You can see more about all the models from SYM dealers. Some SYM motorcycles and PDF parts are above the page - Maxsym 400i, Orbit 50, Fiddlell 125. Taiwanese company Sanyang Industry Co., known for its scooters and quad bikes Sym and Hyundai cars, after many years of development and investment, today occupies one of the first places in the domestic market and successfully conquered the world market. SYM's factory is equipped with state-of-the-art high-precision equipment used to produce high-quality motorcycles, scooters and low-cost vehicles. The company has repeatedly enjoyed honorary awards for excellence in quality control. Sanyang Industry Co., located in Taiwan, and produced products are exported to many countries around the world. Sanyang Industry Co. plans to become one of the ten largest car manufacturers. The history of the Taiwanese company began in 1954. At that time, the Sangian Electrical Plant was established at the Neihu plant, with more than 10 employees, producing generators for bicycles. After five years of successful operation, the plant was reorganized in Sanyang Electrical Machinery co., Ltd., and after three years of cooperation with the Japanese company Honda, the company began production of 50- and 80-cc scooters, and later - mini-cars. In 1978, the division was founded by R and D, which consisted of about 200 experts. The purpose of this unit is to create new technologies and designs, marking the development of Taiwanese industry. Development is carried out in the field of design, design of the engine, frame and electrical systems, as well as the overall optimization of the design of the motorcycle in accordance with the wishes of consumers. It is known that annually more than 3% of turnover (about 20 million dollars) was invested in the development of new technologies. In 1989, the plant opened the Tsinchui car manufacturing plant. By 1994, the plant had produced 5 million Sym scooters, but the company never chased the quantity, paying much more attention to the quality of the products. Along with the development of new technologies, the company cares about the environment. In 1995, the factory received ISO 9001 for motorcycles and ISO 9002 for cars. In 1998, Sanyang introduced a standard ISO 14001 quality management system, a documented and codified system. Sanyang uses a system to reduce production losses, save energy and as well as recycling used materials. In 2002, Sanyang Industry Co. joined the Motorcycle Co., Ltd., which manufactures high-quality components for motorcycle assembly and Tsingzhou Engineering Industry Co., Ltd., manufactures high-quality motodvigatelay. In the same year, Sanyang Industry Co. began production of popular Hyundai Elantra cars, and a year later - Hyundai Matrix. gives CONGRESS all powers and establishes a bicameral legislature consisting of the Senate and the House of Representatives; determines the qualifications for the position.
