Do as they say, and if you're lucky enough to get flight attendant travel advice, follow it! When I found out that flight attendants were obsessed with a straightforward \$25 jumpsuit on Amazon, I was immediately on board, no doubt. A perfect, one and ready-made travel outfit loved by women who travel for a living? I was so there. It helped that the overall cost less than my last brunch. I put it right in my Amazon cart. I didn't bother with glowing Amazon reviews or customer photos. You don't have to do that. Flight attendants know their stuff. If they swear by this garment, I'd buy it. The package arrived just before the trip to Barbados. (Although the item is As Amazon Prime, it has extended the delivery time. Budget per week or two to arrive.) I wrapped a jumpsuit alongside the typical tropical island prices, such as my favorite Indian maxidress and pelt beach pants. The first thing I noticed is that it packed "super" well. Although it was tinted in my suitcase for a good 24 hours, the cotton/polyester fabric was barely creased. With a hearty shake and some hanging time in the closet, it was wrinkle-free and ready for showtime. The fabric is actually mostly (65%) polyester, so it can withstand wrinkles. Polyester also gives it a high dose of stretching, which makes it very comfortable to use all day, for any activity. The overall officially debuted with sunset drinks and a beach dinner at Crystal Cove, which, like many Barbados hotels, has a dress code. To make the overall a little finer, I used a neckline from the shoulder (it can be used from the shoulder or on top, like a wide boat collar). The trouser length can also be customized thanks to elassy cuffs. After testing the trousers on my ankle, halfway through the calf and just below the knee in the hotel room mirror, I decided to wear them halfway through the calf felt completely beachy and dressed. The fabric isn't thick enough to feel too hot for the tropics, but it's thick enough to dress completely opaque - no panties peeking here. That's when I noticed that the drawer - advertised as adjustable - is a lie and can't tighten or loosen. Bummer. Plus, there's an annoying little back button that my fingers can't catch without help, but I just left it open and it wasn't a problem. (In case you're wondering, yes - you can still pull your overalls down to pee, don't worry.) The overall can be smoothed with shoes and accessories. I teamed it with a high heels sandal, big earrings and my pink lipstick. I even picked up a pink frangipan found on the resort's walkway on the way to the bar and hid it behind my ear before dinner for a rum hit. The overall was also a hit with my fellow passengers. I received so many compliments that I sent that Amazon link via WhatsApp, usually with the message Best \$30 ever! Palm emoji. Heart emoji. It is amazingly diverse and deserves all the dedication it has earned from hundreds of flight attendants and thousands of Amazon buyers. I've used it for any cocktail by the pool for a nice dinner, sightseeing travel (as my four hour flight back from Barbados showed). It's the perfect canvas for any situation. Now that I'm staying home and doing my part to slow down the spread of COVID-19, you'd think my travel suit would be behind the closet. I'm not in the shower much these days. I just need comfortable clothes that fit all day for teleworking But you know what? Nniden Nniden The overall is still in full swing. The fabric feels like pajamas, so I'm cozy on my couch/in my office, but it still looks completely sharp and professional in video meetings. And if I want to jump into a livestream yoga class at the end of the day, there's no need to change. This overall can get down on the dog and then segue in the evening Hulu and Disney Plus. It turns out that my perfect travel outfit is also my perfect work outfit from home. As the world gradually opens up to travel again, my overalls await. Morocco and Cambodia remain high on my bucket list, and I know the first thing I will pack when I can book my ticket...
