The magician king chapter summary

“The Magician King” is a young adult fantasy novel by Lev Grossman, is the second part of his “Magician” trilogy, and follows the continuing adventures of Quentin Coldwater as one of the four monarchs of the magical land of Fillory. Quentin, Julia, Janet, and Eliot rule Fillory fairly and justly, and are beloved by the people and creatures of the land. However, during a recreational hunt to capture the Seeing Hare, a prophetic Unique Beast, the Hare predicts death and despair to come, and the Master of the Hunt, Jollyby, drops dead. Quentin and the others go into council in the attempt to determine what may have happened – but have no satisfactory answers. While discussing other business, they learn that Outer Island has not paid taxes in years, prompting Quentin and Julia to see to find out way. After a long voyage at sea aboard the Muntjac, Quentin and Julia arrive at Outer Island to learn that taxes have not been paid in years because the mainland has not been heard from in years, and the taxes are then promptly paid. After learning about seven magical golden keys, Quentin decides on an adventure to find one which opens a portal – and puts Quentin and Julia back on Earth.Back on Earth, Quentin and Julia seek out Josh, who now lives in Venice, Italy, for he was last in possession of the magic button that brought them to Fillory in the first place. Josh reveals he has sold the button to a dragon for $250-million. Quentin seeks out the dragon, who will not return the button, but instead tells Quentin that heroes must be prepared to lose everything. The dragon goes on to explain that the old gods are returning for what is theirs, and the first door to Fillory is still open. Quentin, Julia, Josh, and Poppy (a dragon expert and friend of Josh’s) then travel to Cornwall, England, to the Chatwin home where the Chatwin children first accessed Fillory in 1917. There, Quentin, Julia, Josh, and Poppy are magically taken back to Fillory, where they join Eliot on his journey to collect the seven keys, as instructed by the Unique Beasts of Fillory. It is ultimately revealed to Quentin and Julia in the Neitherlands by Penny that the old gods are reworking existence so that their magic cannot be accessed at all. Magic will cease to exist for people who practice it, and entire worlds based on magic – like Fillory – will completely disappear. Penny reveals that the people who first accessed the magical realm created an emergency back door to save magic should it ever be compromised. The door requires the seven golden keys. Penny explains that he, as well as the Neitherlands Order to which he belongs, will battle and delay the gods with the help of all the dragons of Earth to buy time for Quentin to save the day. With all seven keys in hand, Quentin, Eliot, Julia, Poppy, and the others reach the extent of the world of Fillory, and there find a door with seven keyholes. Only a few decide to go through, including Quentin and Julia. Quentin is denied access for he does not have a passport, and Julia is denied access for she is the reason the gods have returned to reclaim their magic. For years, Julia and her rogue magician friends sought to summon a goddess to tap into higher levels of magic. The result was the calling of a trickster fox god that butchered nearly all of Julia’s friends, and raped Julia, causing her to fill up with magic, and later be fully transformed into a demigoddess by the goddess she was originally hoping to call. It is revealed that summoning any god summons them all – who realized others had tapped into their magical realm, and now seek to close it. Quentin takes all the blame for what Julia has done, for it was he who first confirmed the existence of magic to Julia years ago. Julia is then able to pass through the door. Quentin is then ejected from Fillory, even though he has helped to save it. They are hunting the Seeing Hare, one of the twelve Unique Beasts of Fillory, who can predict the future, but hasn’t been seen in centuries. Quentin thinks about his time in Fillory as a King, doing his best to do good in honor of his old girlfriend, Alice, who sacrificed her life for him. Quentin also thinks about Julia, who is the only one of the four who has not had a traditional Brakebills Magic College education, as she is self-taught. Quentin, Julia, Eliot and Janet chase the Hare into the clock-trees in the woods, which keep perfect time. They find a particularly large enchanted broken clock-tree, never before noticed. Quentin considers going after the Hare, but responsibly decides against... It continues the story of Quentin Coldwater, interweaving it with the story of his high school crush, Julia, who learned magic