# PHIL ★ CHALMERS

## WEAPONRY TO ASSIST YOU IN FIGHTING TEEN VIOLENCE

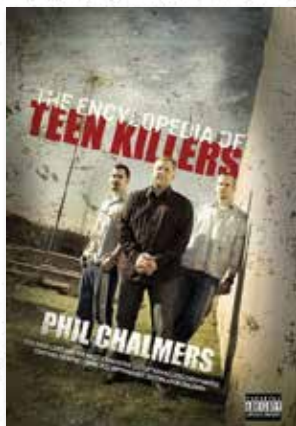

### **INSIDE THE MIND OF A TEEN KILLER: \$20**

Phil Chalmers' study on why teens kill, and how to stop them.

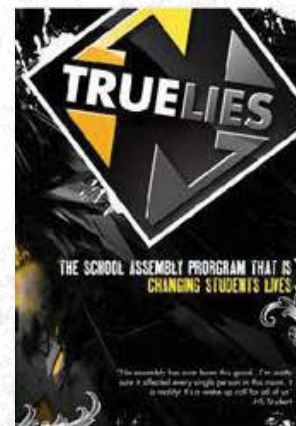

### **TRUE LIES BOOK: \$15**

Phil Chalmers' latest teen book, exposing the 30 lies that are killing this young generation, and the truth they need to hear.

### **THE ENCYCLOPEDIA OF TEEN KILLERS: \$15**

This book contains the longest list of teen killers ever printed, with nearly 800 teens who have participated in the act of homicide.

### **TRUE LIES DVD: \$25**

A DVD of Phil's most recent school assembly, where he addresses topics like bullying, suicide, drug abuse, crime prevention, and more.

These materials are available at Phil's live events,  
or you can purchase these materials by calling 330-998-3772.

# WELCOME TO PHIL CHALMERS LIVE SEMINAR!

Phil has interviewed over 200 teen killers and school shooters

The seminar you are about to see is fast-moving, humorous, shocking, eye-opening, and unique. There will be graphic images, offensive videos and shocking crime scene photos. The mission of this seminar is to educate America and save the lives of our children. Along with children, it is my mission to keep our own families safe, to save the lives of teachers, school administrators, probation officers, counselors, and members of our law enforcement community. I will pull no punches in the seminar today, and parts of what you see might be offensive to some people. I hope you leave the seminar today with information you didn't know when you entered the training, and I hope you learn valuable life-saving tips, take notes, ask questions, and take action! Your school systems, your family, your community, and your Police Department and Sheriff's Departments are counting on you! God Bless you for attending today, stay safe, and keep up the good work!

**-Phil Chalmers**

Phil is sworn in with the Belmont County Sheriff's office in Ohio and works with Sheriff Dave Lucas and Chief Deputy James Zusack.

## WHO IS PHIL CHALMERS?

Phil Chalmers has been training police officers and school administrators about juvenile homicide and teen killers since 2009. But he didn't just begin speaking in 2009. Phil has been speaking to teens and parents and writing books since 1985, and has been researching youth culture and teen murder for a quarter of a century. In the process of those 30 years, he has had the opportunity to speak personally to over one million students. Known as "America's Leading Authority on Juvenile Homicide," Phil did not read a bunch of textbooks or attend college to learn this material. He gained this education by interacting with hundreds of violent juveniles, and studying over 1000 cases to find patterns and predictors that could help law enforcement and school administrators. Phil has interviewed and interacted with over 200 teen killers, school shooters, serial killers, mass murderers and sexual predator killers personally. He is the author of the popular book "Inside the Mind of a Teen Killer," which was released in 2009, the ten year anniversary of the Columbine massacre. You may have seen Phil on Spike TV's "Don't Be A Victim," or on two E! Network

Phil with Dog the Bounty Hunter

Phil and his wife Wendy

shows, "Too Young To Kill" and "Billionaire Crime Scenes." Phil Chalmers has had the opportunity to interact with serial killers Charles Manson, David Berkowitz, The Hillside Strangler, the Gainesville Ripper, and the Happy Faced Killer. He has interviewed schools killers from Pearl, Paducah, Jonesboro, Moses Lake, Bethel, Alaska, Lynnville, Tennessee, and Lewistown, Montana. Phil's work has been featured on the Montell Williams Show and in Time Magazine. He has debated the violent rap group Insane Clown Posse on The Howard Stern Show, and has debated dozens of other violent groups, including Metallica, Megadeth, GWAR, Cannibal Corpse, Two Live Crew, Slayer and many more. Phil is married, has a young son, and resides in Cleveland, Ohio. He has also interacted with numerous television personalities and youth culture icons, including Jessica Simpson, Will Smith, Justin Timberlake, Dateline's Chris Hansen, Dog the Bounty Hunter, and many more. Phil spends a lot of time with law enforcement nationwide, including members of the A&E Show "The First 48". Phil is endorsed by many including Lt. Col Dave Crossman.

