There's no need to pay for movies kids want to see because there are hundreds of free kids movies online. These free movies for kids can all be found on websites where it is legal to watch movies. They all have separate areas where kids can go and catch up on the latest movies as well as some of their favorite free TV shows. There's a wide range of free kids movies online that include classics from your childhood as well as great blockbuster hits over the past few years. These movies are excellent for any age of the child as well as some that the whole family will enjoy. Visit the Family section at Popcornflix to watch family movies, perfect for the kids in your life. Big movie posters make it easy for kids to choose what they want to watch. Some of the more popular free children's films we've been able to find here include Alice in Wonderland, Sleeping Beauty, Cinderella, The Little Mermaid, Aladdin, White Fang, Benji, Popey, and Jack and the Bean stalk. There are also free cartoons here that kids might like, including Popular Mechanics, Sky Dancers, Pet Alien, My Strange Pet, Stoke, Puppy in the Pocket, Life with Derek, and Secret Millionaires. Popcornflix is simple enough for kids to manage everything on their own. There are ads every 20 minutes on all the movies and TV shows here. The Popcornflix Kids website is just like Popcornflix, but only includes children's movies of their choice, which you might prefer so kids can't accidentally find an adult movie. Yidio searches all free movie websites and puts lists together, so all movies are in one place, including free movies for kids. To see them, check out Children and Family. Inside this section of the movie, you can sort by popularity and recently added selection, and filter children's movies by rated, such as PG, PG-13, and NC-17. Some great free kids movies we've spotted here include Escape from Planet Earth, Hoodwinked Too!, Spirit of the Forest, Cop Dog, Snowman, Mia and Migoo, Search for Rin Tin Tin, Lion from Oz, and Soccer Mom. In Tooby there is a section for family films and children's shows. While you can't organize movies rated or popular, one full page of free children's movies makes it easy to browse. Happy Elf, All Dogs Go to Heaven, Igor, Mystery Nima, Little Bear Movie, Amazing Feats of Young Hercules, Eloise: Eloise Goes to School, and Cirque Du Soleil: Worlds Away are just some of the movies we've seen available on Tubi. Tubi has free TV shows for kids, too, including Family Game Night, Transformers, Sabrina, Babar, Heroes of Rescue, and G.I. Joe Voodoo is an excellent movie streaming site with a section dedicated to children called And the kids. It has hundreds of movies that you can stream for free: You just have to watch ads to support the site. Some of the free movies for kids that you can stream on Include Charlotte on the Internet, Happy Feet, Dennis Threat, Dad's Day Camp, Mac and Me, and Dinosaur Island. Kids can watch free movies all day long with Pluto TV. It is 100% free and works on a computer, smart TV and mobile device. Pluto TV streams child-related movies and shows on various channels. If you're using the Pluto TV mobile app, you can also watch children's movies on demand at any time without waiting for something you like to show on this channel. Pluto TV is known to play children's films like Alpha and Omega movies, Jungle Girl and The Lost Dinosaur Island, Sea Level, Agent Cody Banks, Invincible Iron Man, Planet Hulk, Almighty Thor, and Igor. You can find children's movies on the Pluto TV app through the FUN FOR FAMILY section in the Free Movies and TV section. Visit the link below to find a whole section of TV channels for kids, including after-school cartoons, TV Kids, NickGames, NickMovies, NickJr., TV Kids Animation, and more. Classic Cinema Online has more than a dozen family films, which are a great way to introduce children to classic movies. These films are mostly from the 1930s and 1940s and include classics like Pinocchio, Million Dollar Kid, Lassie: Painted Hills, and Where the Red Fern Grows. YouTube may not be the first place you think about when you want to watch a movie online, but they actually have a huge collection of free movies including free kids movies and family movies. The trick to finding free movies on YouTube - given that free YouTube areas are designed for short videos - is to find a channel, playlist, or service that can find children's movies for you. For example, YouTube has a special link to free movies, which includes movies for kids, too. Another place to find free children's movies on YouTube is in the fullmoviesonyoutube part of Reddit. The free children's movies you'll find on YouTube include titles like Agent Cody Banks, Igor, Velvet Rabbit, Jack and the Beanstalk, Princess and Goblin, Tarzan, Good Boy!, and all the dogs go to heaven. You'll also find some classic cartoons you can watch for free here, including Superman, Popey, and Christmas classics. Most little girls go through at least one princess-loving phase, and many hold on to their preferences for all things princess and into adulthood. Fortunately, a good princess story is fun for the whole family, and thanks to Disney, princess movies are not hard to find. Perfect for roosting and partying, or just having a fun night of family movies, here are some Disney animated movies suitable for the princess. Starring Kristen Bell and Idina Menzel, Disney Frozen has taken America by storm - and the breakout song Let It Go can never get out of mum's head. The attention he received was worth it though, as this film shows two Disney princesses, Elsa and Anna Of Arendelle, sisters who have to overcome the curse on With catchy melodies and a stellar cast of characters, including a snowman who isn't afraid of summer, it's sure to be an instant family favorite. Don't tell me I didn't warn you about that big song. Princess like no one you've ever known before, Merida is a Scottish girl who is determined to create her own destiny. Brave, tells the fascinating story of Merida's bold decision, the mystical unintended consequences and what she has learned as she works to make things right. Merida is a good role model for the princess because she is not amazed with some prince. Instead, she believes in creating her own destiny and fighting her own battles. The film is also somewhat educational, as it happens in medieval Scotland. Animated films set in real places can arouse the interest of children in other countries and cultures. And if you're hosting Brave, there's plenty of fun to be had while still inspiring your kids to be their own strong prince and princess. Told through artistic animation and live