were criminally seized, seized not by society, but by Illuminati gangs, all these accounts have been transferred to the sovereign

bank of the Order of Hospitallers. M1, the owner, (27:06) the proprietor, has placed all these riches in the sovereign bank of the Order of Hospitallers. And the sovereign bank of the Order of Hospitallers is the new world bank and is also the main regulator of the world banking system.

[Question by the Interviewer:]

(27:21) Now we have to organize, everyone. Just like us here in Slovakia. Am I saying this correctly?

[Alexander Paramonov:]

(27:25) Absolutely correct, Ivan. And Slovakia is a cooperative, a sovereign society, ROD. And ROD is the Creator Almighty, it is Jesus Almighty. And ROD is taking this first step, everything as it should be. (27:45) He shows everyone how to go and how to do it. And RA is always nearby, the Great Bright Rus is always nearby. Bright Great Russia is the whole earth, the mother is Sura earth. (27:58) Look, the ancient scriptures, the ancient Vedas, which are hundreds of thousands of years old, millions of years old, it says everywhere – surah, (28:06) Rus' (Russia). The Day of Svarog is Sura Earth, the Night of Svarog is Rus.

(28:08) And now a name, a title, and a new entity have been developed, uniting absolutely everyone in a heavenly system. This is an entity governed by reason, RUS, where all rational beings are united. (28:25) Therefore, I wish for everyone to become rational and enter the heavenly system. This is a new sovereign system in which the regulator is society itself. (28:36) The center of control of the Cone of Creation, the center of control of society itself, so that the remaining unconquered parasites do not penetrate it again, so that they do not distort the heavenly administrative system, the center, is M1 Ra. Ra M1.

[Question written on the screen:]

What will happen with the historic Trusts?

[Alexander Paramonov:]

(28:47) All agreements (contracts) in the system have been canceled. The tripartite agreement, trusts, everything else – all canceled, all deactivated. They have no legal basis. (29:10) By the Lord, the Creator of the New Era, I am The Ruler of all that is here. I have canceled everything. Everything is canceled, recalled.

(29:17) Because trusts are about trust. What did trust lead to when they started creating these trusts? They founded them and took from the Creator RA through the guardians, took assets, energies, and called it trust. (29:39) And what did they do? They made money, false money, fake money, which they also said was trust.

(29:52) Let's now look at the history of funds, any funds. This is not money, but means of payment, currency, any currency. What are they today? Blood. What does this blood carry in the organism of society? What? (30:10) With this, officials are bought, all criminal plans are executed. It's a payment method. It's an absolutely unreasonable, thoughtless payment method.

(30:21) Where's the trust in that, tell me? Did the creator of RA and the Almighty Rod standing above him expect trust from his executors? Of course not.

(30:34) All these trusts, all these systems that were established, they were based on the dark side, on ignorance, and they brought pain, suffering, destruction, murder, genocide. They brought lies, distortion, they deceived people. They developed (30:50) systems of enslavement of human society. Man does not know who he is. How long can he live? Why is he born? What

is his path? Who is he to become? What is he obliged to do on Earth? Where did he come from (31:04) and where should he go?! They lied about everything. Everything that is given today was created not so long ago. It was created over several centuries. It is all rooted in human society as a distorted image.

(31:21) Man has already forgotten who he is, who his parents are. He has forgotten his power, his strength, his tireless energy, his creative potential. What have they done to man? What prison have they put him in? (31:38) They have put the prison in his head, in his consciousness. He suffers there. Because it is all lies, a distortion. And he cannot recover and return if he is not shown the way now.

(31:51) Therefore, strong people with divine consciousness awaken on earth, and they show the way, they awaken humanity, and this is happening.

(31:59) Trusts have shown what they are capable of. What they gave. That's why there will be no trusts. I'm Revoking all Trusts.

[Question written on the screen:]

How is it with the Soviet Union and The Gos Acts (monthly summaries about the state published by the Russian Academy of Sciences)?