# BIO AND WELCOME

# TEEN MURDER TRENDS

**1980's was the decade of the Satanic Killers.**

**1990's was the decade of the School Killers.**

**2000's was the decade of the Family Killers.**

**2010's will be the decade of the Female Teen Killers.**

**2020's will be the decade of the Cop Killers.**

Teen murder peaked in 1993 when 3800 juveniles were arrested for homicide. Today, about 1800 teens kill every year, roughly 5 homicides per day. From 1960 to 1991, the US population increased by 40%, but violent crime increased by 500% during that same period. During that period, murders increased by 170%, rapes increased by 520%, and aggravated assaults increased by 520%.

The first teen murder occurred in 1786, when Hannah Occuish, 12, from New London, Connecticut killed a 6-year-old girl by strangling her and beating her with a rock over a dispute over strawberries. She was hanged for her crime. The first teen thrill killing occurred in 1872, when Jessie Pomeroy, 12, murdered two young boys in Boston, Massachusetts, and tortured six others. His victims ranged from 4 years old to 8 years old, and they were tied up, beaten, and had their throats and genitals slashed. Pomeroy was given a life sentence, and spent 41 years in solitary confinement. The first act of school violence occurred on May 9, 1944, when two students, Madeline Kirkland, 11, and Eileen Foster, 13, killed 9-year-old schoolmate Margaret Patton. The murder occurred in Harlem, New York. The two killers held the young girl down and stabbed her to death. The first school shooting occurred on May 4, 1956, at Maryland Park Junior High school in Maryland. Billy Ray Prevatte, 15, took a gun to school and opened fire, wounding three teachers. Nobody died at this shooting.

The first school shooting that resulted in death occurred on October 5, 1966, and took place in Grand Rapids, Minnesota. High School student David Black took a .22-caliber handgun to school and shot a teacher and a student, killing the teacher. The first female school shooter was Brenda Spencer, 16, who opened fire on a San Diego, California elementary school on January 29, 1979. Spencer killed the principal and the school custodian, and injured a police officer and eight students.

The deadliest school murder in the United States occurred on April 20, 1999, in Littleton, Colorado. Dylan Klebold, 18, and Eric Harris, 17, killed 13 of their classmates and teachers, and then killed themselves. 23 students were wounded. The deadliest school murder in the world, carried out in a high school by a teen occurred in Erfurt, Germany on April 26, 2002. Robert Stenihäuser, 19, killed 16 people, including 13 teachers, 2 students, and a police officer. 7 students were wounded.

Billy Ray Prevatte, first school shooter.

The first female school shooter struck in 1979, Brenda Spencer.

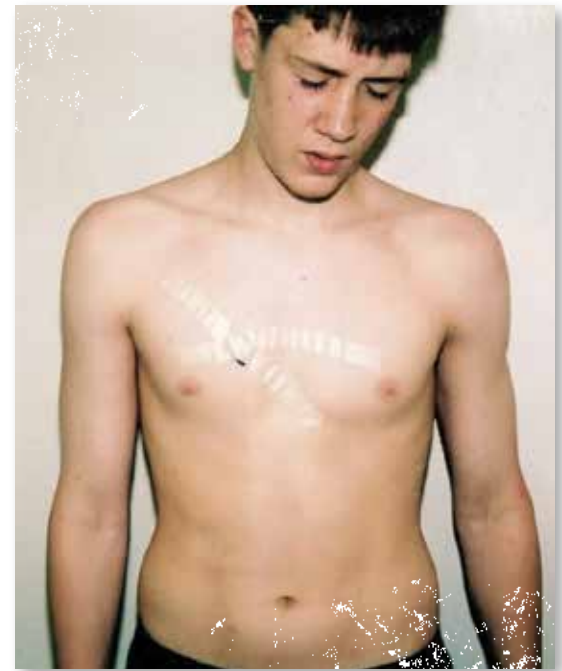

Eric Harris and Dylan Klebold carry out the deadliest school shooting in the U.S.

