

DAVID ERICKSON

C-SUITE | ENTERPRISE TRANSFORMATION EXECUTIVE | PROGRAM MANAGER

Builder. Manager. Connector. Experienced builder of ventures, platforms, and growth strategies with a career spanning Big 4 consulting, C-suite operating roles, and founder-led innovation. Currently CEO of Van Irsel Medical, an AI-driven medical device company. Has led complex programs and enterprise transformations for major financial institutions, managed multi-million-dollar budgets, and played a key role in dramatically scaling the assets of a leading Canadian investment management firm. Known for translating strategy into execution, aligning stakeholders, and driving initiatives forward in demanding environments.

WHAT HE BRINGS

- **Enterprise Transformation:** Overhauled technology infrastructures and PMOs for major financial institutions, directly supporting dramatic AUM growth and deep operational efficiencies.
- **Complex Program Management:** Directs budget-intensive, board and steering-committee-facing programs, managing 140+ resources and exceeding \$20M in annual capital budgets.
- **Strategic Execution:** Expert in translating strategy into execution. Solves significant business, process, and technical challenges across both established enterprises and emerging ventures.
- **Venture Commercialization:** Launches and scales innovative platforms and growth strategies across healthcare, real estate, hospitality, and digital media.
- **Cross-Functional Leadership:** Builds exceptional teams and partners effectively across finance, technology, vendor management, and operations to align stakeholders and mitigate enterprise risk.

CAREER HIGHLIGHTS

Van Irsel Medical Current

Chief Executive Officer

Leading an AI-driven medical device company focused on elevating patient outcomes by improving radiotherapy workflow, patient positioning, precision, comfort, and throughput.

Capstream Inc. 2005 – Present

President & Program Manager

Led major program management engagements for top Canadian financial institutions including BMO Capital Markets, Raymond James, State Street Canada, and CIBC Mellon. Successfully managed complex acquisitions, divestitures, technology implementations, operational restructures, and SaaS platform development.

Mawer Investment Management Ltd. 2014 – 2017

Chief Technology Officer & Head of PMO

Led the complete overhaul of the firm's technology infrastructure, including the implementation of Charles River, 24-hour trading, a new data warehouse, and new offices in Toronto and Singapore. As a Management Committee member, oversaw dramatic and seamless AUM growth from \$16B to >\$40B.

Laurentian Bank of Canada (B2B Bank) 2000 – 2005

VP IT & Business Solutions, Head of PMO

Directed all project management activities, overseeing 140+ resources and >\$20M annual budgets. Led large-scale technology projects, including the innovative white labeling of banking systems and the development of Canada's first online award-winning lending solution, EASE.

PricewaterhouseCoopers LLP 1998 – 2000

Management Consultant, Investment Management & Capital Markets

Conducted operational audits for CIBC Mellon and the Province of Alberta's Investment Management Division; managed the restructuring of TD Securities' third-party fund accounting operations.

Founder-Led Ventures

Founder of **IMRSV Golf**, partnering with select course operators to develop premium lodging and curated property experiences, and **Trackster**, a platform helping creators and influencers launch labels and monetize original music.

Education: Bachelor of Arts (Political Science), McGill University
