I got mine from a company here in Ireland called parts straight. There are also guides available over on the iboats.com website where there is a special Mercruiser forum. Seloc's guide is often in for some criticism for this general lack of clarity, with which I tend to agree. The photos are often quite grainy, black and white and hard to understand. I'm sure others will chime in the No.1 for Martin's link. Alternatively, you can try iboats.com. If you give them serial numbers they have free PDF factory maintenance manuals. :Encouragement: Thank you all for your tips and tricks you can get a guide to servicing a used plant from the US on eBay.