# HISTORY OF TEEN MURDER AND TRENDS

1. Juvenile homicide and school massacres are **PREVENTABLE** crimes.
2. Juvenile killers usually plan their crimes for **MONTHS**.
3. 90% of Teen Killers are **MALE**, but **FEMALE HOMICIDES** are on the rise.
4. In America, roughly **FIVE JUVENILES** commit murder everyday on average.
5. Roughly 10%-20% of juveniles who kill are **MENTALLY ILL**.
6. Teen Killers who use guns during the crimes obtain those weapons from parents or close relatives most of the time, and only about 50% of teen killers use guns in the commission of their crimes.
7. There is no **PROFILE** of a teen killer or school shooter. They are white, black, Asian, Hispanic, rich, poor, educated, uneducated, popular, loners, religious, and Atheist.
8. 80% or more of **SCHOOL KILLERS** plan on dying during the shooting, either self-inflicted, or death by cop.
9. The most common reason for a school massacre is revenge on those who have wronged the killer, along with a desire for instant fame and recognition.
10. Juvenile homicides and school shootings have taken place in Catholic schools, public schools, private schools, urban schools, and suburban schools.
11. The most deadly hour of the school day is first period, or first hour. Other dangerous times include times when students are gathered in large numbers-think lunch, school assemblies, and sporting events.
12. Two things you must do to keep your **STUDENTS SAFE** is hire an **SRO** at the school, and **ELIMINATE BULLYING** completely with **ZERO TOLERANCE**.
13. Teen Killers and School Shooters will fall into a **TRANCE-LIKE** state when killing, and may not know what they are doing, or may not hear you telling them to drop the weapon.
14. A juvenile homicide and a school massacre can take place in any school, in any city, in any state, and in any country. The biggest mistake we can make is to think that **IT WON'T HAPPEN HERE!**
15. Most of these juvenile killers have **NO HISTORY OF VIOLENCE**.

Springfield, Oregon school shooter Kip Kinkel, whos plan was to die during the shooting.

# 15 THINGS YOU MUST KNOW ABOUT TEEN KILLERS

## SIX TYPES OF TEEN KILLERS

1. The Family Killer: A juvenile who kills a family member.
2. The School Killer: A juvenile who kills a student, teacher or administrator at school.
3. The Gang/Cult Killer: A juvenile killer motivated by a street gang, hate group or cult.
4. The Crime Killer: A juvenile who kills while committing another crime, like burglary.
5. The Baby Killer: A juvenile who kills their infant or young child.
6. The Thrill Killer: A juvenile who kills to feel what it feels like.

## THE TEN CAUSES OF TEEN MURDER

10. Mental illness and personality disorder
9. Lack of spiritual guidance & proper discipline
8. Fascination with the criminal lifestyle & poverty
7. Peer pressure
6. Fascination with deadly weapons & easy access to guns
5. Cults, gangs & hate groups
4. Drugs & alcohol
3. Anger & depression-suicide
2. Obsession with violent media & violent pornography
1. Unstable family & bullying at school

Allowing your children to be affected by these ten causes of murder may not result in your children becoming murderers. Instead, they may become drug addicted, commit crimes, become porn stars, become prostitutes, become strippers, sell drugs, become addicted to pornography, have unstable lives themselves, and possibly commit suicide!

### ***PLEASE KEEP THESE TEN CAUSES OF TEEN MURDER OUT OF THE LIVES OF YOUR CHILDREN!***

Get your child mental help or medication if they need it. Take them to church and provide boundaries for them. Provide an existence for them above the poverty level. Oversee who they choose as friends. If you have guns in your home, make sure your kids don't have access to them. Know where your child is at all times so they don't have the freedom to join a gang or cult. Have zero tolerance for drugs and alcohol, and get them to rehab if they need it. Know the warning signs of suicide, and get them help if you see the signs. Keep violent entertainment out of your child's hands, especially violent video games and violent porn. Make sure your school has a strict bullying policy, and that your son or daughter is not a victim of bullying or is the bully themselves. And lastly, maintain a stable household for your kids, full of peace and love.

# TYPES OF TEEN KILLERS AND CAUSES

## STEPS TO KEEP YOU AND YOUR FAMILY SAFER

- Police officers and civilians, if you are allowed to legally carry a gun at all times, **CARRY YOUR GUN AT ALL TIMES!**
- Consider a gun for protection in your home, but only if you are trained to use your gun, and the weapon is secured in a steel safe that uses push buttons to open the safe, instead of a key or combo. I also like the Smith & Wesson Bodyguard as a great little pocket gun.
- Install a security system like ADT in your home, with the system that announces which entryway has been breached, complete with motion detectors
- Purchase a large dog for your home and family, like a German Shepard, Rottweiler, Doberman Pinscher, Boxer, Mastiff, or other large dog.
- Set up a safe room in your home where you sleep, like the master bedroom. Complete with a deadly weapon, charging cell phone, and extra locks on the door.
- Eliminate a home phone at your home, and instead, use cell phones.
- Own your home with an LLC, in another name, instead of your personal name. It's easy to track you down with tax records at the courthouse.
- Install a surveillance system at your home, and you can find them at **ADT.com** (see ad) or **TigerDirect.com**.
- Practice drills in your home, similar to a school lockdown drill. What should your family do in the event of an intruder, or if the home's alarm system goes off.
- Never allow a stranger into your home, and if you do, make sure you have a concealed weapon on your person. I would also recommend hiring a police officer for the work you need done in your home who does handy work on the side. Try to hire someone you know.
- Never put your home address in your GPS. And if you already have done so, remove your GPS from your vehicle when heading to the mall or a movie, especially if there are kids at home.
- Skip the window sticker with the images of your family and all of your names.
- Never put your home address or home phone on your luggage tag when traveling. All they need is your cell phone. They don't even need your name.
- Live in condition yellow, always aware of your surroundings, aware of who is following you, and who is in the vehicle parked next to yours in the parking lot.

