The management team at Cresar Electronics Ltd., developer of electrical operators, aims to participate in the company's market by the end of 20% 2017. To achieve this goal, Marcus, The manager assigns specific salesgoals to individual salespeople and retailers. In this view, the target of sales is an (N) ___. Aim objective project round behavior goal work 2. Per share income (EPS) is an indication of the company's profitability and how its stocks are worthwhile. The company's EPS is directly proportional to its net income. Toli Khan's net income has decreased by 10 percent from last year's figures for this year. Therefore, the company's EPS will be lower than what it did last year. Which of the following statements is true, strong of argument? Toli Khan has issued additional general shares in the current year. Toli Khan's stocks were the most valued in the market last year. A higher EPS indicates that the company has a high potential for future growth. Income per share does not necessarily fall at all times which increases the tax paid by the company. 3. Quadigrant Ltd. is an early company that is proficient in software development. The government levies a sales tax of 7.5% on the sale of company services. The Company's CTO, The Company,decides to introduce a new active structure that will reduce the time for each software to be developed. He believes that this will reduce the company's costs and compensation for tax. When they present their idea to the company's investors, they become a fraud that such changes can come in the form of internal disputes. The concerned department also has its head because they do not know that they will fit into the new structure. They question the sensitivity of Theo's proposal. Which of the following steps of the group development process presents this scenario? Establishment of Adjarnaning 4. Teda Corporation is a large accounting firm. It has one office in every 27 states of Kavanaia. Chairperson of the Off Teda Corporation: I believe that if employees work in the same office for a long time, problems like impartiality, death, and misuse of authority are likely to abe. Therefore, I have proposed a policy that at least needs to move employees into administrative positions and up to a different office every five years. This policy has been well received from our employees and will discourage them from leaving our company. Which of the following statements, if true, will strengthen the chairperson's argument? Technical skills required to work in telecom, which differ from team to team in Teda. Employees roaming between different office locations go towards greater employees in companies. Cultural differences can cause various working shellies of Teda Corporation to be in different office places, without consultation against the culture of the work of the stakeholders concerned by introducing policy changes. 5. HR Manager of Delta Corporation.: According to our rewards and identification program, employee achievements are recognized and The voicer is given a gift through emails when you reach milestones and goals. I think employees don't have enough to feel appreciated. In my previous company, work anniversary and professional achievements were celebrated at the organization's extensive meetings, where the employees concerned would normally get rewards. After all, If my efforts are recognized like this, I will love it! Therefore, such an idea would be a great success in our company. The HR manager's argument is poor because: Delta Corporation employees fail to prove. Failed to acknowledge the efforts of his team to apply the existing rewards and identity program. It is not to be considered that other people can appreciate it differently than it is. The related gift offer edifies the possibility of increasing the value of the future that is given to existing employees. 6. Reinek company sold a fixed asset for \$25,000. The asset was originally purchased at a price of \$64,000. On the date of sale, the deposit reduction was \$53,000. Calculate profit or loss on sale of asset. Get \$14,000 to \$25,000 loss reduction in \$39,000 from \$36,000 to 8. The revenue calculation for this year is based on the information given below, December 31, 2016. The 2016 2017 retaining income, January \$14,500 \$1, paid \$18 dividend for income for \$10 for year Y 48,500 expenses for the year 44,800 to 42,700 december maintaining the end balance of income is 31, 3,500 5,700, 2017. \$15,400 \$18,400 \$33,800 \$52,200 8. From the information below, calculate the net cash flow from operating activities using non-remediated procedures. Net income decreased \$170,000 5,750 on plant asset power Loss increased to 4,000 Increased inventory rate increased to 7,500 account payable costs reduced by \$5,460 \$6,750 \$173,540 \$160,040 \$152,040. HR Manager of Delta Corporation.: According to our rewards and identification program, employee achievements are recognized and employees are given gift-during-email suo-mail suo-mail saine. I think employees don't have enough to feel appreciated. In my previous company, work anniversary and professional achievements were celebrated at the organization's extensive meetings, where the employees concerned would normally get rewards. After all, If my efforts are recognized like this, I will love it! So, such an idea would be a great success in us Which of the following statements, if true, is the argument of weak HR manager? Delta Corporation does not have enough money to organize the city hall continuously. Delta Corporation policy must have the ceo of the company present in each city hall. Employees are not encouraged to perform well in their jobs if their work is not appreciated and rewarded. The former HR manager company did not offer to promote its employees easily. 10. Calculate operating profit or loss from the information given below. Sales income \$320,000 Sales return Selling price 23,520 Selling price 210,000 Cost 10 administrative expenses 46,270 marketing expenses 26,880 Research and Development \$6,300 (\$3,970) \$3,970 \$7,030 (\$7,030) 11. The company announced a cash profit of \$8,560 on December 5, 2015. The company paid cash dividend on January 8, 2016. What is the overall impact of declaration and payment of cash profit se on the financial statement of the company? Total obligations will remain the same, and total assets will be increased by \$8,560. Stockholders' assets will increase to \$8,560, and total assets will remain the same. Total assets and dues will be increased by \$8,560. Stockholders' assets will reduce the total assets by \$8,560. 12. Rilm Corporation is recording investment revenue as revenue for the past year with the aim of creating the company's financial position it actually appears better than it is. One of the company's employees, becomes aware of this fraud activity and immediately reports to appropriate authorities. After several investigations, authorities gave the company the book under the Surbanes-Ausley Act. Which of the following statements best explains that June did not hesitate to alert the authorities about the company's fraudulent activities? Under the Sarbanes-Ausley Act, vaistolebours that are allowed to recover criminal damages that are subject to retaliation but not civil damages. There are no limits to the protections offered by the Sarbanes-Ausley Act to Whastlebours. Surbanes-Ausley Act accounting firms are required to separate their dating and advisory functions. The Sarbanes-Ausley Act provides for the restoration of wastleblawurs in improper dismissal cases. 13. Geharal LLC develops a company and has lease cars. To increase its production capacity, the CEO of Geharal LLC has decided to build a new manufacturing plant. The company needs a loan from the bank, and presents its financial statements to the bank.
