Women Economic Forum (WEF) & ALL Ladies League (ALL)

The forum arm of the global network ALL Ladies League (ALL), the Women Economic Forum (WEF) is an international platform enabling women and leaders from all walks of life worldwide to expand business opportunities and enhance personal influence through networking across borders while being inspired by some of the world's most successful entrepreneurs, authors, thought leaders and celebrities.

We are a non-profit with a philanthropic vision and collaborative spirit.

With connections to 100,000 members and inspiring women across 150 countries, ALL & WEF are among the largest women's networks offering the widest outreach, enabling global connections for empowering women's entrepreneurship and leadership.

We have a strong #SheforShe spirit, with outreach toward #SheforHe and #HeforShe. It is a movement of Gender Equality without Gender Divisiveness.

ALL is a multinational movement of "Sisters Beyond Borders," fostering a worldwide web of women beyond borders, boundaries and bias. It operates via a network of chapters that are circles of self-help through support and sisterhood.

WEF curates conversations, connections, community and collaborations toward our greater influence and impact through relentless inspiration and initiatives. It conducts editions globally encouraging local ALL chapters and widening networks to gather for peer exchange and fostering "Networks Beyond Borders" for personal and business growth, while upholding the spirit of support and sisterhood.

Global Support and Thought Leadership

Across our editions, we have had the good fortune of being addressed by thought leaders from the world including Heads of States, Nobel Laureates, Royalty, Ministers, Mayors, Businesswomen, University Presidents and Professors, Judges, Industrialists, Ambassadors & Diplomats, Film and Sports personalities, and of course inspiring businesswomen, entrepreneurs and supportive leaders from a wide variety of fields.

Heads of States/Nobel Laureates who have addressed us include:

H.E Marie-Louise Coleiro Preca, President of Malta;

H.E. Laura Chinchilla Miranda, President of Costa Rica (2010-2014);

 $H.E.\ Vigd is\ Finnbog ad \'ottir,\ President\ of\ Iceland\ (1980-1996);$

Nobel Peace Laureate 2015, Ouided Bouchamaoui from Tunisia;

H.E Justin Trudeau, Prime Minister of Canada;

H.E. Dr. Michelle Bachelet, United Nations High Commissioner for Human Rights, President of Chile (2006 – 2010 and 2014 – 2018);

H.E. Roza Isakovna Otunbayeva, President of Kyrgyzstan (2010-2011);

H.E. Michael Ashwin Satyandre Adhin, Vice President of the Republic of Suriname.

Youth Outreach

We have an active outreach to youth in communities, schools, colleges and universities as our girls and boys are indispensable partners in delivering the change we wish to see for parity, peace and progress for All. Some token testimonials from university leaders are given below:

"It was amazing to see delegates from more than 100 countries participate and share their journey. The stories about their struggles and how they overcame barriers and stereotypes, prior to being successful, touched each one of us. The forum afforded an amazing opportunity for the NMSU delegation, students, staff, and faculty to interact with global leaders. This experience is invaluable in developing further as global leaders." - Rolando A. Flores, Dean College of Agricultural, Consumer and Environmental Sciences, New Mexico State University, USA

"A truly outstanding and eye opening event! I felt honored to speak at the WEF with so many of the most accomplished and amazing women in the world in attendance and as speakers." - Richard D'Aveni, Bakala Professor of Strategy, Tuck School of Business at Dartmouth College, USA.

WFF - 5WCW Missinn Millinn 2022

We have also announced MISSION MILLION in India for 2022, gathering women of the world in solidarity. Mission Million is aimed at connecting a million women entrepreneurs and supportive leaders worldwide as an empowering sisterhood and inspired community, toward opening up exponential opportunities for connections and collaborations in a spirit of parity, peace and prosperity for All.

This would be a follow up on previous United Nations world conferences for women, held in Mexico in 1975, Copenhagen in 1980, Nairobi in 1985, and the 4WCW in Beijing in 1995 where 12000 women representative from across the world came together.

25 years hence, since the UN has not yet moved toward a 5th World Conference for Women - which would serve as a modern milestone for the journey and growth of women empowerment in our times, we have thus envisioned the 5WCW as WEF - 5WCW Mission Million 2022 with the goal of having a million women worldwide gather for a 5th World Conference of Women originating in India in 2022.

WEF-Santa Barbara, 11th-15th Nov 2016, 2016

WEF—Santa Barbara focused on the big opportunity for leadership from the feminine consciousness of nurturing and connecting, and how the feminine spirit can change the landscape for dialogue and growth in business and policies. The forum discussed global issues relating to women's integration in the mainstream of society as well as cultures and mindsets that conflue to leave many women out. It dived into inquiry around how through "soft power" of awakening the feminine in both men and women, the US can strengthen its leadership position in technology, innovation and creativity, and also play the much—needed role of bringing hearts and minds together. It was a collaborative platform for an open dialogue on how the United States has an opportunity to reinvent itself into a more dynamic, more collaborative, more inclusive society where the interests of a diverse cross sections of society are addressed and their growing global aspirations explored.

Grassroots Achievers of the Decade 2014-2019

ALL Ladies League, we believe in seamlessly connecting women across our diverse socio—economic strata and celebrating success stories across the rural—urban spectrum. With our Grassroots Women of the Decade Achievers Awards, we identify and honor women entrepreneurs and achievers at the grassroots level across domains. It is our mandate to tell the stories of these unsung heroes, often laced with much struggle and fortitude in the face of unbelievable odds.

My sincerest gratitude for everything! I don't even know how or where to start. I am still so overwhelmed with the event, that I feel like I still have a WEF hangover, I did not just learn a lot, the friendships and connections made with the other ladies are priceless. It's like I have broadened my horizon career-wise and made new friends along the way. The ALL ladies empower each other and are achievers in their own rights. There was a good mix of personalities, backgrounds, cultures and professions, that itself made an impact on my outlook in life. I may have been one of those who have lesser experience age-wise and career-wise compared to most of the delegates, but talking to them, hearing them talk, knowing and spending time with them motivates me and makes me realize the choices that I have made. I couldn't see and understand why things happened before, but everything now just make me realize that all the things in past were bound to happen exactly how they happened. Otherwise, the rest wouldn't turn out this way. And right now, I am just really grateful. Wouldn't have it any other way.
