find in each level is a huge new World Map to explore... some other stuff... Thank you for stopping by! \_\_\_\_\_My NSMBW Project: owthe.lat I can't judge this from just two screenshots, but, you don't have to do an entire hack remake of old games, you have to do some custom pieces made by yourself, it's just a tough sentence. Also, the roof of your Metroid level remake looks fucked up, you have to fix it. Now regarding the level of the idea, if you don't stick to only Nintendo games, you can try to do some levels of Sonic (just offering because I love Sonic q1t:3) or whatever you want, this is your hack after all. I wish you the best of luck to do so. Also, before I finish, the logo looks bad, not a crime, but try to make it look like the original NSMBWii one. EDIT: BTW, add some decorations to your levels, they look very soft! \_\_\_\_\_STEAM ID: Nymphali Festif SKYPE: superrainboom Gamer Boy ... You have to do some custom pieces made by yourself... Hmm... I could do some original levels (gun levels would be new). Don't worry though, it won't be exactly what they're based on. They have a touch of my style in them. ... Roof... Looks f ed up, you have to fix it. Uhh... Could you explain what happened about this a little better for me? ... If you don't stick with only Nintendo games, you can try to make some levels of Sonic... I don't just stick with Nintendo games and I like to do some levels of Sonic! I like some of his games. Do you have any specific level you want to see made? I would like a few suggestions. I wish you the best of luck to do so. Thank you! I wish you the same with your project, the new Super Mario world. Looks good! ... The logo looks bad, don't be offended... No offense. MS Paint is not the best for making logos. ... Try to make it look like the original NSMBWii one. Ok. Hey, someone named Hamza made you a pretty nice logo. Can he or anyone else make a good logo for me? ... Some decorations in your levels... That's what I'm trying to do. I have a lot of flowers and shrubs in W1-1. Haven't gotten to put fancy rocks in the cave wall in W1-2 yet, however. Thank you for not having the time to respond! \_\_\_\_\_My NSMBW project: NSMBW: Arceus owthe.lat On the roof looking f-cked up, I mean you just used the same tile and repeated it, it looks very strange, but it might just be my eyes. \_\_\_\_\_STEAM ID: Nymphali Festif SKYPE: superrainboom Arceus Gamer Boy owthe.lat Oh also as I forgot awnser your question about Sonic levels... Emerald Hill 1 should be easy to remake as there are no spintubes in it, the only problem will be the cycles, but you can remove them I guesd. \_\_\_\_\_STEAM ID: Nymphali Festif SKYPE: superrainboom Gamer Boy SnakeBlock Guys, no problems with roof/earth looking fucked due to non-randomization. I hack NSMBW and I will say this: NSMBW has randomization, it is just not visible in the editor. Gamer Boy SnakeBlock MeroMero I can be wrong, but I'm sure Gamer Boy wants to insert his logo into NSMBWii rather than NSMB DS owthe.lat Hm, then you should probably ask for help on the NSMBWii forums because I don't think there are many people here hacking NSMBWii \_\_\_\_\_STEAM ID: Nymphali Festif SKYPE: Superrainboom Gamer Boy BoyRah Boy Excuse me. For NSMBW IIRC it's as easy as finding a logo file by going into BrawlBox and replacing the texture. But you need XML too IIRC. lirc. new super mario bros wii rom hacks. best new super mario bros wii rom hacks. rom hacks de new super mario bros wii
