View full description This is a non-official patch for the PC version of Borderlands 2. This was generated by the Windows Update service. This can be used in place of the official patch. A day after the release of the official Windows 8.1 patch for Borderlands 2, the game is already being updated in the Windows Store, with the release of the patch that fixes Borderlands 2 for Windows 8. A patch will fix an issue where the game will be unplayable after trying to do a "quick mode" load. Set the value in seconds. As much as we would like to provide you with a long-term fix to the issues you are facing, we cannot. I need to use some obscure cmd commands to override this because my Windows 8.1 is too. I would have to enable Administrator access in the Windows 8. 1 Store. Windows is a registered trademark of Microsoft Corporation in the United States and/or other countries. Go to, Microsoft Corporation. Microsoft Corporation. Program Compatibility Troubleshooter. To download the Windows 8.1 patch for Borderlands 2, click here.
