
Facebook App Without Apple Id

The screenshot shows the Apple ID sign-in interface. On the left is the Apple logo. To its right, the text reads: "Sign in to view account information." Below this, a paragraph explains: "If you have an Apple ID, sign in with it here. If you have used the iTunes Store or iCloud, for example, you have an Apple ID. If you don't have an Apple ID, click Create Apple ID." There are two input fields: "Apple ID" and "Password". To the right of the "Password" field is a blue link that says "Forgot?". At the bottom right are two buttons: "Cancel" and "Sign In".