[Alexander Paramonov:]

I'll explain. (32:13) The Gos Acts are written by scientists of the Academy of Sciences, but not everything they write there corresponds to the truth. They write as they see fit. (32:25) Who sits in the Academy of Sciences? The servants of the Illuminati sit in the Academy of Sciences. (32:31) All the Academies of Sciences in the world were taken into the system and placed under the control of the Vatican's Opus Dei. Opus Dei controlled them. Secretly. Always. (32:43) You see, these are secret control systems that are hidden from humanity and that are directed against humanity.

(32:47) I don't want to talk bad about these scientists. They may be honest. They write what they know. But not everything they write corresponds to reality.

(33:02) The only thing I want to say is that I absolutely confirm that the Soviet Union was the best creation in the recent history that we remember. It showed all of humanity how people of different nationalities, (33:15) different traditions, and so on, could live under one roof and work toward a common cause. They can live in peace, respecting each other, and in mutual understanding. (33:25) I remember that Soviet Union—I lived there. And I see the hell that has been created now, here on Earth. And in my own country too, where I was born, in the Soviet Union.

(33:34) I am not a citizen of the Russian Federation and never will be one, because I am a sane person. It is impossible to be a citizen of a British company. And besides, the corporate law of the Russian Federation itself (33:51) has been structured in such a way that there are no citizens of the Russian Federation. They cannot exist, because there is no right of subjectivity (33:57) of the Russian Federation. [i.e., the Russian Federation, a corporation, does not have jurisdiction over the people.] It is a private company.

(33:59) And this is a pile-up of admiralty pirate law on top of continental law. According to international legal norms, I want to say, that any pirate, any one, who comes to the continent, (34:16) to continental law and brings their pirate, admiralty law in order to seize on land what they have no right to, then [in such a scenario] any citizen has the right, according to international legal norms, to hang that pirate on the nearest pole.

(34:30) This was written in ancient times, in the past. And no one has canceled it, no one revoked it. People do not know about this and do not remember it. Therefore, the Russian Federation and other corporations (34:41) that seized and took away peoples' homeland, their country, they must now either evolutionarily transfer power to the nation [i.e., to the people, to popular rule], (34:51) or they must be removed. They have no other path; they are bankrupt, they are nothing. Their dark, ignorant Khazarian trading model is over.

(35:00) Why is it said that it is the Slavs who are now the only breakthrough force?! Because the Slavs carry in themselves ancient genetics, knowledge of earthly and heavenly flow, and the likeness of the lineage of the Almighty Creator ROD. (35:14) Therefore, it's encoded in us. And there are many Slavs on Earth, different Slavs. They just don't know and don't remember.

(35:26) A Slav is not a nation. A Slav is knowledge. Knowledge passed down genetically and from generation to generation. This is culture. It is a state of consciousness. It is the level of the soul. (35:38) Because if the soul is high, it's capable of holding this knowledge, preserving it, safeguarding it, carrying it, and realizing it. That's why the Soviet Union earned money. (35:52) The Soviet Union barely touched the distribution of White Spiritual Boy's 5 million tons [of gold], unlike all other countries.

(36:00) The Americans were given, to their private company, to the Federal Reserve, 10 million tons [of gold] for America's development as a corporation. The Soviet Union was given 5 million tons from White Spiritual Boy. (36:13) And Stalin barely touched it. He created a model where you can have these energies but not waste them, but earn from them.

(36:22) And the Soviet Union earned so much money, so much gold, so many opportunities, that, you see, with such an approach, when there was no strong leader, (36:31) the dark, infernal forces were at the peak of their destructive capabilities. And naturally, they did everything to rob the people of the Soviet Union, (36:52) to commit genocide, to pit people against each other, and so on. [i.e., because the Soviet Union had so much gold and wealth and so many opportunities, after Stalin, when subsequent, weaker leaders came to power, the forces of evil were very determined to steal the wealth of that country and to destroy that country.]

