Javelin for Android provides a secure reader for DRM files (encrypted PDF files) of books, articles and similar documents. Users requiring a general purpose PDF reader are encouraged to try the free Radaee reader, who uses the same PDF library as Javelin but is specifically designed to use the PDF. The app supports PDF reading functionality and navigation through the Content button, built-in hyperlinks, bookmarks, markings, and annotations. By a secure PDF reader, we mean that Javelin supports DRM-protected PDF files (DRM- files) and standard PDF files. The DRM protection mechanism is created using drumlin free software from Drumlin Security Ltd. For DRM secure use of Android v4.1 or later on tablets or tablet phones is recommended only. For more information As for Javelin for Android, please see: can be downloaded to Javelin for Android in one of three main ways: (i) using the download icon in the toolbar and entering the full URL for the pdf or drmz file (see below); or (ii) by copying PDF files (.pdf) and protected PDF files (.drmz) from PC or Mac to Android devices and placing them in an available catalog, such as the Javelin folder, subfolder documents; and iii) the application supports the third file format, which is the xml structure for document lists (catalogues). This essentially provides a shortcut for the download procedure, as the xml file includes a description of the file and the URL of the file that will be downloaded, thus simplifying the download process for the user. These xml lists themselves can be downloaded through an explicit URL download request (according to i) above) or can be pre-loaded - an example of a directory pre-loaded. Directory files with support - see documentation for more information. DRM files. These files are a form of PDF file that require authorization code in order to include them for your device. The catalog example includes a demo file with the code: abcabcabc for you to check out the process. Simply click the box for the on-demand code, enter the provided code and click OK. The authorization process requires an active G3 or Wi-Fi connection because the details are checked on our servers. For other DRM files downloaded or copied to Javelin for Android, the code will be provided to you by the document publisher. The authorization codes are 9 characters (numbers and lower letters) and are specific to individual documents. For more information, please contact us: info@drumlinsecurity.com If a publisher wants to provide digital content that requires permission through this app, they must do so through services provided by Drumlin Security Ltd. Examples may include: an electronic copy of a PDF book that was previously purchased in print or some form through the publisher's website or traditional bookstore; Notes to accompany the training course; Intra-corporate technical guidance documents provided on a temporary basis, etc.).