## THE NATION'S LEADING VISITOR MANAGEMENT SYSTEM FOR K-12 SCHOOLS

↓raptor  
WE ARE KEEPING WATCH

Raptor Technologies is the nation's leading visitor management system and protects over 13,000 schools by issuing instant sex offender and custody alerts while tracking visitors, students, faculty and volunteers.

:: **Instant Sex Offender Screening**

Screen visitors against registered sex offender databases in all 50 states **before they enter** your campus.

:: **Custom Custody Screening**

Receive instant private alerts from a customized database covering **custody issues** and **unwanted visitors**.

:: **Emergency Panic Button**

Customize an **emergency panic button** which instantly notifies a list of school officials and first responders.

:: **Web-Based Visitor Management**

**Electronically log visitor data** at check-in and print highquality visitor badges.

:: **Offender Alert Monitoring**

Raptor **instantly notifies** school officials and works with your staff to **review offender alerts**.

:: **Easy to Install and Use**

**Setup takes minutes** and installation includes **personalized training** for your staff.

631 West 22nd Street  
Houston, Texas 77008

## Thanks to Phil Chalmers, You are entitled to some great incentives with ADT Security!

PROMO CODE: PHILCHALMERS

There would be a \$99.00 up front charge to cover a brand new wireless system for your home, my technician to install it and activate it for you all in one trip!

We would provide you with a standard package of the following equipment:

- Control Panel/Keypad
- 3 Door/Window Contacts
- 1 Motion or Glass Break Sensor
- 1 Interior Siren
- Transformer/Back up Battery
- ADT Yard Sign/Window Decals

**AND \$100 VISA GIFT CARD,  
So you get completely setup for FREE!!**

- Monitoring Options (all include POLICE, FIRE, & MEDICAL)

- Landline Monitoring @ \$36.99 per month

You have the option of using a home phone line to communicate with ADT for your monitoring at \$36.99 per month. However, it isn't as safe due to the phone lines usually being exposed on the exterior of your home. This means they can easily be cut and then we cannot receive a distress signal. It also isn't very cost effective as you will have to pay for the monthly phone service (\$20-\$30 per month).

- Cell Monitoring @ \$44.99 per month

Cellular Monitoring means we communicate with your system thru cell phone towers. It has nothing to do with your cell phone or provider. It is more reliable since there are no lines that can be cut. There is also a **\*\*CELL PRIMARY DEVICE** we need to install.

**\*\*Regularly \$269 through the 1-800#... But I can give it to you for FREE!!**

- Pulse Monitoring @ \$52.99 per month

This allows you to download an app on smart/android phones. Thru this app you can arm & disarm your system anywhere you get cell phone service & internet. Text alerts will inform you of activity with your system. You can also access this info on any tablet or computer.

**I can also supply you with quotes for cameras as well as some home automation (lights and door locks). If this interests you, just let me know!**

- You will save up to 20% on your home owners insurance with police, fire and medical coverage for your home.
- All new equipment provided to you will be covered under warrantee at no additional cost to you!
- ADT requires a 36 month agreement and is transferrable after 16 months for this exact same deal .gift card and all!

## NIGHTLOCK

Door Reinforcement Device

The NIGHTLOCK is a patented security tool that allows a teacher to immediately lock the door from inside the classroom thereby limiting their exposure to a Violent Intruder.

It is quite simply the easiest, most affordable, and effective classroom door security solution. It works on both inward and outward swinging doors and can be used to either reinforce the door or as a stand-alone locking device. Unlike standard hardware, the NIGHTLOCK is anchored securely to the floor. This denies the intruder the ability to break a window, reach in, and defeat the device while making it virtually impossible to defeat.

