

Museum Traveling Trunks

3rd and 4th Grade Classrooms

We are excited to share updates to the traveling trunk curriculum materials for 2026!

★ **New Resource Books and Historical Photographs**

New texts replace out-of-print materials and additional photographs highlight the changing historical landscape, as well as a wider range of city landmarks and neighborhoods.

★ **More Interactive Class Projects and Discussions**

The beloved class mural activity is introduced in Lesson 1 to reinforce this powerful visual learning tool. Students are better able to discuss historical effects for the Indigenous People, settlers, and immigrant groups.

★ **Information About Native Plants and Fruit Trees**

New learning resources highlight the Puget Sound landscape and Job Carr's legacy of fruit tree cultivation.

★ **Updates Based on Teacher Input**

Lesson plans and organizing tools are easy to use and customize for your classroom.

We want to thank the Puyallup Tribe, Tacoma Public Library, Tacoma Tree Foundation, and Washington State Historical Society for their contributions to this program.
