3a polynomial characteristics worksheet answer key

Georgia Standards of Excellence (Click to Expand) MGSE9-12. A.SSE.1 Interpret expressions that represent quantity in terms of context. MGSE9-12. A.SSE.1a Interpret parts of the expression, such as terms, factors, and odds, in context. MGSE9-12. F.IF.7c Count polynomial functions, revealing zeros when suitable factoring are available, and showing the end of behavior. MGSE9-12. A.SSE.1b Given situations in which formulas or expressions with multiple terms and/or factors are used, interpret the meaning (in the context) of individual terms or factors. MGSE9-12. F.IF.4 Using tables, graphs, and oral descriptions, interpret the key characteristics of a function that simulates the relationship between the two quantities. A sketch of a graph showing key features, including: Intercepts; The interval in which the function increases, decreases, positive or negative; Relative highs and lows Symmetry End of behavior and frequency. MGSE9-12. The functions of F.IF.7 Graph are expressed algebraically and show the key features of the graphics both manually and with the help of technology. Georgia Standards of Excellence (Click to Expand) MGSE9-12. A.SSE.1 Interpret expressions that represent quantity in terms of context. MGSE9-12.
