

BECOMING GREAT ENTREPRENEURS

Some Top Traits of the Greats

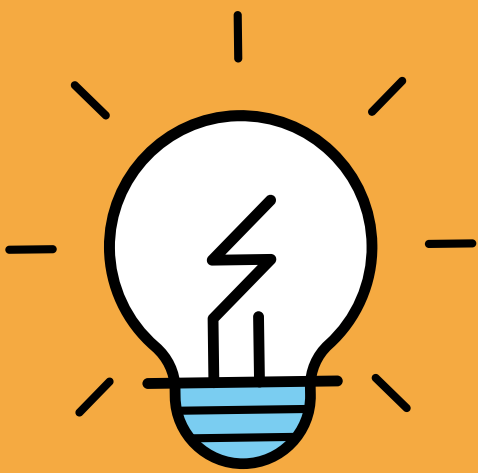

ARE HEART-DOMINANT AND NOT AFRAID OF THAT

Follow your excitement and you'll always be on the right path. Many of the greats (which we all are capable of being) drive from a heart-centered approach and care about serving the greater good just as much as they care about serving themselves and the people that work for them.

LET GO OF EGO BUT STILL SHINE BRIGHT

The ego can cause many issues if a business is created from a place that's more worried about doing it to "show others" how "cool" they are (because those "others" shouldn't matter at all)! PURPOSE is not about serving ego, but about serving OTHERS.

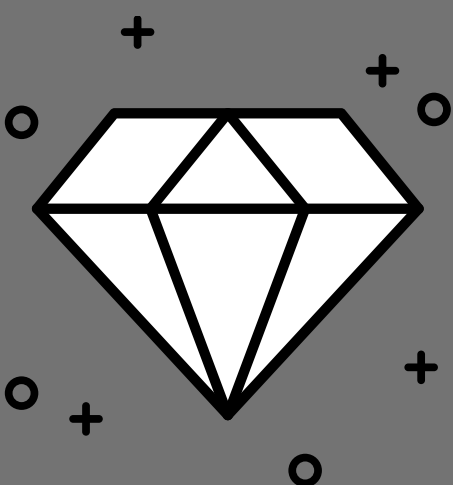

ARE NOT FEARLESS

A great entrepreneur understands that they have fear just like everyone else. The key difference though is moving BEYOND the fear to jump in and then sharing HOW to move through fear (rather than acting as though they're something other than human).

SHARING THE WEALTH

Great entrepreneurs that experience a mass of abundance know that giving back is the way to create harmony in our world. They're not afraid to share their wealth and offer others guidance.
