Privacy Detailed Page 2 We use cookies to remember your preferences, such as your preferred country of delivery and currency, to keep items placed in the shopping cart, to track website visits mentioned from our advertising partners, and to analyze the traffic of our site. Privacy Details ISBN-13: 9780135570784 Includes: Published by Pinson (May 1, 2019) - Copyright © 2016 For courses in world religions Discover the importance of religion in world cultures - yesterday and today Stories, deep-rooted beliefs and ethical systems that make up the world's religions, are among the most important forces on our incredibly diverse planet. Religion of the world, the Thirteenth Edition guides students as they explore each of the major denominations in the world, giving the knowledge needed to better understand the modern world. By explaining religious diversity and complex topics in a historical context, the Religions of the World help students relate to cultures that are highly cast by their own. Religion of the World, the Thirteenth edition is also available through REVEL™, an immersive learning experience designed to ensure how today's students read, think and learn. Learn more. A comprehensive, relativistic review of world religions - comprehensive coverage of each of the world's major religions ensures that students receive a thorough review of key faiths around the world. For example, a chapter on Native American religion includes a discussion of Native American Christianity, and a chapter on African religion includes a discussion of Christianity and Islam in sub-Saharan Africa. The authors examine living religions in terms of the historical and cultural factors that have produced them: the lives of their founders, their basic teachings, their historical development and the current position in the world. The revised first section of the book was refocused on living religions in America and Africa. The Hindu Origin Report in Chapter 4 has been updated to reflect later scholarships. Chapter 13 of the Baha'i, previously only available on the Internet, is now included in the main text. The text features that promote deep understanding - Primary original writings and sacred texts that help define every major world religion are included at the end of each chapter, offering students first-hand familiarity with key readings from each faith. Shorter quotes from these included in the text boxes throughout the body of the narration. These features encourage students to rethink how religious violence can affect cultures around the world. NEW! Religion and social life boxes throughout the text to offer reflections on the role of religion in contemporary political and social issues. Outstanding Foundation for Learning - NEW! The restored and expanded learning architecture throughout the text coordinates the main headlines in the running text, both with the learning goals listed at the beginning of each chapter and with the Think About It questions listed at the end of each chapter. This improved structure helps students understand what is expected of them in the course, and keeps them on the task until they read. Extended lists of key terms at the beginning of each chapter better help students master the dictionary of world religions. Religion of the World, the Thirteenth edition is also available through REVEL™, an immersive learning experience designed to ensure how today's students read, think and learn. Learn more. Religion of the World, the Thirteenth edition is also available through REVEL™, an immersive learning experience designed to ensure how today's students read, think and learn. Learn more. A comprehensive, relatable review of world religions Revised the first section of the book has been refocused on living religions in America and Africa. The text features that promote a deep understanding of religion and public life boxes throughout the text to offer reflections on the role of religion in contemporary political and social issues. Outstanding Learning Framework: The Restored and Advanced Learning Architecture throughout the text coordinates the main headlines in the running text with both the learning goals listed at the beginning of each chapter and the Think About It questions listed at the end of each chapter. This improved structure helps students understand what is expected of them in the course, and keeps them on the task until they read.
