When the remake of Teenage Mutant Ninja Turtles came out in 2014, it was terrible. Teenage Mutant Ninja Turtles movies from the 90s were also terrible, but in a good way, with many people having a soft spot for cheesy one-liners, bad suits, and even worse act. All three films see turtles fighting, quipping, and thwarting the plans of their nemesis, Schroeder and his endless supply of thugs known as Foot Clan. Each movie becomes more funny with the final going so far as to transport the turtles back in the time of feudal Japan. They all have terrible reviews all over the way but there is something charming about them and you will laugh for all the wrong reasons all the way through. Teenage Mutant Ninja Turtles, Teenage Mutant Ninja Turtles II: The Secret of The II, and Teenage Mutant Ninja Turtles III: Turtles in Time are all available to stream right now on Netflix. Named after Italian Renaissance artists, they were trained by their anthropomorphic senei rat in Japanese martial art ninjutsu. From their home in the sewers of New York, they fight with petty criminals, evil overlords, mutated creatures and alien invaders, trying to stay hidden from society. They were created by Kevin Eastman and Peter Laird. Characters in comics published by Mirage Studios and expanded into animated series, movies, video games, toys and other merchandise. At the height of the franchise's popularity in the late 1980s and early 1990s, it gained worldwide success and fame. The story of the cover of Teenage Mutant Ninja Turtles #1 (May 1984) Teenage Mutant Ninja Turtles first appeared in the American comic book published by Mirage Studios in 1984 in Dover, New Hampshire. The concept originated from a humorous drawing sketched by Eastman during a chance evening of brainstorming and bad television with Laird. Using money from tax refunds, along with a loan from Uncle Eastman, the young artists self-published a comic book designed to parody four of the most popular comics of the early 1980s: Marvel Comics' Daredevil and The New Mutants, Dave Sim's Cerebus and Frank Miller's Ronin. The TMNT comic book series has been published in various incarnations by various comic book companies since 1984. The Turtles began their rise to mainstream success when the licensing agent, Mark Friedman, tracked down Eastman and Laird to offer more merchandising opportunities for the franchise. In 1986, Dark Horse Miniatures released a set of 15 mm (approximately 0.6 inches) of lead figurines. In January 1987, Eastman and Laird visited the offices of Playmates Toys, a small California toy company that wanted to enter the figurine market. The development was taken by a creative team of companies and individuals: Jerry Sachs, advertising agent of the agency Sachs-Finley, gathered animators in Murakami-Wolf-Swenson led by Fred Wolfe. Wolf and his team combined concepts and ideas with the Playmates marketing team, led by Carl Aaronian, Vice President of Sales Richard Sallis and Playmates Vice President Bill Carlson. Aaronian brought on several designers and concept-taker and writer John K. Schulte, and developed a simple backstory that would live on the packaging for the game throughout the product launch and show. Sachs called the high concept Green vs. Brick. The sense of humor was honed in collaboration with the writers of the animation firm Murakami-Wolf-Swenson. Playmates and their team essentially served as associate producers and contributing writers to the miniseries, which was first launched for sale in toy action figures. Phrases such as Heroes in a half-skull and many comic phrases and battle cries (Turtle Power!) came from the writing and conceptualization of this creative team. As the series developed, veteran writer Jack Mendelsohn came on board as a story editor and screenwriter. David Wise, Michael Charles Hill and Michael Reeves wrote most of the scripts. The mini-series was repeated three times before it found an audience. After the product began to sell, the show got syndicated and picked up and supported by the band W, which The next round of animation. The show then went online, on CBS. Accompanied by the popular 1987 series Teenage Mutant Ninja Turtles and the subsequent line of figure, Teenage Mutant Ninja Turtles became a mainstream success. At the height of madness, in the late 1980s and early 1990s, the likes of Turtles could be found on a wide range of children's goods, from Pez