## SMPT

Safety Multi-Purpose Tool

The SMPT is a patent pending device that turns your office or classroom fire extinguisher into a highly effective, easy to use violent intruder defense tool. It does not interfere with the standard operation of the fire extinguisher and requires no modification. It can be used to both distract and physically overcome a lethal threat as well as to break out a window to safely evacuate. It is veteran designed and 100% made in the USA.

## VIOLENT INTRUDER PREPARATION INTERVENTION RESPONSE

V.I.P.I.R.-1.0 & 2.0

School Risk Solutions developed V.I.P.I.R. Training to provide you with the knowledge to aid you in developing a comprehensive strategy to help you deter, identify, and react to a Violent Intruder Event.

We modeled this training on the actions of a Viper snake. A Viper blends in to its natural surroundings going about its business. It does not actively seek out trouble. However, when it is in danger, and there is no chance of escape, it lashes out with speed and aggression to eliminate the threat posed to it. It then retreats to a safe place to remove itself from danger.

What you will learn will allow you to minimize the negative impact on your facility, students, and staff. This training will help develop and reinforce a "winning mindset" and empower those involved not to stand idly by and allow themselves to become a victim, but to be pro-active and win. This training will teach you how to effectively communicate, appropriately respond to, and ultimately survive a Violent Intruder Event for yourself and those in your care.

V.I.P.I.R.-1.0 and 2.0 principals are used nationally in K-12 schools, colleges, universities, and other public and private facilities. V.I.P.I.R. is designed to encourage a new way of thinking which stresses a pro-active response to deal with a Violent Intruder Event. These trainings are recommended for administrators, managers, teachers, law enforcement, facility security, school board members, architects or anyone else involved in the security of a school or other facility.

WWW.SCHOOLRISKSOLUTIONS.ORG

509-910-3919

Lt. Colonel Dave Grossman  
Director

I am Lt. Col. Dave Grossman, USA (ret.), author of the books *On Combat*, *On Killing*, *Warrior Mindset*, and *Stop Teaching Our Kids to Kill*. I am one of our nation's leading trainers for law enforcement and school safety.

And I want to take this opportunity to **give my strongest possible support and endorsement of Clear Armor products for the security of your loved ones, at home, in the workplace, and in our schools.**

The three most horrific school massacres in modern US history have been Sandy Hook (26 dead), Columbine (13 dead), and Red Lake (7 dead). **In all three cases the killers shot through windows in order to get to their victims.** You can make a very good argument that Clear Armor products, properly employed, could have prevented the great majority of the murders in all three cases. (A similar situation exists in many workplace homicide scenarios and home invasions and burglaries.)

The US DOJ reports that in '97 we had 57 "dead by violence" in our schools. In '06 it was 63 dead, an all-time record body-count. And after the Sandy Hook massacre, I think the 2012 school year will hit an even new "record" body-count in our schools.

**Our children are more likely to be killed by violence in the school than every other possible cause of death put together. BUT not a single child has been killed by school fire in the US since 1958, over 50 years. It is time for us to place the kind of money and resources into violence prevention that we do for fire prevention in our schools, and Clear Armor is the place to begin this process.**

I have chosen Clear Armor products to protect my home and my loved ones, and I recommend that you do the same. Find out more at [ClearArmor.com](http://ClearArmor.com)

# TEN MYTHS OF A SCHOOL SHOOTER

## MYTH ONE

They didn't fit the profile-There is no profile, except male.

## MYTH TWO

He just snapped-These crimes are planned for months, and Columbine was planned for a year and a half.

## MYTH THREE

No one knew-These shooters will most likely tell someone. Over 80% of school shooters told one person, 50% told two or more.

## MYTH FOUR

He had yet to threaten anyone-These kids usually do not make a direct threat, but more of an indirect plan of attack.

## MYTH FIVE

He was a loner-Most of these shooters had plenty of friends, and some had girlfriends.

## MYTH SIX

He was crazy. Less than 20% of these shooters are mentally ill, and most were not involved in substance abuse. On the flip side, most were depressed and suicidal.

## MYTH SEVEN

If only the police had showed up quicker: Most school shootings are over in minutes, and it should take police officers 3-5 minutes to show up and enter the building safely. Kip Kinkel shot 50 rounds and emptied his gun in under three minutes, well before police could show up.

## MYTH EIGHT

He never touched a gun: Most of these shooters have access to deadly weapons, and many were given guns as presents.

## MYTH NINE

The school did everything they could: Most schools are not doing enough to help potential school shooters, are not taking bullying seriously, and are not spending enough money on school security and violence prevention. If a school does not have a police officer in the school, is not using an anonymous tip line, and does not have a zero tolerance to bullying, they are not doing everything they could be doing, and their students are vulnerable to a violent attack.

