*"Vestire il fuoco nasce dal desiderio di consegnare all'uomo un unico elemento che valorizzi spazio e piacere."*  
Ivano Losa, designer

Il fuoco, tutto ha origine da qui. Da questo elemento mitico e leggendario, potente e tangibile, che Ak47 ha saputo vestire con naturalezza e stile, realizzando oggetti di design utili e mai scontati, capaci di arredare lo spazio ed offrire piacere agli occhi e alla mente. Ak47 rappresenta l'eccellenza nella produzione di bracieri per esterno. Un'eccellenza raggiunta attraverso lo studio e la lavorazione delle materie prime, la progettazione e la cura dei dettagli, un design made in Italy unico ed inimitabile. Un'azienda che fa della qualità il proprio punto di forza, sostenuto da idee funzionali e prodotti affidabili. Prodotti che sanno emozionare; emozioni che prendono forma attraverso l'ardere del nobile legno e di braci appassionate.

Ma allora perché questo nome, così netto e provocatorio? AK-47 è la sigla dell'oggetto progettato nel lontano 1947 con materiali e criteri tecnici pensati per durare nel tempo: "E' questa la caratteristica che apprezziamo e alla quale ci siamo ispirati." Un fuoco che è anche vita, vigoria e vivacità. Elementi, questi, distintivi dei bracieri di Ak47; che da semplici complementi d'arredo per esterno si trasformano in dinamici oggetti di design, dotati di sostanza e di forza propria. In Ak47 la sensibilità dei designer e dei progettisti si fonde con l'abilità e la sapienza dei migliori maestri d'arte, plasmando oggetti unici per semplicità e utilità, stile e funzionalità. Un'azienda che propone una collezione di oggetti dal design spontaneo e disinvolto, che a contatto con l'ambiente riscoprono le loro origini, quelle delle materie prime che li compongono, come se non le avessero mai dimenticate.

Pensiamo, progettiamo, realizziamo in Italia.

*"Clothing fire springs from the desire to offer man a single element that enhances both space and pleasure."*  
Ivano Losa, designer

The fire: everything springs from it. From this mythical and legendary element, powerful and tangible, which Ak47 has been able to dress with simplicity and style, giving birth to useful and unpredictable design objects, capable of decorating space and delighting the eye and the mind. Ak47 represents the excellence in the production of outdoor fire pits and fireplaces. An excellence achieved through study and processing of raw materials, design and attention to detail, a unique and inimitable made in Italy design. A company that makes quality its main strength, supported by functional ideas and reliable products. Products which are able to move and touch; emotions that take shape through the burning of noble wood and passionate embers.

Then why the name, so sharp and provocative? AK-47 is the acronym of the object designed back in 1947 with materials and technical standards thought to be long-lasting: "This is the feature we appreciate and which inspired us." Fire is life, vigour, vivacity: these are characteristic features of our fire pits. From outdoor furnishing and decorations they turn into dynamic design objects, endowed with substance and a proper shape. In Ak47, the sensibility of designers merges with the ability and the knowledge of the best master of arts, shaping objects unique for their simplicity, utility, style and functionality. Our identity is defined by a collection of objects with spontaneous and informal design, which in contact with the environment rediscover their origin: the raw materials of which they are made of, as if they've never been forgotten.

We think, design and manufacture in Italy.
