The official Dollar General app for Android makes it easier than ever to cash in on savings. With this app installed on your phone or tablet, you'll save on hundreds of items each week. There are several digital coupons available as well as weekly ads. You can turn on push notifications to get exclusive offers. As you shop, you can manage your budgets through a truck calculator. You can create a shopping list that will follow your checklist and add coupons. You can also use the app to shop online and send orders directly to your doorstep. There's also a quick, scan and go checkout option called DG GO! This feature is only available for some stores. Unfortunately, there are many problems with the scanner.