## MYTH TEN

School shootings are rampant. Although school shootings are a rare occurrence, school violence and bullying are present, and there is always the chance of an attack. I believe the reason there are not more school shootings is the increased proactive measures of law enforcement and school administrators.

## DESTRUCTIVE ENTERTAINMENT

"The media is the catalyst that pushes them over the edge."

**-Greg McCrary, former FBI criminal profiler**

"You can't have the kind of saturation of violence that we have today without it manifesting itself somewhere. It's like a virus spreading through a large population of people. Not everyone gets sick. Just the most vulnerable, and then with varying degrees of illness."

**-Dewey Cornell, Director, University of Virginia Youth Violence Project**

Natural Born Killers is a favorite movie of school shooters, along with Elephant, Zero Day, a movies about Columbine.

Redbox, a movie vending machine found at many retail stores and restaurants, rent numerous movie titles to anyone with a credit card, with no restrictions. Their selections include torture films, horror movies and violent video games.

Purchasing tickets online has increased minors' ability to attend R rated movies. Most movie theaters allow paying customers to hand over a ticket, then have the freedom to choose a movie, ranging from G rated to R rated, with little or no supervision.

Three of the most violent video game series to date are Saints Row, Grand Theft Auto, and Manhunt. All are rated M for mature. Be aware that if your kids are playing games rated "M," the video game companies are telling you that they are not appropriate for children. Instead, stick to games rated "T" for teen and "E" for everyone.

There are several resources that are helpful to parents regarding media discernment and choices. My favorites are **Pluggedin.com**, **Screenit.com**, **Ohhla.com**, **AZLyrics.com**, and **UrbanDictionary.com**.

## THE JUGGALOS

There are several ways to spot a Juggalo, which is a fan of the rap group Insane Clown Posse. The male fans are called "Juggalos" and the female fans are called "Juggalettes." They love sporting the hatchet man logo, including wearing jewelry, tattoos, and clothing with the logo. They also will post photos of themselves with guns, knives, hatchets on their Twitter, Instagram or Facebook pages. They use a gang-type hand sign that is formed into a W on one hand, and a C on the other hand, which stands for "Wicked Clown". Many states have classified them as a gang, but I feel they are more like an underground cult. The buzzwords these kids use are taken right from the Juggalo pledge, and include Hatchet, Society, Ninjas, Ninjettes, Family, Clowns, Faygo, Wicked Shit, Lette, Shangri-La and Neden, which is their name for the female anatomy.

Logo of violent music group  
Insane Clown Posse.

Another favorite group of the Juggalos.

The female ICP fans are  
called "Juggalettes".

## DESTRUCTIVE ENTERTAINMENT AND THE JUGGALOS

"Every homicide is unconsciously a suicide and every suicide is, in a sense, a psychological homicide. Typically, the killer is afraid of killing himself, afraid of dying, and therefore he murders someone else."  
-David Abrahamsen, author, *"The Murdering Mind"*

## RISK FACTORS

The two biggest risk factors regarding suicide are past attempts of suicide (nearly half of teens who complete a suicide have tried unsuccessfully before) and a family history of suicide. Suicide is the third leading cause of death for 15-24 year olds, according to the Centers for Disease Control and Prevention (CDC) after accidents and homicides. It's also thought that at least 25 attempts are made for every completed teen suicide.

## WARNING SIGNS

The top warning signs of suicide include a threat about killing oneself, giving away prized possessions, a solid plan on how they will end their life, and the taking part of risky behavior like criminal activity or drug use.

## FACTS AND MYTHS

More females attempt suicide, but nearly 80% of completed suicides are by male teens. Half of teens use handguns to take their lives, and suicides are not more prevalent during the Christmas season. Instead, the top suicide months include April, May, June and July.

## NORMAL OR NOT NORMAL?

Normal talk in your home, from your children, may include statements from them like "I hate you," "I hate this family," or "I can't wait to move out." What is not normal, and a warning sign of murder and suicide are threats like "I should just kill myself," "I should just die," "I am going to kill you" and "I'm going to kill this whole family."

There are several suicide prevention websites in the back of this book, and they include **AFSP.org**, **Suicidology.org**, and **JasonFoundation.com**. Also, a great toll free number to call is **1-800-SUICIDE**.