outside of the standard school setting and joined him in Fillory. Plot summary The Magician King follows two story lines, beginning at the same time as the beginning and end of The Magicians. In one, following her unsuccessful interview at Brakebills, Julia returns to Brooklyn. A poorly constructed alibi reveals to her the memories of her interview and the world of magic that wasn't available to her. After a significant amount of searching, she finds her way to a safe house where low-level spells are taught. Gradually, she works her way up the levels, learning more and more magic, until the safe houses have no more to teach her. She makes contact with Free Trader Beowulf, a group of people like her: self taught magicians with significant psychological issues. She moves to Murs, in France, to work with them, where they teach her more magic. Julia and the others in Murs, in order to attain significantly more magical power, attempt to summon Our Lady Underground, a local goddess. They instead summon Reynard the Fox, a trickster god who kills most of them while warning them that no one has summoned a god in 2000 years, that all the gods heard them including the ancient ones, and they might as well be dead when the gods come. He intends to kill the last two, but Julia sacrifices herself to save her friend Asmodeus. Reynard proceeds to rape Julia, leaving her with severe trauma and an extra spark of god-like magic. In Fillory, Eliot, Janet, Quentin, and Julia rule as Kings and Queens, and life is good, if somewhat boring. Seeking a quest, Quentin and Julia travel to the outer islands of Fillory to collect back taxes, where they discover a golden key and are accidentally returned to Earth. Searching for a way back, Quentin and Julia discover Josh in Venice, where he has sold the button he had which allowed travel between worlds to the dragon in the grand canal. With him is Poppy, an Australian magician who studies dragons. Quentin visits and speaks to the dragon, who warns him of the old gods' return and the impending closure of the Neitherlands, the city in between the worlds. Quentin and Julia are able to return to Fillory, unintentionally bringing Poppy and Josh with them. There they encounter Eliot, who has been on a quest to find the remaining golden keys. In an attempt to return Poppy to Earth, Quentin and Poppy end up in the Neitherlands, where Penny, Quentin's erstwhile classmate, finds them. As Penny explains, access to magic is through a loophole that was never intended, and the old gods, who are effectively just magicians operating on a titanic power scale, have returned to close that loophole. Fillory is the loophole through which magic escaped, and the end of magic will mean its end too. The founders of the Neitherlands did build a back door through which magic could come if the gods ever returned to shut it down, and it is locked by the same seven golden keys Quentin and Eliot have been searching for. Quentin and Poppy return to Fillory. Quentin and Julia travel to the underworld, where they collect the last key and where Julia is made a dryad by Our Lady Underground. They open the door at the edge of the world, allowing magic back, and opening the way to the far side of Fillory. Quentin cannot go through as he used his passport in visiting the underworld, and when he accepts the debt Julia owes for causing the catastrophe, allowing her through, he is forced to give up his throne and leave Fillory. Alone, he returns to Earth. Major characters Main article: List of The Magicians characters Quentin Coldwater – A former resident of Brooklyn, Quentin became one of the kings of Fillory after a series of magical misadventures. Julia Wicker – A skilled magician with a troubled past and a damaged psyche, Julia reigns in the magical realm of Fillory as one of its queens. Eliot Waugh – Quentin's former senior at Brakebills College for Magical Pedagogy and High King of Fillory. Janet – Quentin's former classmate at Brakebills College for Magical Pedagogy and one of the Queens of Fillory. She is called "Janet Way" by another student in the first book, but "Janet Pluchinsky" by Dean Fogg in the second. Asmodeus – A powerful teenage hedge witch and member of the Free Trader Beowulf. Reception The book garnered good reviews from most venues, including Emily VanDerWerff at The Onion's The A.V. Club, who gave it an A, writing that the sequel was "clearly the middle book in a trilogy, but it’s that rare creature that bridges the gap between tales and still stands on its own."[1] A sequel, titled The Magician's Land, was published in August 2014, incorporating the events of the short story "The Girl in the Mirror" (published as part of the anthology Dangerous Women).
