

“FIRST WE CREATE THE MAGIC,
& THEN WE PUT YOU IN THE LIMELIGHT.”

At Hometown we are more than your typical wedding DJ service.

“We are “Excellence in Entertainment”.

We pride ourselves on ensuring your special day is one of the most memorable days of your lives.

We offer the following services for weddings:

- DJ Services

From the moment you book a Hometown wedding DJ you will recognize that their extensive experience will create an unforgettable difference to your reception. Our DJ's have a wide variety of music with over 50,000 songs, playing all genres and styles. During our consultation session with you we will plan your entire selection of music to the finest detail.

- Technical production

Apart from our professional DJ's, we have a team of competent technicians who will look after the technical side of things and ensures that nothing goes wrong. They set up the sound for the ceremony as well as the reception. A qualified sound engineer will then operate the sound for the ceremony, while the DJ prepares for the reception.

- Live background music

Choose between Classical ensembles for the Ceremony or a smooth, laid back Jazz band during your Pre-drinks and even a 5 piece party band for your reception, based on your budget and taste.
