

COVER FABRICS – LONG-LASTING, TIMELESSLY ATTRACTIVE AND VERY DURABLE

himolla cover fabrics are also subjected to strict inspection procedures and are tested thoroughly. After all, they need to be able to last the lifetime of your furniture. There are many challenges to overcome here. A fabric must be durable and abrasion-resistant. But it must also be kind to the skin and must feel pleasant to touch at the same time. Whichever design you choose, specialist furniture stores will provide comprehensive, expert advice.

AN OVERVIEW OF THE HIMOLLA COVER FABRICS:

- ▶▶ 13 NEVADA
- ▶▶ 24 Q2 EMOTION
- ▶▶ 24 Q2 FASHION
- ▶▶ 24 Q2 MELANGE
- ▶▶ 24 Q2 UNI
- ▶▶ 24 Q2 RUSTICA

Q2 is an advanced, high-tech fabric that perfectly combines aesthetic values with the highest quality requirements. Q2 is a high-quality, fully synthetic cover fabric with a pleasantly dry feel. It provides all the comfort that you would expect from a modern cover fabric.

DETAILS

KEY CHARACTERISTICS

- Above-average light- and colour-fast properties
- Fully synthetic composition
- Excellent abrasion resistance
- Outstanding performance and cleaning properties
- Excellent seat climate
- Exemplary life-cycle assessment
- Washable at 30°C
- Awarded the seal of approval for biocompatible fabrics
- Seat sheen is unavoidable.
- Pilling is unavoidable; this can also be caused by other fabrics (clothing) sticking to the fabric.
- Kind to the skin – no chemicals.
- Threads may be pulled or the fabric damaged as a result of getting caught on sharp objects (jewellery, rivets, buckles etc.) and through contact with Velcro, animal claws etc.
- Roughening during use are characteristic.

CLEANING AND CARE INFORMATION

Vacuum your upholstery on a regular basis on the lowest power setting using your vacuum cleaner’s upholstery attachment. Watch out for the edges and piping. You should also clean your upholstered furniture several times a year with a clean, damp cloth and a mixture of lukewarm water and a mild detergent. Then treat it with clean water to remove detergent residue from the fabric. Removable covers and cushion covers can be washed with a mild detergent at 30°C to 40°C on a gentle cycle in your washing machine. Do not overfill the washing machine. For very light-coloured cover fabrics, a standard stain remover can be added to the detergent. The spin cycle must not exceed 800. Click here to view the ▶▶ Q2 cleaning video

COLOURS

For technical reasons, the examples provided for our colours and patterns are not binding and serve only as a guide. Please contact one of our partners at a furniture store to find our current leather and fabric collection.

CLEANING, MAINTENANCE AND CARE

As with any high-quality product, your new himolla upholstered furniture will occasionally require some attention. Here you can find some tips for how you can considerably increase the service life of your furniture and how you can ensure that your furniture looks good for longer.