(37:02) Everything is documented, it's all in their documents, in the CIA. Look, the CIA is an organization that served only the US Treasury and the Federal Reserve. (37:16) That's who the CIA serves. Look where it's registered, where it's funded, and you'll understand everything. So, it's not the Central Intelligence Agency of America, of the American people. (37:27) No, it's a private security firm, a security firm of the Illuminati, like all the others. (37:34) A private company.

[Question written on the screen:]

Could you recommend any books about the [Fraternal] Orders so that I can understand them correctly?

[Alexander Paramonov:]

We'll talk about this topic separately later. All the books on Earth have been rewritten, (37:45) altered, substituted, written by people. I will give you information from the Earth's energy-information field, where everything is recorded. I'll give you a separate interview [on another occasion] about the [fraternal] Order.

(37:58) The main thing to understand is that the Hospitaller Order in the Vatican is a fake order. There is no Order of Hospitallers in the Vatican, it's fake. There is no Order of Malta in

the Vatican, it's fake. (38:12) All their orders are fake. Real orders are neither masquerades, nor certificates, nor secret conspiracies. A true order is a heavenly energy-information field (aggregate) (38:28) – egregor. People who understand this are those who have reached the level of *re-tsar*, knight, *re-komi-tsar*, chosen king, king everywhere. (38:36) This is a translation from the sacred meaning. A tsar is a complete Aryan, with the king in his head — the one who has activated all 9 levels of consciousness and works with all 9 levels of consciousness. That is a knight. When a person reaches this level, he becomes a knight.

(38:57) The path of a noble warrior is the path to knighthood. A noble warrior and a knight are almost the same. Only a noble warrior is one who has developed the vital body, this is non-contact combat and so on, (39:06) who can conduct defensive wars, liberation wars at any distance. [With this type of battle a noble warrior can defeat his enemy before the enemy has even come close to him.] (39:18) “Vital” is the astral plane today, in modern terms. And a knight is renowned as a king everywhere. And the king is always called “Sir.”

(39:28) One must understand where this comes from. This is the Sovereign. This is a representative of God on Earth. The Supreme Mind. They always protect and create. (39:41) That's what you need to know. And not just with a sword and a shield, but also with creation, with a brush, or anything else. They are all warriors.

[A heading written on the screen (in Russian):]

A challenge to humanity.

[Alexander Paramonov:]

(39:49) I would like to give all my brothers and sisters, all people on earth, one piece of advice. The only advice they should listen to. They must wake up. (40:01) They must realize and see that crooked theater, that criminal theater that is directed against themselves. They must stop participating in it, stop supporting it, stop talking about it, stop thinking about it.

(40:20) We need to understand what's happening in the world. We need to see all these murderers, these pedophiles, zoophiles, these childless perverts, who are now in charge of these corporations called countries.

(40:35) Look, not one of the EU leaders has children. How can they govern society? How can they love children? Who could they possibly love, except their own asses? No one.

(40:49) They are psychopaths, artificially raised, genetically modified psychopaths, who are filled with non-existent dogmas. These dogmas are aimed at destroying the world.

(41:04) This needs to be realized. They have no power. All the power is given to them by the people themselves. By trusting them, talking about them, discussing them, praising them or hating them, it doesn't matter. Stop looking at these carcasses!!!

(41:19) Look at your relatives, your loved ones, your country, your homeland, your land. Reason, knowledge, brotherhood. That's what should be in you! Really, naturally.

(41:33) Those who are not aware will not come to this. I feel very sorry for these people. So I am giving them advice: Turn toward the light. (41:41) Light is knowledge. Right knowledge, true knowledge. Stop repeating like parrots, one after another, who said what and so on. Think for yourself. Verify. Become a thinking person.

(41:55) Trust can only be given reasonably. You can't trust because of pretty pictures on TV, because of nice clothes or some emotional outbursts of actors on a stage, on television.

(42:16) You must trust justifiably and reasonably, because it's your life. The Almighty Creator

ROD gave you life, and you must value it and treat it thoughtfully, correctly, seriously, and responsibly.

(42:31) Then your life will turn into your ascending path of the creator. That is what you must become. You must create, you must build, you must develop, and you must be very, very strong.

(42:47) Thank you very much.
