There are 3 kinds of keys: - Mutant Key Red-Mutant Key Green-Mutant Key BlueThose keys drop from the monsters inside the FT, every normal monster can throw it. Sometimes no key will fall and sometimes you get more than one (depends only on luck). The best way to kill all the monsters in the entire dungeon. Now after you have got the key you need to find the right boxes. You need to talk to 3 of them and then you get the Treasure Key. Mutant Key Red:- First you need to click on the field that is at the beginning (Entrance) - The next box is in the tunnel after the room Nesbite.- The last box is in the Room Nebsite. Mutant Key Green: - The first box is in the tunnel after Chakris (second boss, cat) - The second box for you to enter the room with the fire wall and those who shoot the statue.- The last box is in the room befor Chakris.Mutant Key Blue:- The first box is in the tunnel for the last room of the boss (After The Room of Golem). The Treasure Keeper (room with your four chests) is in a tunnel between The Nebzit Room and the Mutant Records Statue. gif THE LINK FT B1F Key Colors dungeon Name: Forgotten Temple Requirements: Muster Card: Forgotten Temple - B1F Duration: 50 min Note: Dungeon mobs won't respawn in this dungeon and you should take 1mil with you, because later in the dungeon you need to buy Epaulette. The entrance to the dungeon is located in the Forgotten Ruin in the area of lvl 95. Guide: 1. Click on the clock glass to turn off the fire wall This image has been altered. Click on this bar to view the full image. Original image measuring 1024x605. 2. As you step up the stairs to the left there is a figure you can click on. 3. Keep going forward, you will meet the wall of fire that blocks the bridge. Just wait until he goes down and walk past. Then keep moving forward until you can go forward anymore. Click on the monument on the left. 4. Keep moving forward. Click on this following Monument 5. Next part. If you have less than 1000 defenses u should include BM'aura. You will need to break the wall of fire while firing at the monuments on the sides after you destroy the wall of fire. Keep moving forward and kill oblivion to continue the search. These mobs have a high def and can melee/range: however, their atk speed is not that great. After you kill all the oblivion. Go ahead until you get to the next wall of fire. Click on the snake monument on the right to promote your quest and inches Note: Each participant must click on the correct teleportation teleportation monument Do not try to run past the wall of fire, it will not happen ^^ in the next room, you have to kill the mini boss - Nesbite. At the same time in every corner of the room, there will be a Snake that spawns. You will have about 5 seconds to kill the snake, or it activates the laser and most likely one hit you. The snake's caviar goes clockwise. So you don't have to guess where it will spawn next. If you are solo-ing you can drag the boss clockwise. If you are in a party you can drag it or 1-2 people are working clockwise to kill the snake. After you kill the boss. Click on the altar in the middle of the room to open the path to the next corridor. Go ahead and clear the corridor to get quest items. Once you get to the end of the corridor look on the left side there is a beetle box. Break it down to get a mutant record. Note: every member of the party needs one. Once you get your mutant record work your way back. Talk to the monument in the 2nd painting to open the door. Talk to the researcher outside the door. Pay him 1 mile and get an Epaulette 300 hp and 500 pounds def. Once you get your Epaulette. Go back and into the room to kill all the mobs that will spawn (you need to click on the car on the first Screenshoot, then they will appear). Sometimes click on the wall of fires to try to break them. Break them up when you can. Once you can go to the next room. Make sure you have at least 2 JV bars (if not 3). This next boss requires you to kill him in a certain amount of time, or he will completely regenerate. It will also include a shield from time to time. As soon as he turns on the shield, get off the platform to the stairs. Kill all the mobs that have rushed back on the stairs and then attack the boss again. Just keep doing it back and forth, and he's going to die. Also, once his shield is turned on, the faster you kill the guards, the more time you have to hit the boss before the shield returns Here is a possible position for people to stand while fighting the boss. Once you kill your boss, rinse off Purify Epaulette and use your A.C. Transmuter to break it down to get the quest item. Talk to the stone behind where the boss was standing to teleport you to the next room. This long corridor has a fiery cannon that will shoot at you while you pass by. With a defense of 800-900, they