Summary

Fifteen-year-old Ichigo Kurosaki is a typical teen with fighting skills, two caring sisters and a special trait: he can see ghosts. However, when Ichigo and his family find themselves under attack by a huge beast, Ichigo discovers that there's more to the supernatural world than the everyday specter. Vengeful spirits known as Hollows roam the world in search of devouring souls, and Shinigami – soul reapers – work tirelessly to defeat them and guide normal ghosts into a place called Soul Society. Ichigo valiantly fights the Hollow that threatens his sisters, but on the verge of defeat a Shinigami named Rukia gives him her powers, turning him into a Shinigami himself. Ichigo must now adjust to his new life of both vanquishing and saving souls for the sake of Soul Society. **(Anime-Planet)**

In this arc, Soul Reaper Ichigo Kurosaki and his friends investigate a series of strange events in the Soul Society where numerous Soul Reapers have disappeared without a trace, with a seemingly large conspiracy at work. Meanwhile Ichigo is slowly starting to loose his shingami powers as a result of his battle against Aizen in the previous season. **(Wikipedia)**
