1. Basics 1.1. Endless XP and Praxis Glitch 2. Collectibles 2.1. All XP Books Places 2.2. Old school gamer 3. Different 3.1. First Takedown - Perform your first Takedown (civilians don't count) 3.2. Ghost - You made it through the whole hostile area without being noticed by 3.3. Balls - You seem to like playing with balls, do you? 3. History related to 3.1. Bull - Bossfight Lawrence Barrett 3.2. Mantis - Bossfight Elena Fedorova 3.3. Snake - Bossfight Yaron Namir 3.4. End - Bossfight zhao Yun Ru 3.5. Good Sould - Hengsha (Place of Destruction) 3.6. Hangar 18 - Omega Ranch (limited zone) Infinite XP and Praxis Glitch This glitch is easy to use and can be performed anywhere in the game. All you need is a device where you can crack a red trail symbol. By cracking the tracing symbol instead of the usual green access symbol, you'll get extra experience. To make it even faster, you have to look for a level 1 or level 2 device and crack the red character just as I show in the video. It will give you a nuclear bomb every time. The higher the security level of the hacked device, the higher your XP reward. Save your game when you find a good place. Hack the red symbol and download save data after a successful hack (while the screen with the XP reward is shown). Hack the same object over and over again and you'll always get more XP. Keep in mind: You only get the final XP bonus once - single hacks don't sum up and you can't hack the device again. Doctoral Student Read all 29 unique XP books in a single passage. IMPORTANT: You should purchase an Icarus Landing System increase by the time you reach Tai Yong Medical! You will need to raise your level 5 skill hack (as best you can) to get the latest XP book! Timeline in Youtube Video Description! Old School Gamer You found all the hidden history items in Megan's office. Point and click a lot? Practically, this is the first trophy/achievement you can get in Deus Ex: The Human Revolution. After the very first cutscene, you will find yourself in Megan's office. There are a total of 6 different objects to interact with. First Takedown Perform Your First Takedown. Civilians don't count, so be kind. When you are on your first real mission you will have to fall down some stairs after getting out of the helicopter. You will face one enemy. This particular piece was actually meant to be some sort of tutorial about takedowns anyway. This is probably the best opportunity to do it quickly and easily and it's hard to miss. You can also pull one of the guards around the helipad (at the very beginning of this mission). He will also give you a trophy. Anyway, you will most likely get this trophy by accident. Ghost You made it through hostile area, not so much as creaking. Very easy in your first mission when infiltrating the factory Sarif Plant). There's only one enemy on your way. Take it silently and climb to a set of boxes. Jump the electric area and use the switch to move on. You have done this as soon as you are in the ventilation pipe. Balls you seem to enjoy playing with balls, right? The method shown requires you to buy an 'Throw Heavy Objects' increase. How does this affect the process? Well, what you basically need to do is throw the ball through the basket from below. It stabilizes and come down to exactly the same point (this time from above, which is needed to unlock the trophy or achievement). This makes it very easy and you don't need real skill. Just make sure you aim for 90 angle (maximum). Once you can barely see the outer part of the ring red basket you are ready to shoot. You can always get to the shown area when you are in Detroit. If you can't buy an increase you can try to shoot the ball from a higher distance and a smaller angle. Bull You defeated Lawrence Barrett, an elite member of the secret mercenary hit squad. It was played on the highest difficulty of 'Give Me Deus Ex'. In fact, a very simple fight. You don't need specific add-ons or weapons. Everything you need will be available during the boss's fight. At the beginning you have to go to the room to your left. Grab mine patterns and two grenades. Now try to get to the room on the other side. There are two more grenades and enough shotguns. Equip a shotgun and combine frag grenades with mines. Now throw the two frag mines close together and wait for Barrett to get closer. He would be stunned for a moment, long enough to shoot a magazine on him. Now he's as good as dead. Throw EMP grenades and shoot it with a shotgun at close range. Don't forget to run away when he throws grenades. Its actual weapons do not do so much harm and are easy to avoid. Mantis You defeated Elena Fedorova, an elite member of a secret mercenary, strike squad. For the method shown, your equipment doesn't matter. You will find everything you need in the bossfight area. First of all, get 3 EMP mines (they are in lockers). Next to one of the lockers to your left is a heavy rifle. This should be the weapon of your choice. Grab some more ammunition and the battle can begin. Go back to the center of the room and place the EMP mine right where you stand. Do not move! Just wait for Elena to move closer and the mine explodes. She will be stunned and you will have enough time for 50 shots. Repeat the process 3 times and it should disappear. If it's still alive, you can combine a few more grenades with two mine patterns that can be found in the next locker. Don't forget to stay away from electric generators. Helen is likely to run against them, which will free up all over the room. The Snake You Defeated Jaron Jaron Head of belltower's elite Special Operations Unit. This boss fight is very simple. It's not even a real fight. All you have to do is keep pressing the punch button while Jaron jumps over the wall. That's it - 10 seconds, and the fight is over. End you defeated zhao Yun Ru and destroyed the hyron project. This boss fight is actually very simple. Run up the stairs and look for a level 5 security panel. Enter the 2012 code and jump up the non-electrified divider. Just wait here until the reactor destroys itself (which will take about 2 minutes), zhao will lose his shield and you can easily take it. The heavy rifle shown can be found right before the entrance to the bosses' battle zone. You can use almost any weapon, but it is very effective. Good Soul, no matter what, you saved Farida Malik's life. This is related to history, and you can't miss the location shown. You get there in the last third of the game, on your return to Hengsha. The method shown shows a non-lethal method. Especially useful when you are on your passing for a pacifist trophy/achievement (full game without killing anyone). Make sure you take out heavy armored enemies at first. Then drive your way to the back of the area and pull out snipers in the buildings. To get rid of the attacking machine you can either throw explosive barrels on it (there are 4 in this area) or use your taifun increase. You can look at the unconscious body to make sure no one is dead (there will be a 'zzz' to rob the symbol instead of the skull symbol). Hangar 18 You found and read a secret message. Now you know too much... This is related to history and can only be done at the very end of the Omega Ranch (Singapore) mission. After defeating the third boss, you will find yourself in a white room. You will have to use the elevator that takes you to the shown location - you really can not miss it. Instead of finishing the Mission, you have to turn around, pull the box out of the way and enter the secret room. You'll need to capture Hack Increase at level 5! There is no code that allows you to read messages without hacking into your computer. Computer. deus ex human revolution trophy guide and roadmap. deus ex human revolution the missing link trophy guide
