

PCPA Member Discount: Two Months FREE + FREE Implementation

Managing rights and royalties can be stressful, risky, and time-consuming, prone to errors that cause publishers to leave money on the table.

MetaComet® Systems helps publishers reduce the effort of managing royalties by up to 90%, while enhancing author relations and maximizing rights income.

Royalty Tracker®

Our flagship Royalty Tracker® platform can easily handle the most complex contract terms, payout rules, and adjustments across thousands of products, generating professional statements, automated payment files, and valuable reports.

MetaComet® Rights

MetaComet® Rights keeps all your current rights availability, opportunities, and revenue information at your fingertips, so you can spend less time tracking rights and more time selling.

Sales Aggregator

Upload sales data from any number of sources and Sales Aggregator will convert them to a single format and automate currency conversion.

Royalty Portal

Royalty Portal gives your royalty recipients 24/7 self-service access to up-to-date royalty information, virtually eliminating support calls while improving their experience.
