

Steward language That provides opportunities!

Providing continual educational opportunities to all union stewards is so important in building bargaining power. Many 876 contracts include a specific article in the contract to provide stewards with one day off, per calendar year, with pay, to attend a union educational opportunity.

What's Paid, What's Not?

With so many great programs being developed for stewards in 2019; not every program will be a paid day off. Looking at the calendar at right, note that February and March steward events will not be a paid day; and May and June steward events will be a paid day.

Paid or not, it's important every steward participate with the programs that will place 876 into a strong position to bargain a better life for every member.

It's a big responsibility! We think you are up to it!

February

2/15/19 - Lunch & Learn
Madison Heights
