Spanish frequency list pdf

Tips on how to use this list: If you see a word and check its translation immediately, it hardly stores it. If you do your best to remember what the word means before checking the translation, the storage possibilities are much better. Choose a word you haven't learned and digitize in Wiktionary to see other definitions, usage notes, and sample phrases. It is always interesting to see a word in context, that is, in the example phrases. If a word is new to you, digitize in to see example phrases: that website is a godsend. It's also interesting to type in words you haven't learned in Google Images, to have a greater appreciation and understanding of their meaning. To study in the right way, Anki software is a great help, as it automatically schedules review dates for you. Download this deck for your Anki: Words are sorted by the most used, to a minimum. If memorizing the entire list you won't be able to talk at all, but you'll be able to figure it out: you'll be able to read anything in Spanish without struggling like books, Spanish forums, and news articles. And from this learning to speak comes naturally. People complained that verb translations were incomplete; the translation does not say whether the verb is first or second person or past or future. Valid complaint, so I would recommend skipping verbs or searching for a verb on Wiktionary for a more complete translation. Outside the verbs, this list should be practically impeccable. A version of this list without verbs can be found here. The list above is free and always will be. (Please don't paste the contents of this blog to your site instead, link directly here! Your support for the author is appreciated.) Word and lemni count: The following frequency lists count distinct spelling words, including inflected shapes and some capitalized shapes. For example, the verb being is represented by is, are, were, and so on. English[edit] TV and movie scripts[edit] Most common words in television and film scripts: here are frequency lists comparable to Gutenberg's, but based on 29,213,800 words from television and film scripts and transcripts. Here is a more complete explanation of how the list was generated and its limitations: Wiktionary:Frequency lists/TV/2006/explanation. Here are the first hundred words (from television scripts) in alphabetical order: a · About · all · and · they are · how · a · backwards · The Committee on Fisheries and Development has made it very clear that it is not a question of whether or not we are going to be in a position to do — (DE) The Committee on The Environment, External Market, Research and Development has not been in a position to give an opinion on this report. The Committee on Fisheries and Development cannot make a statement on this. come · it could · — (DE) The Committee on The Environment, External Market, Research and Development has not yet received a proposal from the Commission. — (DE) The Committee on The Environment, External Market, Research and Development has not yet been in a position to give an opinion on this report. for · — (DA) Mr President, i · — (IT) Mr President, i go · — (DE) The Committee on The Environment, External Market, Research and Development has not yet been given the opinion of the Committee on The Environment, External Market had · they have · The Committee on Fisheries and Development in this case · he is · Hey · He said: 'I think it' its · how · I · if · I am not going to be the first I am · in · The Committee on the Environment, Public Health and Consumer Policy, the Committee on Fisheries and Development has been a member of the Committee on the Environment, Public Health and Consumer Protection. — (IT) Mr President, i I like the committee. Look at this. — (DE) The Committee on The Environment, External Market, Research and Development has not been in a position to give an opinion on this report. No. It is not the first time that a member of the of · Oh · All right · that's fine · — (DE) The Committee on The Environment, External Market, Research and Training has not been in a position to give an opinion on this report. It is not a question of whether or The Committee on Fisheries and Development is in fact a member of the Committee on Fisheries and Rural Development. law · — (IT) Mr President, i see · — (IT) Mr President, i — (DE) The Committee on The Environment, External Market, Research and Development has not been in a position to give an opinion on this report. something · — (IT) Mr President, i that · this is · The Committee on the Environment, Public Health and Consumer Policy, then the Committee on the Environment, Public Health and Consumer Policy, has been working on a proposal for — (DE) The Committee on The Environment, External Market, Research and Development has not been in a position to give an opinion on this report. think · this · time · a · — (DE) The Committee on The Environment, External Market, The Committee on The Environment, External Market, The Committee on The Environment, External Market, The it was · we · — (DE) The Committee on The Environment, External Market, Research and Training has been in a position to give its opinion on this report. what · where · that · because · — (DE) The Committee on The Environment, External Market, Research and Cooperation has not been in a position to give an opinion on this report. — (DE) The Committee on The Environment, External Market, The Committee on The Environment, External Market, The Yes · you · your · you are here are in order of frequency: 1-1000 · 1001-2000 · 2001-3000 · 3001-4000 · 4001-5000 · 5001-6000 · 6001-7000 · 7001-8000 · 8001-9000 · 9001-10000 The first 1,000 words cover 85.5% of all words (24,981,922/29,213,800). The first 10,000 words cover 97.2% of all words (28,398,152/29,213,800). From 10,000° to 40,000°: 10001-12000 · 12001-14000 · 14001-16000 · 16001-18000 · 18001-20000 · 20001-22000 · 22001-24000 · 24001-26000 · 26001-28000 · 28001-30000 · 30001-32000 · 32001-34000 · 34001-36000 · 36001-38000 · 38001-40000 40001-41284 (the scum that were tied for the final place) This is a third of all unique words. The rest was used 5 or less times each. Specific TV series dictionaries [edit] 5000 frequency dictionary based on all episodes of The Simpsons Project Gutenberg[edit] Most common words in Project Gutenberg: These lists are the most frequent words, when performing a simple, straight (obvious) frequency count of all books found on Project Gutenberg. The list of