# SUICIDE: RISK FACTORS, WARNING SIGNS AND MYTHS

# THE HOMICIDAL TRIAD. OR THE MACDONALD TRIAD

The three behaviors of the Homicidal Triad, which is a great method of identifying early warning signs of violence include:

1. Cruelty to animals
2. Fascination with setting fires
3. Bedwetting into adolescent years

And I add a fourth behavior...Peeping Tom

## WARNING SIGNS OF VIOLENCE

- Making a statement or threat about killing or harming someone.
- Violent or threatening schoolwork, artwork, drawings, class projects, & social media.
- Fascination with guns, knives, swords, bombs, and other deadly weapons.
- Obsession with violent video games, violent music, violent movies, & violent porn.
- Might keep a journal or blog with their thoughts, threats, or plans.
- Fascination with other school shootings, especially Columbine.
- Fascination with other violent or hateful books, as well as serial killer type books.
- Will begin to commit pretty crimes, vandalism, arson, and running away.
- Will start to dress the part of a school shooter, think Columbine and trench coats.
- They may harm themselves and take part in self-abuse, like cutting their arms.
- There might be a drastic change in appearance, like hair style, makeup, or clothing.

## TRIGGERS OF JUVENILE HOMICIDE

There are a few triggers that can propel a teen towards homicide and suicide once they have a plan, and have been thinking about killing themselves or others. Once you have identified a potentially violent teen through causes and warning signs, then you must watch for triggers in their life. Triggers include a suspension or expulsion from school, an arrest or ticket, a dispute with parents over a range of topics, from entertainment choices to boyfriend or girlfriend issues. Other triggers include a breakup with a boyfriend or girlfriend, a bullying incident at school, or any other wrong that they feel is enough to kill someone over. Be ready for drastic measures and police involvement if you see a potential trigger in a violent teen's life. Also, law enforcement should be contacted before a student is suspended or expelled.

# THE HOMICIDAL TRIAD AND OTHER WARNING SIGNS

## 26 QUESTIONS FOR A POTENTIALLY VIOLENT TEEN

The following questions can be presented to a potentially violent offender and/or to his or her parents. If you need to discuss the results with Phil Chalmers, you can scan and email the results to **chalmers33@aol.com** or call **(330) 998-3772**.

1. Has there been any trauma or abuse in this person's life?
2. Have they suffered any loss in life, like a death of a relative, divorce or a breakup?
3. Are they being bullied at school? How do you know or not know?
4. Is the child experiencing domestic violence in the home?
5. Is the child involved in pornography or violent/sexual entertainment, including video games, movies or music?
6. Are there any signs of suicide or depression?
7. Is the child using drugs or alcohol, or are they currently prescribed any medications?
8. Is it possible that the child is involved in gang activity?
9. Is the child fascinated with deadly weapons (guns, knives, bombs, swords), and are there weapons in the home?  
How are the weapons secured?
10. Is the family involved in church? Is the child disciplined when they need correction, and how?
11. Is there a history of suicide in the family? Is the child showing any warning signs of suicide, like threats or giving away prized possessions?
12. Does the child wet the bed?
13. Is the child fascinated with fire and setting fires?
14. Has the child ever tortured or killed animals?
15. Has the child ever made a threat or statement about killing anyone, including family?
16. Have you ever seen anything violent or troubling in their schoolwork, artwork, or in their journal? Do they have a journal?
17. Does the child have a presence on the web, including a website, blog or social media such as Facebook, Twitter, Instagram or Snapchat?
18. Has the child ever showed any interest in school shootings, especially Columbine? Have they ever showed any interest in serial killers?
19. Do they collect any books that may be filled with violent or hate-filled philosophies, including the Necronomicon, Satanic Bible, Anarchist Cookbook, or Mein Kampf?
20. Have they ever committed petty crimes, like vandalism, arson or running away?
21. Has their appearance changed, including clothes and hair?
22. Have they ever partaken in self-abuse activities?
23. Is it possible they are dating an older person?
24. What are their friends like?
25. Do they spend any time away from the home, out of your supervision, besides school?
26. Have you ever caught them "peeping" on a neighbor, mother, or sister?

# HELPFUL RESOURCES AND WEBSITES

## THE 5 D's OF SCHOOL SAFETY

### 1: DENIAL

Invite your school staff and school leadership to a seminar by Phil Chalmers or Lt. Col Dave Crossman. Also, ask the important question, "How much of our school budget do we devote to school safety and keeping our kids safe?"

### 2: DETECT

You must have an anonymous tip line, a fake FaceBook or Twitter account to have an authentic insight into your child/students lives. It would also be a good idea to invite parents to volunteer one day a year to help monitor the hallways. K-9's are also a great detector, although they are not trained to detect manufactured substances (K2, K3, Oil, Dabs).

### 3: DETER

The best deterrent is a School Resource Officer, or a sworn police office assigned to the school building. Also a good idea to have a marked police car in front of the school building. Outside doors should be locked, with **ONE** point of entry. Also should have a **ZERO TOLERANCE** policy to bullying and joking about violence. You can even consider a possible dress code for your students. The imperative necessity is your school must have a **POLICE PRESENCE**.