characters, Tangled is the story of Rapunzel. Disney's 50th animated film was supposed to be a princess movie (it just had to), but this royal film is appealing to boys and girls of all ages. Tangled does Disney justice and he pays tribute to all 49 movies before him while he's also maintaining a fun and updated feeling. The Blu-ray version of the film contains deleted scenes, an original opening storybook and more. Hop in a thrilling twist on the classic tale in Disney's Princess and the Frog. The film follows a hardworking and kind young woman named Tiana who timed her own business trying to make her dreams come true when a frog kiss flips her world upside down. A family adventure full of magic and surprise, The Princess and the Frog tells a fragrant story with a great message about hard work and not forgetting to appreciate what is most important: each other. With super-catchy tunes, a classic Disney all-star cast of funny characters and a rich New Orleans setting, this movie is sure to entertain over and over again. Beauty and the Beast is a classic fairy tale, and this film quickly became a classic in itself. So much so that Disney recently released a new live-action adaptation of the classic Treasure starring Emma Watson as Belle. A feature of Disney's portfolio, the original animated story follows the adventures of Belle, the daughter of an eccentric inventor, as she agrees to stay in the castle of the beast. Love prevails and the spell is broken, revealing the beast to the prince he really is. And yet, as memorable as the name of the characters, the true stars in the animated film of the other inhabitants of the castle. Songs and dances when Cogsworth (clock), Mrs. Potts and Chip (kettle and cup) and unforgettable Lumiere (candelabras) envelop. Step into the magical world of genies, genies, carpets and stunningly sweet princess Jasmine that many little girls watch even to this day. Aladdin is a modern classic and one of the most memorable films Princess Disney has made to date. The film is fun and filled with laughs like Aladdin and his clever gin (voiced by Robin Williams) scheme to win the heart of the princess. However, as we all know, there must be a villain and Jafar is always on stage to thwart Aladdin's plans. Your family will also love the soundtrack to Aladdin with unforgettable singing along songs like Arab Nights and Friend like me. This is really a movie that every family should own - even your action-loving boys will love it! A different setting for the princess, The Little Mermaid has introduced millions of young girls to the opportunity to be an underwater princess. Sure, the fins make it hard to walk around in an Ariel costume, but a girl can dream, right? The film is another masterpiece from the twilight years of Disney and quickly became an animated classic. Filled with a brilliant soundtrack and enjoyable characters such as Flounder and Sebastian the lobster, as well as the villainous sea witch Ursula, this is a film with something for all family members. In true princess fashion, there is also a love story and Prince Eric is a beautiful subject of this fairy tale. Cinderella was Disney's first venture in the history of the princess, and it's hard to believe that this film was created in 1950. It remains a charm for both the young and the old. The eternal story that every little girl will love, it belongs in the house of every family. Elegant and fun, the story tells the story of a young woman named Cinderella, who remained in the care of an evil stepmother. Her life is spent on serving stepmother and two evil fallen sisters, until one day she receives a visit from the magic fairy godmother, who gives her the desire to attend the ball and meet with the Prince Charming. The film is fun and delightful characters like Fairy Godmother and Jaq and Gus, Cinderella two friends who just turned out to be mice. If you are looking for the true story of a princess few can beat first, Cinderella. Grimm's tale of Sleeping Beauty is about life - via just over PG - in another Disney classic from the 1950s. This timeless animation is sweet and durable and is sure to pique the interest of your little princess. The story tells how the despised fairy, Maleficent, seeks revenge by putting Princess Aurora to sleep. The only thing that can wake her up is a kiss from her true love. From Prince Phillip to three good fairies, this movie is filled with cute characters - I just want to give roly pollinated King Heinrich a big hug! Sleeping Beauty may not be one of Disney's most memorable movies, but on the princess and power front of true love, few others can beat the story. Mirror, mirror on the wall, who is the fairest of all? It's a classic, from a classic fairy tale with one of the scariest villains ever created: the queen. The storyline of Snow White is fabulous: a jealous queen attacks the curse, a beautiful princess falls asleep, a handsome prince comes to the rescue. You know how it goes, but the best part of this movie is Seven Dwarfs. If your family doesn't sing Whistle While You Work for a few days after watching, it's time to see it again. If this princess story seems fair enough to buy, the Blu-ray Diamond Edition is one of the coolest releases ever to hit store shelves with tons of behind the scenes bonus features the whole family will enjoy. Animated adventure, full of excitement, danger and romance, Anastasia tells the story of the lost Russian princess Anastasia and her journey to find her true identity. Although not a Disney movie, the inclusion of this film is a whole soundtrack of original songs (a la Disney) and funny talking characters like Betty, Anastasia ranks right up there with the greatest Disney princess movies. Loosely based on the real events that led to the overthrow of the Russian monarchy, the film follows the main character Anastasia - known in her youth as Anya - when she tries to find answers about her family, which she lost as a young girl with the help of two crooks Dmitry and Vladimir, who hope to impersonate her as a lost Russian princess. Anya comes to find out that she is actually the youngest daughter of the royal family, Romanova, but she barely escaped with her life during the siege, thanks to the help of Dmitry as a child. The only member of her family who is known to have survived was her grandmother, who moved to Paris, which the men take her to meet. This twentieth-century Fox film rivals any of Disney's and the historical aspect of the story will fascinate your young princess - even if it's not entirely historically accurate. This might just be the perfect choice for a little girl who has seen all the other princess movies! Movies!
