**Seat and backrest adjustment**

The armchairs are fitted as standard with a motorised seat and backrest adjustment function, including a rechargeable battery.

nanoSOFT Sitzkomfort

This model is equipped with the special **nanoSOFT** seat, which combines exceptional softness with integrated ergonomic support.

Combined covers

This model can also be supplied in combined cover qualities and cover colours. See order information and image.

Swivel function

The armchair is fitted with a 4-star swivel base. The ottoman is fixed.

Contrast stitching

This model is available with contrasting stitching in leather on the body for free. Please specify, as the item will otherwise be supplied in a tone-on-tone finish.

ORDER INFORMATION**Ordering the items:**

The order comprises the frame set for armchairs and ottomans (SMGS) and the cushion set for armchairs and ottomans (SMGF). Please specify the upholstery quality and colour for each item!

Adjustment by motor:

Please pay attention that with using the adjustment by motor with battery pack the battery has to be charged completely every 4 to 6 weeks, also if the function wasn't used regularly..

Rotary limitation:

The armchairs with stream supply by net cable are defeated by a rotary limitation to maximum 355° what serves for the protection of the net cable.

Combined covers:

The chair can also be supplied in a combination

www.schillig.com

of different cover qualities. This is shown at the price list.

Item 1: Frame = SMGS – Set of armchair and ottoman shells

Item 2: Seat, backrest, armpart and ottoman cushions = SMGF – Set of armchair and ottoman cushions

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

Contrasting thread:

This model is available in leather and some fabric colours with contrasting colour thread at no extra charge. You will find the specified colours in our fabric/leather trolley. Please state the no., otherwise tone-in-tone will be

delivered. **Please note:** Contrast stitching is only available on the body of the armchair and ottoman. For technical reasons, contrast stitching is not available for cushions (seat, armpart, backrest).

All dimensions given are approximate measurements in inches. We reserve the right to make changes. The dimensions are given in width/depth/height/seat height.

Note on seat height:

The final seat height on this model is only reached over time by sitting in, due to the upholstery construction.

Seat depth: approx. **20 in**

Overall depth with function: approx. **44 in**

Particularly casual upholstery:

The upholstery of the model is particularly casually processed to create a certain visual appearance, which is characterised by a

super soft surface. Covers may already show a pronounced wave pattern on delivery, which is intentional in terms of design and construction and can become even more pronounced during use. This is not a quality defect, but a model-related characteristic.

Information on the upholstery structure:

Chamber cushions filled with a high-quality mix of polyester fibres and foam rods have been used in the seat and back. This can lead to depression of the individual chambers, which is a typical product characteristic.

Digital fabric/leather and colour samples:

The visual appearance of the covers and colour samples may vary, samples in accordance - colour and structure deviations possible.
