Wellness Project Developer & Fractional Business Developer

Turning wellness and hospitality concepts into economically viable projects. A neutral operations consultant grounded in real-world constraints, I step into the messy early stages of development to transform vision into agile execution blueprints. I work with pragmatic adaptability and strategic alignment to turn innovative wellness concepts into operational projects, repeating clients and booked calendars.

- Early-Stage Navigation: Conducting opportunity studies, feasibility benchmarking and risk mitigation to ensure concepts are desirable, feasible and viable before money is on the table.

- Fractional Business Development: Calibrating offerings and pricing to match actual market demand, unlocking new customer segments and securing strategic alliances.

- Operational Architecture: Mapping out wellness experiences, plant-based culinary programs and project blueprints transforming cost centers into profit engines.
Partnership Model: Monthly Retainer + Agile Incentive.

PROFESSIONAL EXPERIENCE

Wellness Consulting Chef & Fractional Business Developer | La Palma | 2013-Present
Partnering with hospitality brands and small business owners to design viable wellness experiences and plant-based programs.

- Concept Co-Development: Map out restaurants, juice bars, plant-based community centers and wellness retreats across premium brands including MSC Cruises Explora Journeys, Oceania Cruises, Tom Juice Bar in St Barth, Plenty Grocer and EKM6 BKK and Yi Athens.

- Operational Audits: Evaluate operations, ingredient sourcing, guest journeys and team training from a 360-degree view to improve experience quality, including at Azulfit Yoga Pilates Center.

- Plant-Based Offering Calibration: Adjust menu design and communication, optimize pricing tactics, control food costs and portioning, optimize equipment and ingredient sourcing and design kitchen layouts and organization.

- Team Training: Build an understanding of plant-based cuisine as a specialty. Educate and motivate the kitchen team through hands-on workshops on plant-based cuisine, nutrition and allergen awareness.

- Business Coaching: Provide tactical guidance and business coaching to independent chefs, small business owners, career changers and digital nomads navigating critical turning points.

Director of Education, Blue Lotus Hua Hin | Thailand | 2017-2020
Launched the 1st plant-based learning center in Asia, located within the Evason Resort Hua Hin

- Business Development: Run the enrollment pipeline and operational workflows from scratch, turning a plant-based educational concept into a profitable asset and unique brand.

- Curriculum Architecture: Designed multi-week learning programs (Pure Energy, Green Thai, Zen Cuisine and Chef Training) attracting international students and wellness professionals.

- Team Leadership: Recruited, trained and managed a multicultural team of 7 culinary instructors, coordinating logistics directly with the GMs, Department managers and staff members.

- Operational Integration: Trained resort kitchen staff to successfully deploy plant-based menus across all five on-site dining venues (restaurants, bar and breakfast brunch).