will beat you about 200-300. If you need to, you can turn on the BM and/or aura to run. Once you get to the end of the corridor, you will need to break the wall of fire down to enter the next room (while shooting at the cannon) once you get to the next room. Find a corner to get all your parties going there. All these stone monument mobs will appear in different and just clean the room. Once the room will clearly go to the next corridor and kill all the Grogas Once you clear the groga, you can enter the next corridor into the last boss's room. Make you have enough SP (2, maybe 3) 3) Enter. If you click on the statue in the picture the Grogas timer will work and you have a certain time to step up to the wall of Fire for the boss room. After a few seconds the wall will open and you need to dash inside quickly or it will be closed again and you have to destroy it. The last boss has a few minutes to kill him. If you don't kill him, he'll disappear and a bunch of mobs will spawn. Once the boss respawns, the boss will get stronger. The boss will be stronger with each respawn. Once you kill the boss, there is an altar at the back of the room. When you click on it the dungeon will be finished and you will teleport back. Make sure you get your chests (if you take the keys along the way). There are 3 possible keys (red, blue, green). Each key has a different series box to click before you can open the chest room. The location of the chest is located between the mutant record and the explorer. Key quest: To start a hidden key quest, you need to get one key. There are 3 kinds of keys: - Mutant Key Red - Mutant Key Green - Mutant Key Blue These keys drop from the monsters inside the FT, every normal monster can throw it. Sometimes no key will fall and sometimes you get more than one (depends only on luck). The best way to kill all the monsters in the entire dungeon. Now after you have got the key you need to find the right boxes. You need to talk to 3 of them and then you get the Treasure Key. Mutant key red: - First you need to click on the field that is at the beginning (Entrance). - The next box is in the tunnel after the Nebsite room. - The last box is in the Nebsite room. Mutant Key Green: - The first box is in the tunnel after Chakris (second boss, cat) - The second box is for you to enter the room with the fire wall and those shooting statues. - The last box is in the Chakris room. Mutant key blue: - The first box is in the tunnel for the last room boss (After Golem Room). The second box is in the Chakris room. - The last box is in Golem's room. The Treasure Keeper (a room with your 4 chests) is in a tunnel between Nebzit's room and a mutant statue. Notes: - You can only make one key for running the FT. - No matter what key you take, the drops will be the same. - The easiest key for solo running red is because you don't have to kill Chakris for the box. Official confirmation from Estsoft: Citation: In a Forgotten Temple: Is there a difference between a red, green and blue key? The red, green and blue keys in the Forgotten Temple of B1F are the elements to start the search. The only difference between the red, green and blue keys in the Forgotten Temple B1F is the quest procedure. They all reward the same drop speed and quest reward. Mutant Energy Ball: If you get a mutant energy ball from a monster and you To craft Mithril, you need to escape back to the place where you took the mutant record. Opposite this point will be a hidden NPC. Npc. with him and give him the ball back and the wall on the left side will disappear. Now you can walk inside and choose the card you want (Mithril slot). Page 5 five mirrors that rappelz list the website do suck. luckily I was able to download it from an Australian mirror at 1mb/s you might have to live with slower speeds however, but I think that might be the download available on rapidshare (ID download it, but my connection doesn't do the download well, even the photobucket, which I abuse, pushes it for me). sick of looking around and see what I can find for you, then edit this post accordingly edit: nfi, if it will work though, was looking for rappelz in isohunt.com. This is a customer I downloaded from the internode mirror, so it will be updated as soon as you install it. Meanwhile, client# has a listing for the rappelz client, nfi on which one is required seeing as I don't use rapidshare. worth a try though, I have a feeling that any customer out there will want to upgrade after installing anyway. кстати, установить хfire, он поставляется с клиентом gappelz, очень удобный инструмент, и вы можете ударить нас за Xfire клана пригласить, чтобы вы могли догнать одного из нас, когда это необходимо для чего-либо (советы в gappelz или сплетни и т.д. и т.д. и т.д. и т.д. и т.п. его, что мы делаем) Page 6 Начало Гордость войн!
