TRACE ELEMENTS ARE IMPORTANT NUTRIENTS THAT ARE ESSENTIAL FOR PLANTS TO DEVELOP OPTIMALLY. WITH SAIDUNG X, YOUR BONSAI WILL ALWAYS BE PERFECTLY NOURISHED.

- NITROGEN** . . . . for lush growth and against yellowing
- MAGNESIUM** . . for chlorophyll production
- SULFUR** . . . . . improves nitrogen conversion & color
- CALCIUM** . . . . . promotes shoot tips
- MANGANESE** . . promotes leaf & root growth
- COPPER** . . . . . against tip burn and narrow leaves
- ZINC** . . . . . . . against branch tip dieback
- MOLYBDENUM** . against chlorophyll deficiency
- BORON** . . . . . . . increases frost tolerance and shoot growth

**HIGH-YIELD FERTILIZER: one bottle of Saidung X is sufficient for up to 500 liters of irrigation water!**

**Application:** Saidung X can be applied either by watering or spraying at intervals of 10-14 days.

**Watering:** 1 ml to 1 liter of water

**Spraying:** 3-5 ml to 1 liter of water
