1. The Book of Environmental and Pedagogy prepares to teach the exam for (classes 1-5) 2. The guidance is prepared on the basis of the curriculum prescribed by CTET and other state TET related to examination 3. Divided into two main sections; Environmental research and pedagogy, yes s due in a chapter in the curriculum 4. Previous years Decided documents and 5 sets of practice are developed on the last model of exam 5. More than 1500 MC for careful practice 6. Useful for CTET, UPTET, HTET, UTET, CGTET and all other TETs states. Robert Stenberg once said: There is no recipe to be a great teacher, that's what is unique about them. Each teacher has his own way of learning that delicately forms impressionable minds and shapes it into a vessel that determines the perception and ambition that affect much of society. The Central Teacher's Test, or CTET, is a national level exam that is conducted to recruit the most suitable candidates as primary and senior primary teachers. It is held twice a year in July and December. The exam is divided into 2 papers, according to the CTET 2020 Exam pattern, paper -1 for grades 1-5 while paper - 2 is designed for those who want to become a class teacher 6-8. To teach students in the 6-8th grade, you need to appear in both exams. The current edition of Environmental Pedagogy for Grades I-VI is a complete educational guide that has been developed on the basis of the curriculum prescribed by CTET and other state TET related to the examination. The book is divided into two sections and divided into chapters, giving in the chapter coverage of the text of the curriculum, the practice of exercise with previous years the question posed in the exam. 5 Practical kits, including the 2019 Solved Document were presented in this tutorial, which are designed precisely based on the latest exam model that help applicants know the trends. Hosted with over 1500 MC, it provides reliable training material useful for CTET, UPTET, HTET, UTET, CGTET, and all other TETs states.
