## Stunt lightsaber combat for beginners pdf

For over twenty years I had an interest in the sword and much of that was due to the Star Wars movies. The films inspired me to study martial arts. With the new film 'Force Awakens' and the easy availability of high-quality stuntmen suitable for sparring, many people start dueling fitness clubs and practicing film-inspired choreography. Unfortunately, many people do not live anywhere near some of these clubs or have the knowledge to start their own. I wrote 'Lightsaber Combat for Beginners' out of a desire to provide a solution to this problem. I wanted to allow anyone who wants to learn to fight like a Jedi to do it and I think I realized this, but I'm not done yet: I started the process of writing a follow-up book and will soon start a blog to discuss the topic regularly. By purchasing this book, you will help me fund the creation of new books while helping you learn an exciting martial art system -- sword fighting -- that I hope will help make the lightsaber duel a modern sport. If you have any questions for me, feel free to contact me via the Facebook page of this book, Lightsaber Combat. You can also sign up for my mailing list for lightsaber enthusiasts.-CareyAbout authorCarey Martell has over twenty years of experience in martial arts, having studied a variety of styles including Taekwondo, Boxing, Combat Hapkido, Brazilian Jiu-jitsu, Aikido, Jeet Kune Do and Escrima. McClellan noted that it was amazing that I recommend this book for all cascader sabrefighting enthusiastsThis is a great book for beginners saber stunt. If you're thinking of becoming a cascader sword user, look at this book definitely Mar 20, 2016 Patrik Olterman rated he liked it It's not really a sabre lightsaber fight book, it's a simplified primer on Fiore Dei Liberi's two-handed sword. Don't get me wrong if you have your stunt saber and you're looking for a place to start the techniques and exercises will benefit you. But there are many better books on Fiore sword techniques and while there aren't really any other books on lightsaber fighting there are many other sword styles that could be more beneficial to you. What really disappointed me is that it's not really a lightsaber fight book, it's a on Fiore Dei Liberi's two-handed sword. Make no mistake if you have your stunt saber and you are looking for a place to start training techniques and exercises will benefit you. But there are many better books on Fiore sword techniques and while there aren't really any other sword styles that could be more beneficial to you. What really disappointed me was that there wasn't even an attempt to adapt the Fiore system in the seven styles of the Star Wars gun nor did the author try to adapt the techniques to the lightsaber, but rather kept the techniques as long-word techniques. ... more Jacob noted that he loved him Oct 09, 2020 James noted that he was amazing Nov 29, 2019 Casey Lynch noted that he was amazing Jan 10, 2016 Tonya Francois rated he really liked June 01, 2017 Matthew Bond rated he didn't like March 14, 2016 David Mackie rated it was amazing Oct 15, 2020 celeste really liked it Feb 14, 2019 K T Rahman noted that it was amazing Mar 09, 2016 Apr 20, 2017 Carol L.
