

# Gallagher's Water

## FEATURES

- ◆ Alfalfa-flavored
- ◆ Contains electrolytes
- ◆ Competition-safe
- ◆ All-natural, no preservatives, nothing artificial
- ◆ Individual serving sachets are easy to transport
- ◆ Available with No Added Sugar for horses with metabolic issues
- ◆ Available in 10-lb bags for those with large herds

## HOW TO USE

Using Gallagher's Water is as easy as 1-2-3!

1. Fill a bucket with two gallons of water.
2. Add the contents of one packet of Gallagher's Water.\*
3. Stir until mixed and serve immediately.

*\*If using a loose powder product (such as No Added Sugar formula or the Farm and Ranch size), use one scoop of Gallagher's Water powder per one gallon of water.*

## WHEN TO USE

- ◆ Use as part of a daily hydration program
- ◆ Before, during, and after hauling or traveling
- ◆ Arriving in a new environment
- ◆ For workout recovery, after a ride or competition
- ◆ In hot or cold temperatures or sudden weather changes (serve warm as an extra treat in cold weather)
- ◆ At the first sign of colic
- ◆ For broodmares: after foaling and while lactating
- ◆ As a treat or any time you want to encourage your horse to drink more water

## WHAT IS GALLAGHER'S WATER?

**Gallagher's Water is the original, patented, all-natural, hydration beverage for horses!**

**Does your horse have a drinking problem?** How often have you struggled to get your horse to drink enough water – whether after exercise, in the heat or cold, when traveling, when sick, or when the weather suddenly changes? In any of those instances, horses may not drink enough water. Now there's a solution: Gallagher's Water!

One serving will get two gallons of water and electrolytes into your horse quickly. Served daily, Gallagher's Water helps to ensure your horse is properly hydrated. The alfalfa-flavored electrolyte powder mix transforms your horse's water into an irresistible treat with benefits.

**Science says...** A study by Louisiana State University shows that horses that drink Gallagher's Water consume an average of 65% more water, making it easier than ever to ensure your horse remains hydrated!

**Note:** *Gallagher's Water is not just for horses! It can be used for cattle, sheep, goats, pigs, and chickens to ensure your livestock is properly hydrated.*
