Basketball is the best athletic sport where physique and skill are very important, but fans always go wild for 'tricksters' - one player who does a seemingly impossible job with the ball! Now is your chance to emulate that superstar! Trick Hoop Challenge is an intense and fun 'street basketball' game where you challenge your computer opponents to replicate your awesome basketball trick shots. To become a legend of the B-ball, try awesome board shots, sky-high moon shots, wicked wall shots, and more outrageous efforts on quests. The stronger the trick shot - the more likely you are to spirit your opponent! This fun and surprisingly addictive ball sports game requires mouse click accuracy as well as very steady hands. Like basketball in real life, your goal is to be right to target otherwise you suffer the dreaded 'bounce out'! Knowledge of angles and trajectories is important, but especially for tricky efforts that require bouncing the ball off walls or the ground. Do you have the extreme skills to mark yourself as a street superstar? Or is your trick that 'magic' out of touch? It's time to put on a show! Happy Hoop Shooting! How to play: You need to take on 9 increasingly skilled computer opponents in a series of / 1-3 points match. To score, you've got to 'challenge' your opponent by pulling one of six different trick shots. If you land a shot successfully, your opponent will have to duplicate that shot so as not to give you points. If you miss the first shot, your opponent has a chance to 'challenge' in the same way. The game continues as follows until one player scores 3 points and is declared the winner. Six trick shots marked with icons along the top of the game screen may be attempted. Using a computer mouse or touchpad, you need to click on the selected trick shot before you try anything. Six other shots are normal (the ball must be thrown into the basket and there are no restrictions). wall (the ball must bounce off the left side wall in advance and then fall into the basket); bottom (the ball should first hit the ground and then go to the

basket); moon (the ball must go into the air, out of sight and then fall into the basket); board (the ball must first hit on the backboard); And Swish (the ball can't hit anything on the way - even a rim). To run the shot, use the mouse cursor to place the ball, and then drag it away from the direction you want to throw the click (long). A red arrow appears and grows depending on the force you want to exert on the throw. Just turn off the click and throw the ball in the direction you want. Tip: At the beginning of the match, your opponent is not particularly skilled, so easy shots should win in most cases. Good luck!
