You Go : The Control Panel No. Install and run the software you download. 5. Reboot !!! You can watch this video to know how to use Windows Loader : Frequently asked (frequently asked questions) After reading this many of you should think something, maybe someone has doubts and some questions according to Windows Loader. So in this section, I've written some of the most frequently asked questions that everyone wants to ask or even for answers on the Internet. Check out this list of frequently asked questions below: No. 1) Is it safe to activate windows from Windows Loader? Yes, of course, Windows Loader window activation is 100% safe and secure. I've already mentioned this above, you can check out the features section. Issue 2) After activating Windows, can I remove Windows Loader? Of course, you can remove it immediately after activating the window and office. It won't deactivate the windows, so don't worry about it. When I install Windows Loader, can I activate my antivirus? Yes, you can activate the antivirus again after installing the activator. B4) I activated their windows, but a few times I installed a new window, should I activate it again? Of course, when you install a fresh window, it removes all your system files, including the keys that were used to activate it. After installing new windows, you should activate it by following the aforementioned process As I said it is an activator that is used to activate Windows 7 and another version of Windows. But then let's talk about the features that this amazing Windows Loader provides to its users. Windows Loader Features: Compatibility This loader is compatible with all versions of Windows and supports both 32bit and 64bit respectively. This means that you don't need two software to activate Windows. Automatic Detection System It detects the system atomically, which means that now you do not have to choose a version of Windows yourself. Windows Loader will automatically detect your version of Windows and its architecture. Virtual machines are supported by it supported by VMWare as well. If you're using Windows on VMWare or a virtual box or any virtual machine software to run another OS, then you can also activate it using Windows Loader. Automatic Mod This tool has an automatic mode. This means that it activates your windows within a few clicks. This saves a lot of your time when activating your windows. New feature version 2.2.2 (04/03/2014) - Added a valid OEM SLP key for Windows Server 2012 R2 Standard (it was taken from the Dell server) - Added support for Windows Server 2012 R2 Operating Systems - Added warning for virtual machines, created in VirtualBox using Windows Server 2012 or 2012 R2 (use ICH9 to work the loader) - Added many new keys, SLIC and certificates : Allowed the loader to be installed on Xen again (if it doesn't work for you, then it can't be fixed) Other minor settings and fixes password windows 7 loader 2.2.2 by daz. windows 7 loader 2.2.2 zip password
