

Translational Imaging Center, Bern:

Currently Available Methods and Ongoing Projects

Lecture series with speakers from Bern organized by the Translational Imaging Center @ sitem-insel in Bern on current methods and applications at our center

Cardiac Imaging in Anaesthesia

PD Dominik Günsch, MD & Kady Fischer, PhD

www.anaesthesiologie.insel.ch/de/research/our-research-groups/cardiovascular-anaesthesiology

Department of Anaesthesiology and Pain Medicine, Cardiovascular Anaesthesiology
Inselspital Bern

An introduction to the cardiovascular magnetic resonance studies run in TIC by the cardiovascular anaesthesia group. In multiple healthy control and patient studies our goal is to use advanced cardiac imaging to investigate underlying injury in cardiac patients and how factors occurring during general anaesthesia impact the heart and if this predisposes a patient to peri-operative adverse outcomes.

Thursday, June 03 2021, 17:00

The lecture will be held as a zoom meeting, please connect using:

<https://unibe-ch.zoom.us/j/65804467868?pwd=OTBvQXdER0RWY0xXS3JUcG5ERVgxdz09>

and **do spread the word** to anybody potentially interested. (for further info: bernd.jung@insel.ch)