### 4: DELAY

Interior classroom doors should be able to lock from the inside and have safe glass. Your school should also practice lockdown drills with an announcement as to what the threat is, and where the location of the threat is. I recommend the **ALICE** program for lockdown drills. For more info, log on to **ROseminars.com**.

### 5: DEFEAT/DESTROY

To defeat a dangerous threat, the school should allow law enforcement to store high powered assault-type weapons inside the school in a steel gun safe. Wouldn't be a bad idea as well to have access to a helicopter (think the local news team) as well as accessibility to the roof of the school. I also recommend using virtual tour software, which can be found at **visualtour.com**. You should be able to log onto a website, and get a look at each room of the school, in the event of a hostage situation.

## THE 8 R's OF JUVENILE HOMICIDE PREVENTION

### 1: REPORT BULLYING

### 2: REMOVE CHILDREN FROM ABUSIVE HOMES

### 3: RESTRICT THE SALE OF VIOLENT MEDIA TO THE KIDS IN YOUR CITY

### 4: REGULATE SUBSTANCE ABUSE AND ALCOHOL CONSUMPTION

### 5: REQUEST MORE PROGRAMS FROM THE CITY TO CURB GANG INVOLVEMENT

### 6: REQUIRE GUN OWNERS TO SECURE THEIR DEADLY WEAPONS

### 7: RETURN TO CHURCH & SPIRITUAL ACTIVITIES

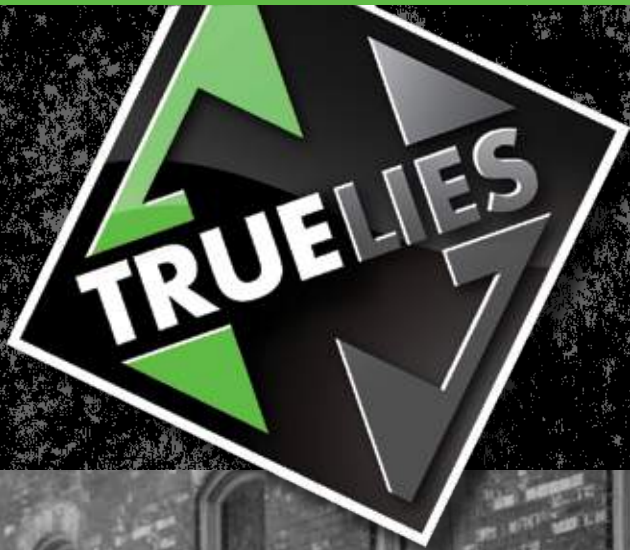

### 8: RELOCATE TO A SAFER NEIGHBORHOOD & SAFER SCHOOL IF NEEDED

# SCHOOL SAFETY AND JUVENILE HOMICIDE PREVENTION

# NOTES

# TRUE LIES

## SCHOOL ASSEMBLY

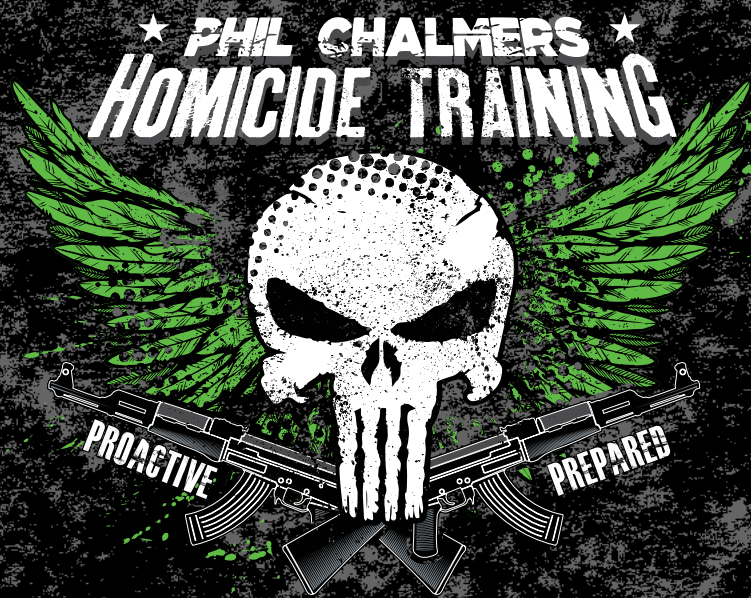

The True Lies Tour features dynamic assembly speaker and crime television personality Phil Chalmers, who will be talking about bullying, crime prevention, teen violence, and substance abuse. Phil will challenge you, shock you, and grab your heart as he shares his passion about bullying, violence, and his love for this generation. Phil hopes to destroy the **LIES** that are killing this young generation, and bring **TRUTH** in an in-your-face manner that works.