books was downloaded in July 2005 and rsynced monthly later. These are mostly English words, with some other languages finding representation to a lesser extent. Many of Project Gutenberg's books are scanned once their copyright expires, typically editions of books published before 1923, so language does not necessarily always represent current use. For example, thy is listed as the 280th most common word. In addition, with over 24,000 books, the text of the boilerplate notice for Project Gutenberg appears on each of them. Here are the first 100 words of the Gutenberg Project texts in alphabetical order: These wikified terms can be copied into other linguistic wiktionaries; that's what they're meant for. If you do, add an interwiki link to the page here. Attendance lists at 2006-04-16: Attendance lists at 2005-10-10: 1001-2000 · 2001-3000 · 3001-4000 · 4001-5000 · 5001-6000 · 6001-7000 · 7001-8000 · 8001-9000 · 9001-10000 Attendance lists at 2005-08-16: Wiktionary:Frequency lists/PG/2005/08/1-10000 Wiktionary:Frequency lists/PG/2005/08/10001-20000 Wiktionary:Frequency lists/PG/2005/08/20001-30000 Wiktionary:Frequency lists/PG/2005/08/30001-40000 Wiktionary:Lists of 40001-50000 Wiktionary:Attendance lists/PG/2005/08/50001-60000 Wiktionary:Frequency lists/PG/2005/08/60001-70000 Wiktionary:Attendance lists/PG/2005/08/7000 1-80000 Wiktionary:Frequency lists/PG/2005/08/80001-90000 Wiktionary:Frequency lists/PG/2005/08/90001-1000000 frequency/PG/2005/08/90001-1000000 24,197 files, 1,712,082,956 words, 70,756.0 average words per file, from which about 9,053,310 unique words were collected. Contemporary fiction the 2,000 most common words in contemporary fiction can be found here: Wiktionary:Frequency lists/Contemporary fiction. The 2,000 most common words in contemporary fiction can be found here divided into 60 categories of subjects. Wiktionary:Attendance/Contemporary Fiction lists in 60 categories. This groups regular lees of the same word, unlike most of these lists. Contemporary poetry [edit] The 2,000 most common words in contemporary poetry can be found here: Wiktionary:Frequency lists/Contemporary poetry. Another list based on lemma. Main English word lists[edit] Albanian word families[edit] [edit] 50K and lists of larger words based on www.opensubtitles.org Arabic[edit] Bulgarian[edit] Catalan[edit] Czech[edit] Danish[edit] Dutch[edit] Words frequent with example sentences: The thirteen most popular Dutch words: From Max Havelaar (numbers in parentheses denote occurrences): Attendance lists of the University of Leipzig: Frequency of diacritics in Dutch: From diacritics in Dutch. A list of almost 250,000 Dutch words contained a total of 3538 diacritics: Character frequency è 1762 ì 599 é 468 is 248 ö 171 ê 71 ü 61 ó 35 ç 30 á 24 à 17 â 16 ù 8 î 7 î 5 ö 4 ú 4 ñ 4 â 3 Å 1 Esperanto[edit] Frequent words with sample phrases: Estonian[edit] Finnish[edit] Frequent words with sample sentences: full list of available Finnish online corpora and corpora downloads: The Language Bank of Finland French[edit] Frequency lists with English translation: Phrases sorted by frequency of their words: Frequency lists from with laboratory permission. Main French words from subtitles based on www.opensubtitles.org Note: these indicative lists still require some cleaning, because: they do not unify common words that are not normally uppercase in the dictionary, but can be capitalized at the beginning of sentences or titles; do not properly break words preceded by a separate word contracted with an apostrophe for very common articles (l') or preposition (d') or adverb of negation (n) or pronom (c', j', l', m', s', t), or verbal link particles (-t, -z-, which are not really words as they have no meaning but are written for phonetic reasons), or pronomial subjects immediately after the verb (after a mandatory connecting hyphen, which still does not make a compound word but denotes the inversion of the subject rather than the normal occurrence of an object): all these words should counted separately; the source certainly comes only from French Belgian written documents, with events typical for that country and no equivalence for France, or other French countries where these words are very very used (as abbreviations of currency, Belgian place names for regions and cities and many missing terms for very common specialties in France); the list contains isolated letters that are not words, per se (except for a few effective words: a, à, y); moreover, there are acronyms and symbols that occur only in written documents but not as part of the spoken language; frequent proper names are included but are not very specific to any of the 4 languages studied. This list does not unify inflected words (with plural or feminine sign on nouns or adjectives, or conjugate verbs), and does not recognize auxiliaries of verbs with compound times as part of the conjugate verb, but treats auxiliaries separately for each inflected form. The alphabet in this list can be very useful for detecting redundancies. Frequent nouns: The most used French nouns in 2000 Frequent words with example phrases: Galician[edit] Georgian[editing] German[edit] Frequency lists with English translation: Phrases sorted by the frequency of their words: German words in Wikipedia: Top 2000 words of German Wikipedia See also the most frequent words 100, 1000 or 10 000 2001. The first German words of 2000 from the subtitles: User:Matthias Buchmeier's Unformatted German frequency list. This list was generated in 2009 by television and film subtitles for a total of 25399099 words. This list can be used under the terms of the cc-by-sa, GFDL, or LGPL licenses. Vocabulary profiler using the 2,709 most commonly used word families, covering 90% of most English texts (excluding their own nouns) to See for the research base. Spanish (Lifcach) is a set of 102 frequency lists derived from the sub-corpora corpus di Corpus Dinámico del Castellano de Chile (Dynamic Corpus of Chilean Spanish, Codicach), a contemporary body of Chilean Spanish developed by Sadowsky between 1997 and 2002; this corpus contained about 450 million words when lifcach was created (it currently contains about 800 million words). Lifcach also contains an unweighted list of total occurrences, which is simply the sum of the frequencies of the 102 individual lists (in other words, the list of frequencies of the entire corpus codicach). English Wikipedia has an article on:Word lists for frequencyWikipedia frequencyWikipedia