dispensers to skateboards, breakfast cereals, video games, school supplies, underwear, towels, cameras, and shaving kits toy. While the animated series, which lasted 10 seasons until 1996, was more lighthearted, the comic book series continued in a much darker and grittier tone. In 1990, a feature film was released live, in the film Turtles and Shard actors in partially animatronic costumes created by Jim Henson The Shop of Creatures. The independent film has been a very successful spawning of two sequels, as well as inspiring a three-dimensional animated film set in the same succession that was released in 2007 under the title TMNT. After the end of the animated series, the live-action series in the spirit of the films was created in 1997 in collaboration with Saban Entertainment. The series was called Ninja Turtles: The Next Mutation and introduced a fifth female tortoise called Venus de Milo. However, the series was largely unsuccessful and was canceled after one season. The hotel didn't sleep until 2003, when a new animated series, also titled Teenage Mutant Ninja Turtles, began airing on Fox Box (4Kids TV). The storyline of the series stuck much closer to the original Mirage comic book series, but was even less brutal. It lasted seven seasons and 156 episodes, ending in February 2009. In 2009, the cable channel Nickelodeon (a subsidiary of Viacom) bought all Of Mirage's rights to the property of Teenage Mutant Ninja Turtles. Mirage has retained the right to publish 18 issues per year, although the future of Mirage's participation with Turtles and the future of Mirage Studios is itself unknown. Nickelodeon has developed a new cgi-animated television series TMNT and partnered with fellow Viacom company Paramount Pictures to bring the new TMNT movie to theaters. The TV show premiered on Nickelodeon in September 2012 and lasted five seasons and ended in 2017. The film, produced by Platinum Dunes, Nickelodeon Movies and Paramount Pictures, directed by Jonathan Libesman and produced by Michael Bay, was released on August 8, 2014. In June 2016, the sequel Teenage Mutant Ninja Turtles: Out of the Shadows directed by Dave Green was released. Due to financial underperforming performance, plans for a third film have been canceled and a new TMNT reboot is in development. Nickelodeon's new series, Rise of the Teenage Mutant Ninja Turtles, was released in 2018 and continues. Main Characters Main Article: List of Teenage Mutant Ninja Turtles characters Leonardo - Tactical, level-headed, quiet, courageous leader and devoted student of his own with a feeling, Leonardo wears a blue mask and wields two swords. As the most conscientious of the four, he often bears the burden of responsibility for his brothers, which usually leads to conflict with Raphael. Leonardo was named after the Italian polymath, artist, engineer, inventor, writer, anatomist and sculptor Leonardo da Vinci. Michelangelo (Mikey or Mike) - The most stereotypical teen of the team, Michelangelo is a free-spirited, relaxed, blunt, mischievous, prankster known for his love of pizza and kind-hearted nature. Michelangelo wears an orange mask and owns a pair of nunchakus. It provides comic relief, although it still has an adventurous side. The least mature of the four turtles, it features the characteristics of a surfer type and is often depicted with a Southern California accent. It is named after the Italian Renaissance painter, sculptor, architect, poet and engineer Michelangelo. His name was originally misunderstood by Michaelangelo's Peter Laird and Kevin Eastman. Donatello (Donnie or Don) - scientist, inventor, engineer and technological genius, Donatello wears a purple mask and owns a bo (staff). Donatello is perhaps the least violent tortoise, preferring to use his knowledge to solve conflicts, but never shy to protect his brothers. It is named after the Italian artist and sculptor of the early Renaissance from Florence, Donatello. Rafael (Raph) - the antihero of the team, Rafael wears a red mask and owns a pair of cy. He has an aggressive character, and is rarely shy to throw the first punch. He is often depicted with a New York accent. His personality can be brutal and sarcastic, and often provides deadpan humor. He is very loyal to his brothers and with feeling. It is named after the Italian artist and architect of the High Renaissance Raphael. Splinter - with the feeling of turtles and adoptive father.
