

# Job Title: Quantitative Clinical Researcher

## About Wysa:

Wysa is a leading AI-driven mental health application dedicated to supporting individuals in managing and improving their mental health through innovative conversational interventions.

With a robust track record, our research has been extensively published in peer-reviewed international journals. Our interdisciplinary team includes renowned researchers, clinicians, and advisors from prestigious institutions such as Cambridge, Harvard, Columbia, Washington University in St. Louis, and the NIH.

## Role Overview:

**Type of Employment:** Full-time

**Location:** Remote

As a Quantitative Clinical Researcher at Wysa, you will spearhead our quantitative clinical research initiatives. You will be instrumental in:

- Conducting rigorous research on digital health interventions and spearheading publication efforts.
- Independently performing data cleaning and quantitative data analysis.
- Supporting grant writing and fostering collaborations with global research institutions.

## Desirable Technical Skills:

- Advanced proficiency in MS Excel.
- Competence in statistical programming with R or Python.
- Experience in academic writing and research publication.
- Knowledge of thematic and content qualitative analysis.

## Leadership and Team Building Capabilities:

- Engage with all organizational levels, including senior leadership and cross-functional teams.
- Excel in problem-solving, managing multiple projects and tasks simultaneously.
- Pursue scientific inquiry and research rigorously.

- Commit to maintaining the highest standards of research ethics.
- Cultivate strong professional relationships and foster a sense of ownership and pride in contributing to the company's success.

## Qualifications:

We welcome candidates with Bachelor's and above degrees who have a strong foundation in quantitative research. Backgrounds in psychology, statistics, epidemiology, sociology, linguistics, or anthropology are preferred, particularly for those envisioning a future in digital health.

## Why Join Wysa?

- Take an active role in a rapidly growing global startup.
- Build essential professional skills while forming lifelong friendships.
- Enjoy flexible working hours and the potential for a fully remote position.
- Thrive in a rewarding culture that values smart work and innovation.

## Our Team:

- Global Influence: Collaborate with a diverse, international team to broaden your professional and cultural horizons.
- Industry Leadership: Learn from founders and senior team members from elite institutions like the IITs, IIMs, TISS, and NIMHANS, who have led top global teams.
- Passionate Colleagues: Join a community of dedicated, hard-working professionals committed to excellence and innovation.

## Testimonial:

*"My time at Wysa has helped me learn and grow not only as a researcher but also as a critical thinker. The research questions asked and answered here are intriguing and working alongside passionate, knowledgeable researchers has been immensely insightful."*

- Dyuthi Dinesh, Clinical Researcher
